

VISION EXIM... Engineering Supply Chain Solution!

In our endeavour to introduce the best products in the field of electrical insulations, we offer “**Polymer Concrete and Resin Cast**” insulators and bushings for outdoor/indoor applications.

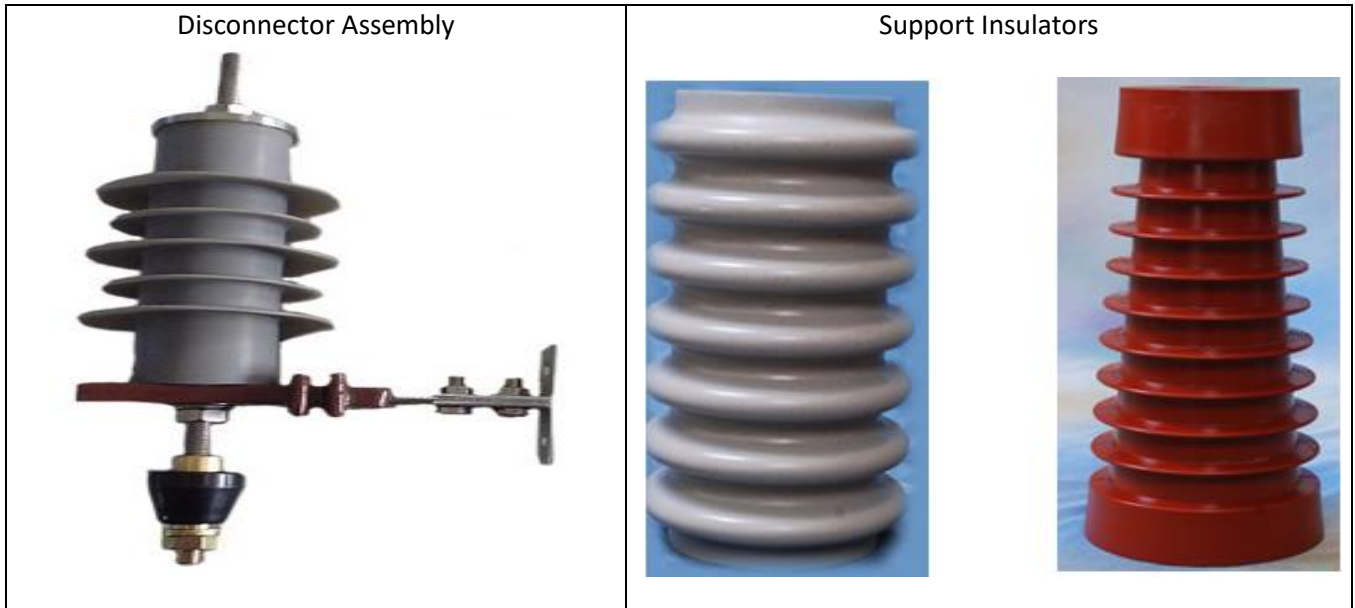

Product Range + "Insulators and Bushings" upto 72kV in Polymer Concrete, Epoxy, Cycloaliphatic

Our Expertise +

- Development of custom made designs to suit specific applications, like high temperature, high pollution, saline environment and high voltage.
- Years of R&D has given us an edge to develop and process latest polymer compositions which push the product's performance limits to the max.
- We work closely with our customers to provide them optimal products to suit their applications.

Industries We Serve + Railway, Switchgear, Transformer, Electrical Transmission & Distribution

Quality Assurance +

- Right from Raw Material to Finished product, we have got quality checks at every stage.
- Raw Materials are tested and checked at incoming stage.
- In process Inspection carried out by help of gauges and control plans.
- Immediate action taken in case of any abnormality observed during production.
- Rejection records maintained along with corrective action plans and their implementation results.

Manufacturing Facilities +

- 30 Nos Pressure Gelation machines capable of processing 5 Ton material per Day.
- Strong working staff of 75 workers, 4 supervisors, 4 QC Inspectors
- 6 Nos High Power Vacuum mixing machines.
- 4 Nos Hot Air Ovens for accommodating any quantities of insulators.
- Material Handling equipment for efficient production cycle.
- Steam Chamber & Water Curing tank for Cementing of Porcelain Insulators.

In-house Testing Facilities +

- High Voltage Testing Facility – 5 kV and 100kV
- Bending Load testing facility – 5 Tons
- Hydraulic Pressure Test facility
- X Ray testing facility for acoustic test

Third Party Laboratory Testing +

- SGS – China – For Fire Protection on Railway Vehicles (EN – 45545-2 2013)
- ERDA (Electrical Power & Research Institute, India) – Various Electrical, Mechanical & Physical Tests
- CPRI (Central Power and Research Institute, India) – Various Critical test for Surge Arresters & Railway

Markets + India, USA, Mexico, Europe & China

Should you require further information / details, feel free to contact us.
