

KNIVES FOR
WOOD, PLASTIC & PAPER INDUSTRY

Arrow Edge
Make in India

SHUBH TRADEX . INDUSTRIAL KNIFE & TOOL MANUFACTURER

For last more than 20 years we are serving Wood, Plastic & Paper Industry with the high quality Indian & Imported Industrial Knives. With the rich experience of this field and encouragement through "Make In India" endeavor, we recently setup our own manufacturing plant and we feel immense pleasure in introducing our self as one of the high quality precision Industrial Knives manufacturer.

Our Specialties

COMPALLOY

TECALLOY

SOLID

NOVACROM

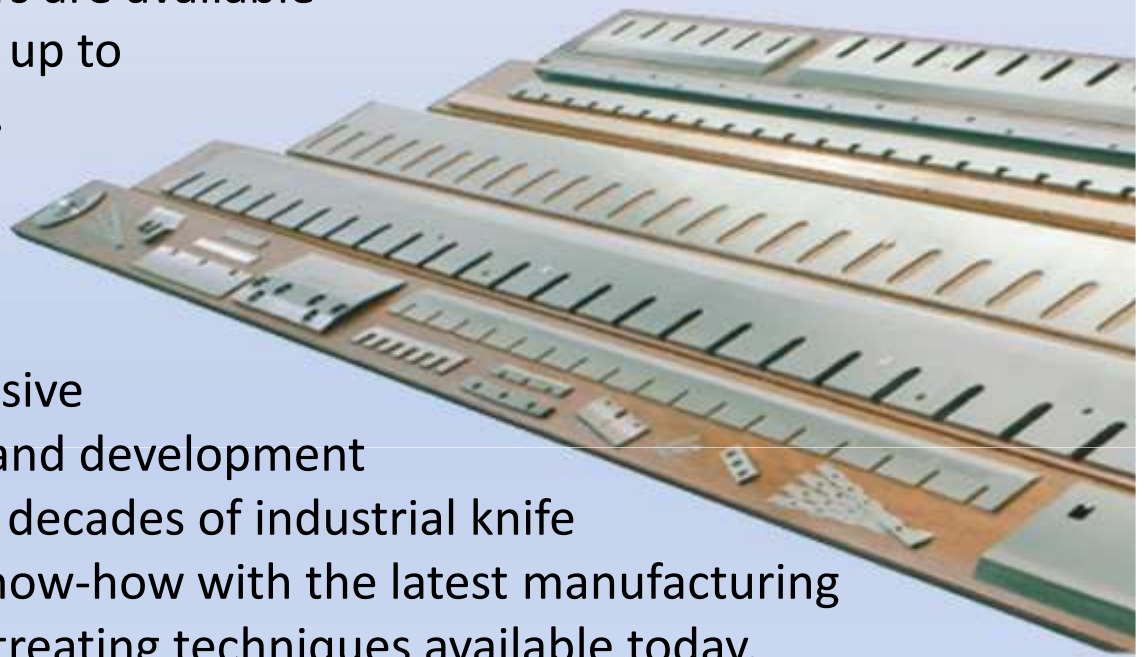

Our main products are:

- Veneer slicer knives & cutters
- Peeling knives & cutters
- Paper cutting knives & cutters
- Chipper knives & cutters
- Plastic cutters

All of our products require precision manufacturing and accurate heat treatment. We are one of very few Industrial knife & cutter makers in India to meet the tolerances as requested by the highest standards. Our Industrial knives and cutters are available in lengths up to 1600 mm.

Our extensive research and development combines decades of industrial knife making know-how with the latest manufacturing and heat treating techniques available today.

Extreme flatness, parallelism and edge holding ability provide hours of continuous veneer cutting to closely controlled thickness requirements. Additionally, we preciously polish the knife surfaces and cutting edges for the majority of knife designs.
