SEA FRIGHT

- ▶ One of SK Shipping Line major strength is the expertise in ocean freight management, where one of our core activities are providing Export / Import, FCL / LCL freight solutions.
- ▶ You can rely on SK Shipping Line to organize and handle all your shipments from and to all major business centers in the world. We handle freight of every shape and size, and complete project shipments in a time-definite environment.
- ▶ Our contracts with various renowned carriers allow us to meet our customers changing needs and to provide them with competitive rates and fast transit times.
- ▶ We have All at the reach of a global company but with the expertise and service of a small firm.

AIR FRIEGHT

We offer customer time sensitive solutions for their specific needs, regardless of destination and the cargo type.

We have an established network with the airports and the airlines, and our choice of air lines and pro active decisions provide efficient ground handling, immediate connection and fast transits coupled with competitive rate advantage which fulfills every challenge pertaining a customer's requirement for their air freight needs.

NVOCC

- ▶ SK Shipping Line is a neutral NVOCC (Non Vessel Operation Common Carrier) that builds on a strong global network of agents and partners. SK Shipping Line offers regular and dedicated groupage services in the Far East and Middle East, as well as to Africa's hinterland destinations. The licensed NVOCC makes the following available to customers:
- ▶ Dedicated weekly consolidation/groupage services on the several trade lanes across various world destinations between Europe continent, Mediterranean ports, Far East & China, Middle East, USA, GCC, CIS, East/West and South Africa
- ▶ Direct sailings and global reach through a network of offices and agents around the globe
- ▶ Combined transport Bill of Lading as a legal NVOCC
- ▶ Own fully equipped warehousing
- ▶ The capacity and flexibility to handle transshipment cargo
- ▶ We provide cost effective consolidation services for LCL shipments into FCL quantities (due to a high volume of cargo movements)

SUPPLY CHAIN MANAGEMENT

Through a careful analysis of business requirements, cost drivers, service differentiators, facility infrastructure, and system capabilities, SK Shipping Line can custom design, implement, and manage a supply chain solution tailored to your specific needs. We offer customer specific supply chain solutions.

Our transportation capabilities are comprehensive. SK Shipping Line can transport a single load, perform pool distribution / consolidation, provide over the road contractual services, deliver to retail stores, operate dedicated contract carriage fleets, as well as manage the entire transportation function.

AFGAN/IRAQ OPERATIONS

- ▶ We are proud of our involvement in building of Afghanistan by providing the Customized Logistics solutions including cross border formalities and customs clearance to our valued customers in Afghanistan for all Afghan transit points including Kabul, Bagram, Kandahar, Herat and Mazar-e- Sharif etc. We specialize in handling the Dry, Reefers and out of gauge equipment beside Project cargo. This has earned us the reputation and trust of the Peace Keeping forces, International NGO'S & Donors working in Afghanistan. We are actively involved in transportation services and arranging logistics for US military, Marines, Aid Agencies and other world-renowned companies as well. We started our inland movement to Afghanistan with a view to develop this area of business to service our existing clientele, however with the gradual increase, today we can easily claim to be one of the best service providers to Afghanistan. We handle shipment for US military division, ISAF and commercial movement.
- ▶ We handle operations for Iraq currently handling CPECC Project projects from the oil field, LCL consolidations, Break Bulk. We also provide comprehensive marketing services to Container Operators (NVOCC) and liner operators.

CUSTOMS CLEARANCE

- ▶ For the courtesy of our customers we take care of, by finalization of documents and other related issues.
- ▶ SK Shipping Line handles the complex task of organizing and moving your shipments through Customs as quickly and efficiently as possible. We have trained and qualified Customs Brokers with many years of experience to ensure that your products are entered correctly with both Customs and to ensure that there are no delays in delivering your cargo. Our Brokers are available to provide advice to ensure that the lowest correct duty is paid and that all other Statutory requirements are complied with. We can coordinate Quarantine inspections at all of our facilities. Our warehouses are Customs and Quarantine approved so that we can minimize costs should there be a procedural issue.

WAREHOUSING & DISTRIBUTION

- ▶ We have a complete range of warehousing and distribution services. Our facilities blend modern systems and equipment with industry-best-practices to lower your warehousing and distribution costs while increasing your service levels.
- ▶ We are providing effective packaging services to suit the specific and generic requirements of the clients. Dedicated, trained crew is used throughout the packing & loading process

Warehousing and distribution management :

We provide secured and well managed Warehousing facility for the Inbound, Outbound, Sensitive, Dangerous cargo.

- » We are able to provide warehousing facility to bulk manufacturers, buyers, exporters and traders.
- » Distribution and management of outbound freight to the clients customers.
- » Value added services can be provided such as repacking, assembling and return logistics

LCL CONSOLIDATION/GROUPAGE

We are freight forwarders and group age operators for the transportation of cargo, large or small, personal or commercial.

We are experienced in all aspects of import and export forwarding, by conventional, container, roll on roll off ferry, group age and air freight to and from any worldwide destination, by land, sea and air.

ROAD TRANSPORT

SK Shipping Line is offering land transport services not only within the UAE but the entire Middle East. Having our in house transport division enables us to determine and identify the transportation needs of its customers and ensures prompt services. Our land transport department makes sure the containers /cargo reaches customers in time.

CONTAINER TRADING

SK Shipping Line is able to supply both New and second hand containers. A large percentage of our business is with standard dry freight containers but we do also supply specialized equipment.

SK Shipping Line not only sells all kinds of shipping container; cargo container; storage container & customized container but also help to organize carriage out of our depot to the containers final destination
