POLO

GT-PC-001

Polo t-shirts are made famous by golfers and the collared variety adorned with buttons adds a sense of formality to the look. Men with a lean frame can take the most advantage of this t-shirt type.

CREW NECK

GT-PC-002

Probably, the most ubiquitous t-shirt that you will encounter on men is the crew neck t-shirt. It is characterized by a round, circular neckline that fits snugly at the neck and works best on men with long, narrow faces and sloped shoulders to create a well-rounded silhouette. For a timeless look, nothing beats the crew neck t-shirt.

SCOOP NECK

GT-PC-003

The scoop neck is another variation of the crew neck where the round neckline hangs a few inches below the collarbone. Although not as rugged looking as the other necklines, it has a subtlety that complements the metrosexual look.

V – NECK (HS)

GT-PC-004

As the name suggests, this type of t-shirt forms a V shape (Half Sleeve) at the neck. Guys with round faces and broad shoulders can take advantage of this neckline as it flatters their body type giving them a slimmer look. It can be paired with an unbuttoned shirt wherein the V neckline doesn't show from underneath the shirt.

V – NECK (FS)

GT-PC-005

As the name suggests, this type of t-shirt forms a V shape (Full Sleeve) at the neck. Guys with round faces and broad shoulders can take advantage of this neckline as it flatters their body type giving them a slimmer look. It can be paired with an unbuttoned shirt wherein the V neckline doesn't show from underneath the shirt.

Y – NECK (HS)

GT-PC-006

The Y-neck t-shirt (Half Sleeve) is best described as a hybrid between the crew and the V necklines. It comes with a buttoning placket that runs several inches deep and fits perfectly over a well-built, muscular chest. The addition of buttons increases its aesthetic appeal while maintaining an elusive kind of machismo.
