About Us

Quality product, Quality people and Quality service the three vital ingredients which makes a company renowned are available at SPAC. We are one of the pioneers in the manufacturing of Pneumatic Actuators, fittings, tubing's and other basic pneumatic accessories. With the state of the art manufacturing facility at our works it makes us more confident and fast to cater market demands in time with the highest level of precision. Our customer network is established at PAN India level which makes it more comfortable for customers to get associated with us and makes us more reliable.

Customer is King

A famous proverb from the English dictionary "Customer is King" has been well noted and understood by SPAC. We take pride in informing you that customer satisfaction is our primary goal. Understanding and catering the needs of a buyer has always been a top note in our to-do lists. We very well accept the fact that customer service and product flexibility is of utmost importance in order to stay in the business world, that is why SPAC has invested a lot in-

- Ω Economical Pricing
- Ω One stop solution for multiple products

- Ω Quick delivery Process
- Ω Skilled marketing and production team

Brand

M/s SHREE PRAYAG AIR CONTROLS PVT. LTD is popularly known by the name of SPAC PNEUMATIC all over the world. The high quality, reliability, availability and flexibility in designs offered by this brand has attracted a large number of industries and traders from all over the country to get associated with us and has made us the number 1 choice of people in Air control industry.

Our Mission

SPAC aims to be at par in terms of quality and product range in comparison to all the competitors in the business market. We have already taken the first step towards our goal by incorporating the state of the art manufacturing setup and by employing skilled team of engineers at the place. We wish to position ourselves as one of the most flexible manufacturer catering multiple customers with multiple requirements under one roof. We cater trading as well as OEM market, our mission is present ourselves in every possible corner among the automation industry. We are going to serve as the base for next level pneumatic automation.

Our Values

The key reason behind the success of our brand is our HUMAN VALUES. We have always relied on and appraised the professionalism and strengths of our people. We completely agree to the very fact that it is the people of the organization who makes or breaks it. Understanding and embracing human values takes the organization to the top level. We offer a lively environment and an equal opportunity of success for everybody irrespective of caste, creed or colour. SPAC values human and respect its employees.
