

Water Treatment & Other Chemicals,
Pharmaceutical Raw Material, Dyes & Pigments.

Quality that
you never forget

www.pursuitind.com

With the extensive experience, we offer you quality products
and enhanced services that exceeds your expectations.

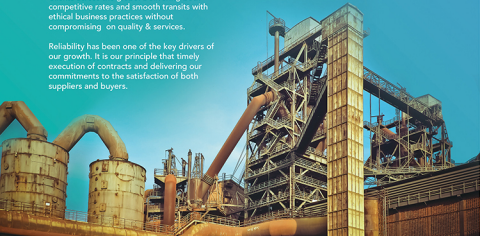

Committed To Customer Satisfaction

We are exporting our products to all over globe with quality benchmark and have **300s of satisfied clients** all over the world.

Pursuit Industries Pvt. Ltd. is Pursuit group of companies, under the leadership of Mr. Navin Mehta, who have vast experience of 40 years, we are involved in business of Chemicals, Pharmaceuticals, Dyes / pigment and Food Products from India.

We have the reach and scale to service our Clients across the globe. Delivering both competitive rates and smooth transits with ethical business practices without compromising on quality & services.

Reliability has been one of the key drivers of our growth. It is our principle that timely execution of contracts and delivering our commitments to the satisfaction of both suppliers and buyers.

Safety, Quality, Excellence.

Our mission to provide superior quality service that Buyer select for their client, Employees are Proud of and Investor seek for long-time returns. Our customer can trust our products because we Act with integrity and do what is right.

Our Vision is to be a premium global organization with quality benchmark and satisfied clients.

Our customer department provides fast and courteous responses to pricing, availability and order tracking.

We constantly stand by our customers' side with :

• **Novelty** • **Special Expertise** • **Erection Development**

Chemical Products

Water Treatment Chemicals

- Ferric Chloride 40% Liquid / Anhydrous / Hexahydrate
- Poly Aluminium Chloride Powder / Liquid 10% & 17%
- Aluminium Sulphate 16% / 17% Powder / Lumps
- Calcium Hypochlorite 65-70% Granules
- Caustic Soda Lye 48% / Flakes / Prills
- Activated Carbon

Acids

- Hydrochloric Acid 32-35%
- Sulphuric Acid 78% / 98%
- Nitric Acid 61.5% / 68%
- Acetic Acid

Oil & Gas / Drilling / Mining

- Bentonite API / OCMA
- Industrial Salt
- Calcium Chloride Powder / Prills 94-97%
- Benzalkonium Chloride 50% / 80%
- Hydrated Lime 90% / 92%
- Drilling Detergent / Drilling Starch
- Nitric Acid / Hydrochloric Acid / Sulphuric Acid

Soap / Detergent

- Sodium Silicate Liquid / Lumps
- Caustic Soda Flakes / Lye 48%
- Sodium Sulphate Anhydrous
- Magnesium Chloride Flakes / Anhydrous
- CDEA / CAPB 36% & 45%
- Talc (Soap Stone)
- Detergent Powder

Other Chemicals

- Ammonium Hydroxide 23-25% / Food Grade 27-30% (Ammonia Solution)
- Chlorinated Paraffin Wax 52%
- Potassium Iodide
- Calcium Carbonate
- Sodium Metabisulphite (SMBS)
- Liquid Glucose
- Sorbitol
- Maize Starch
- Zinc Oxide
- Zinc Sulphate
- Manganese Sulphate
- Copper Sulphate
- Calcium Nitrate
- MEG / TEG
- Oxalic Acid
- Ethyl Acetate
- Benzoic Acid / Sodium Benzoate
- BHT / BHA

Pharmaceutical API

We are one of the top API exporter companies in the India, and also one of the very few pharmaceutical companies that are vertically integrated with a presence in the API and Formulations segments. This makes Pursuit a truly formidable, fully integrated global company.

By maintaining cost leadership and competitiveness in various therapeutic domains, Pursuit's API business has ensured the profitability and growth of the company's Formulation business in addition to being a top API supplier globally.

- Povidone Iodine USP
- Chlorhexidine Gluconate 20% / Base
- Cetrime BP / 40% Solution
- Levosulpiride IHS
- Amisulpride IP / BP / EP
- Meloxicam BP / USP / EP
- Sodium Picosulphate BP / EP
- Lidocaine BASE / HCL BP/ USP
- Bisacodyl BP / USP
- Iron III Hydroxide Polymatose Complex IHS
- Cilnidipine IHS
- Benidipine HCL IHS / JP
- Lornoxicam IHS
- L-methylfolate IHS
- Teneliglitin IHS
- Tigecycline USP

These APIs made by the equipment that meet strict requirements, minimize wastewater contaminants, recycle wastewater for use in boilers and cooling towers, and **reduce our impact on the surrounding communities.**

Dyes & Pigments

Natural dyes

Sensient Cosmetic Technologies presents Nature Col, an extensive range of specialty natural dyes from vegetal renewable sources. All the products meet purity criteria and characteristics set by the Food Regulation 231/2012/EC. Combining the expertise and application.

Association with color protectors

We recommend the use of color protectors from Covabsorb range, three proprietary blends of organic UV absorbers with anti-oxidant properties to overcome frequent light stability problems occurring in formulation. Covabsorb (oil soluble) is broadly used in perfume and skin care.

Synthetic dyes

Sensient Cosmetic Technologies has a complete range of synthetic colors manufactured to the highest standards for the cosmetic market. They include FD&C, D&C and Ext. D&C dyes but also EC food dyes in powder form.

Thanks to the undisputed leadership of Sensient group in synthetic colors, our products are designed to unlock valuable opportunities, provide optimum performance and present superior solutions for cosmetic formulations.

Basic Dyes Powder

Basic Rhodamine B

C.I. Name Rhodamine B 540%
Trade Name Basic Violet 10

Basic Magenta

C.I. Name New Fuchsin
Trade Name Basic Violet 2

Basic Bismark Brown R

C.I. Name Bismark Brown R
Trade Name Basic Brown 4

Basic Victoria Blue B

C.I. Name Victoria Blue
Trade Name Basic Blue 26

Basic Brilliant Green Crystal

C.I. Name Brilliant Green Crystal
Trade Name Basic Green 1

Basic Auramine O

C.I. Name Auromine O
Trade Name Basic Yellow 2

Basic Gentian Violet

C.I. Name Crystal Violet
Trade Name Basic Violet 3

Basic Astraphoxine

C.I. Name Astraphoxine
Trade Name Basic Red 12

Basic Chrysodine R

C.I. Name Chrysodine R
Trade Name Basic Orange 1

Basic Malachite Green Crystal

C.I. Name Malachite Green Crystal
Trade Name Basic Green 4

Basic Methyl Violet 2B

C.I. Name Methyl Violet 2B
Trade Name Basic Violet 1

Basic Bismark Brown Y/G

C.I. Name Bismark Brown Y/G
Trade Name Basic Brown 1

Basic Methylene Blue

C.I. Name Methylene Blue
Trade Name Basic Blue 9

Basic Chrysodine Y

C.I. Name Chrysodine Y
Trade Name Basic Orange 2

Basic Auramine OF

C.I. Name Auromine 'OF' (Spirit Soluble)
Trade Name Basic Yellow 2

Basic Dyes Liquid

Basic Auramine O Liquid

C.I. Name Auromine O Liquid
Trade Name Basic Yellow 2

Basic Gentian Violet Liquid

C.I. Name Crystal Violet Liquid
Trade Name Basic Violet 3

Basic Rhodamine B Liquid

C.I. Name Rhodamine B Liquid
Trade Name Basic Violet 10

Basic Bismark Brown Y/G Liquid

C.I. Name Bismark Brown Y/G Liquid
Trade Name Basic Brown 1

Basic Methyl Violet 2B Liquid

C.I. Name Methyl Violet 2B Liquid
Trade Name Basic Violet 1

Basic Bismark Brown R Liquid

C.I. Name Bismark Brown R Liquid
Trade Name Basic Brown 4

Basic Astraphoxine Liquid

C.I. Name Astraphoxine Liquid
Trade Name Basic Red 12

Basic Victoria Blue Liquid

C.I. Name Victoria Blue Liquid
Trade Name Basic Blue 26

Basic Brilliant Green Liquid

C.I. Name Brilliant Green Liquid
Trade Name Basic Green 1

Basic Malachite Green Liquid

C.I. Name Malachite Green Liquid
Trade Name Basic Green 4

Basic Ethyl Violet Liquid

C.I. Name Ethyl Violet Liquid
Trade Name Basic Violet 4

Application (Basic Dyes Powder & Liquid)

This type of dyestuffs are recommended for Paper, Textile, Detergent, Marking Ink, Writing Ink, Dry colours, Agricultural Spray Marker Dye, Plastic, etc.

Solvent Powder

Solvent Oil Yellow AM

C.I. Name Oil Yellow AM
Trade Name Solvent Yellow 2

Solvent Oil Orange SC

C.I. Name Oil Orange SC
Trade Name Solvent Yellow 14

Solvent Methyl Violet Base

C.I. Name Methyl Violet Base
Trade Name Solvent Violet 8

Solvent Auramine O Base

C.I. Name Auramine O Base
Trade Name Solvent Yellow 34

Solvent Crystal Violet Base

C.I. Name Crystal Violet Base
Trade Name Solvent Violet 9

Solvent Oil Orange DK

C.I. Name Oil Orange DK
Trade Name Solvent Red 1

Solvent Oil Scarlet R

C.I. Name Oil Scarlet R
Trade Name Solvent Red 23

Solvent Oil Red R

C.I. Name Oil Red R
Trade Name Solvent Red 24

Solvent Rhodamine B Base

C.I. Name Rhodamine B Base
Trade Name Solvent Red 29

Solvent Victoria Blue Base

C.I. Name Victoria Blue Base
Trade Name Solvent Blue 4

Solvent Crsodine Y Base

C.I. Name Crsodine Y Base
Trade Name Solvent Orange 3

Solvent Oil Brown AC1

C.I. Name Oil Brown AC1
Trade Name Solvent Brown 1

Solvent Liquid

Solvent Red 19E Liquid

Solvent Red 164(m) Liquid

Solvent Red 215 Liquid

Solvent Blue 79 Liquid

Solvent Blue 98 Liquid

Solvent Green 33 Liquid

Solvent Green 65 Liquid

Solvent Green 79 Liquid

Solvent Yellow 8 Liquid

Solvent Yellow 124 Liquid

Solvent Orange 98 Liquid

Solvent Orange M Liquid

Solvent Purple RS Liquid

Solvent Black M

Solvent RFL 2G (Fluorescent Green)

Application (Solvent Powder & Liquid)

This dyestuffs are recommend for coloration of petroleum products, lubricating oils, used in Ink, paraffin wax, etc

Acid Dyes Pwoder

Acid Metanil Yellow

C.I. Name Metanil Yellow

Trade Name Acid Yellow 36

Acid Orange II

C.I. Name Orange II

Trade Name Acid Orange 7

Acid Scarlet 3R

C.I. Name Scarlet 3R

Trade Name Acid Red 18

Acid Fast Red A

C.I. Name Fast Red A

Trade Name Acid Red 88

Acid Brilliant Blue FCF

C.I. Name Brilliant Blue FCF

Trade Name Acid Blue 9

Acid Orange G

C.I. Name Orange G

Trade Name Acid Orange 10

Acid Blue N

C.I. Name Blue N

Trade Name Acid Blue N

Application (Acid Dyes Powder & Liquid)

This type dyestuffs are recommend for Paper, Textile, Detergent, etc

Acid Dyes Liquid

Acid Brilliant Blue FCF Liquid

C.I. Name Brilliant Blue FCF-40% Liquid
Trade Name Acid Blue 9

Metanil Yellow-45% Liquid

C.I. Name Metanil Yellow-45% Liquid
Trade Name Acid Yellow 36

Acid Orange II Liquid

C.I. Name Orange II Liquid
Trade Name Acid Orange 7

Pigments

Benzidine Yellow G

C.I. Name Pigment Yellow 12

Benzidine Yellow GR

C.I. Name Pigment Yellow 13

Diarylide Yellow HR

C.I. Name Pigment Yellow 83

Fast Yellow SC

C.I. Name Pigment Yellow 65

Red 2R

C.I. Name Pigment Red 2

Lake Red C

C.I. Name Pigment Red 53:1

Rubine Toner

C.I. Name Pigment Red 57:1

Maroon Toner

C.I. Name Pigment Red 63:1

Toluidine Red

C.I. Name Pigment Red 3

Fast Red FGR

C.I. Name Pigment Red 112

Fast Red FB

C.I. Name Pigment Red 146

Naphthol Red AC

C.I. Name Pigment Red 170

Permanent Red FI

C.I. Name Pigment Red 184

Permanent Red F2

C.I. Name Pigment Red 210

Phthalocyanine Green

C.I. Name Pigment Green 7

Pigment Green B

C.I. Name Pigment Green 8

Phthalocyanine Alpha Blue

C.I. Name Pigment Blue 15:1

Phthalocyanine Beta Blue

C.I. Name Pigment Blue 15:3

Permanent Orange R

C.I. Name Pigment Orange 13

Violet Toner 772

C.I. Name Pigment Violet 3

Violet Toner 777

C.I. Name Pigment Violet 27

Application

This pigments are recommend for various applications like Textiles, Paints, Printing Ink, Plastics Rubber, Soap, Cement Colour, etc

Food Colours

Tartrazine

C.I. Name Tartrazine
Trade Name Acid Yellow 23

Amaranth

C.I. Name Food Red 9
Trade Name Acid Red 27

Sunset Yellow

C.I. Name Sunset Yellow
Trade Name Food Yellow 3, Orange Yellow 5

Brilliant Blue FCF

C.I. Name Brilliant Blue FCF
Trade Name Acid Blue 9

Ponceau 4R

C.I. Name Acid Red 18
Trade Name Food Red 7

Chocolate Brown HT

C.I. Name Chocolate Brown HT
Trade Name --

Application

Food, Pharmaceuticals, Cosmetics, etc

Reactive Dyes

Reactive Golden Dyes

Reactive Orange

Reactive Red

Reactive Turquoise

Reactive Black
