

Automotive systems & Authoritative product service testing

IATF16949, ISO14001, OHSAS18001 Certification

UL Certification

SGS Report

ROHS, REACH and UL compliant

Manufacturing strength support our quality service

Raw Material Control

Pad · Thin sheet · Gel · Grease

Nanometer grinder

01

Core technology of modification of raw material powder

Maximize the utilization of raw material to achieve product performance upgrades and optimize costs

02

Raw materials performance testing

Quality control from the raw materials
Maintain the features consistency

03

Full range of raw materials test equipment

Ensure the reliability of products
Satisfy the independent testing requirement

Thermal & Physical Performance Testing
