鹰飞化工

公司简介

青岛鹰飞化工有限公司于 2001 年成立，是一家专业从事海藻系列产品生产的企业，主要生产经营海藻酸钠、海藻添加剂、甘露醇、碘、海藻粉、甲壳素等，其中主导产品海藻酸钠年产量可达 5000 余吨。

近年来，公司通过科技改进及深化技术研发，提高了产品的质量，降低了产品成本，使公司产品在国内外市场中具有更高的性价比。

公司拥有科学的质量管理体系，雄厚的技术力量，先进的生产设备和检测手段，并先后同青岛海洋大学、青岛化工学院等多家国内高等院校建立了技术合作关系。不但提高了新产品开发能力，还培养了一支高素质的技术人才队伍。可为用户提供全面技术指导。

Qingdao Yingfei Chemical Co., Ltd is one professional enterprise engaging in machining alga products, which mainly manages sodium alginate, alga additive, mannitol, iodine, alga powder and carapace element and so forth. The output of main product sodium alginate can reach about 5,000 tons.

In recent years, the company enhances technology content and reduces price through amelioration, which makes price become lower than average level in our country and has good price performance ratio.

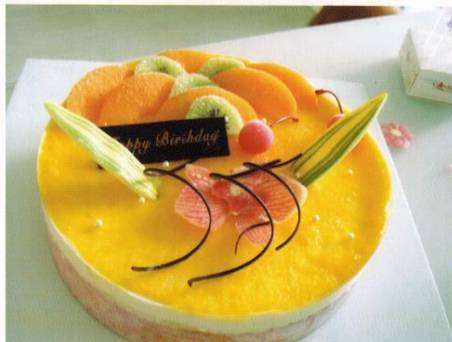

The company owns scientific quality control system, abundant technology power and advanced production equipment and testing method. The company confirms "taking technology as root and taking quality as leading" policy and has established good cooperation relationship with tens of colleges such as Ocean University of China and Qingdao Chemical Technology College and so forth. The company not only enhances capacity of developing new products, but also trains skillful technicians that can offer clients technology guide.

The whole investment branch of "Qingdao Bonded Area Jinrongda International Trade Company" has its own export and import right, which can manage foot, machine, textile, printing and paper making and can offer clients perfect service.

Persisting in "lower price and better quality and service", the company sincerely offers clients at domestic and abroad good product and service. With all employees, board chairman Tan Gengbo faithfully wishes to cooperate with all friends by right of endless sincerity and perfect service.
