### About

Established as a Sole Proprietorship firm in the year 1982, we "Shree Gurukrupa Industries" are a leading manufacturer of a wide range of Fabric Cutting Machine, Fabric Rolling Machine, etc. Situated in Ahmedabad (Gujarat, India), we have constructed a wide and well functional infrastructural unit that plays an important role in the growth of our company. We offer these machines at reasonable rates and deliver these within the promised time-frame. Under the headship of "Mr. Nitin Panchal" (Proprietor), we have gained a huge clientele across the nation

SG-101/4

**Optional Equipment :**

- Auto stop at feed
- Fault data logger with transfer option to computer
- Digital roll weighing unit
- Digital counter meter with pre-set stop facility
- Edge guiding equipment
- Brushing system for cotton fabrics

**Features :**

- For gray or finished woven fabrics with accessories like length counter, selvedge guiders, suitable top & back-lit inspection tables with AC drive or inverter driver for variable speed.
- Larger working widths up to 4.0 mtrs.

**Batching**

Both gray and finished fabric can be rolled into big batch. Let the fabric be in any form we have a machine for rolling it into batching roll. Big batch rolls save large quantity of fabric that would be wasted at seam thus preventing loss of valuable fabric.

Fabric Inspection Cum Rolling M/c.

**SG-102/1**

**SG-102/2**

**Features :**

- Working speed variable 0-50 mtrs./min
- Breacking system for stopping the machine in - case of emergency
- Automatic control of the fabric tension
- Machine frame in mild steel construction with tie-bars, guide roller deposit board
- Inclined inspection table for comfortable visual inspection
- Mechanical counter meter
- Reversing for full length
- Various fabric input & output options

**SG-106**  
Tube Rolling M/c.

**SG-106/1**

**SG-106/2**

**SG-106/3**

**Features :**

Tube Rolling is a versatile machine for rolling of fabric on Cardboard or PVC tubes. With its range of superior features and other optional it stands out to be the most efficient & economical rolling machine.

## SG-107

### Fabric Roll Wrapping M/c.

#### Features :

- Highly economical and huge savings over shrink packing / gunny bundles.
- Suitable for packing any rolls of Denim cloth, Curtain cloth, Carpets, Foam sheets, Upholsteries, Fabrics, Film, Paper etc.
- Tremendous savings in labour, time and money.
- Highly durable dust and moisture proof packing.
- Variable overlap, Variable end reinforcements, Variable stretch percentage & Variable roller speed.
- High energy saving more than 90% saving over shrink wrapping.

#### Technical Specification :

Capacity	: 30 - 40 Rolls / Hour
Roll Weight	: 400 kgs
Roll Dia. / Roll Width	: 600 mm / 1800 to 4000 mm
Turn Table Height	: 350 mm (above GL)
Turn Table Speed	: 50 mtrs / min
Installed Power	: 1.1 kW
Power Supply	: 220 V Single Phase / 50 Hz

**Semi Automatic Sample Cutting M/C.**

## SG-108

**Fabric Sample Cutting M/C.  
with PLC Controller**

## SG-109

**Automatic Fabric  
Sample Cutting M/c.**

## SG-111

**Heavy Duty Batching Motion M/c.  
(with Speed Control)**

**Features :**

- Fabric rolling for all types of automatic looms type of Suture, Pique, Crepe, Terylene, Tactikoma, etc.
- Densin, Low Bottom Weight, Ind. Fabric, Technical Fabric, Non-Wovens fabric rolling
- Custom built version for larger working width 1150 to 4000 mm
- Synchronise for fabric even tension rolling
