## ABOUT US

Petropipe is a leading international supplier of modular packages for oil and gas in both onshore and offshore applications. With headquarters in the United Arab Emirates, Uzbekistan, and India, our global facilities possess strong system integration capabilities.

We provide cutting-edge solutions tailored to your specific application without bias to any particular technology or manufacturer. Hence, you can always expect products and services that are best-in-class, best for the application, and best for your business.

As an independent system integrator, we also provide several companies operating in our global locations with access to a broad range of our offerings. We pride ourselves in handling projects with unique requirements in diverse sectors such as Oil & Gas, Carbon Steel Fitting & Flanges, Carbon Steel Piping, Stainless & Alloy Pipe, Stainless Steel Fitting & Flanges, Valve & Gas Products, and Metering. Our offices are located in Abu Dhabi, the capital of the UAE.

## PETROPIPE MANAGEMENT STATEMENT

Petropipe management commits its best efforts to achieve the following targets:

- To conduct our business aiming for the highest ethical standards possible
- To ensure the wellbeing of the surrounding community
- To ensure a work climate that embraces diversity
- To offer our personnel the continued career development & selfenhancement
- To provide a safe, healthy and enabling work environment
- To provide our customers with the benefits of a safe & environmentally friendly atmosphere

## OUR VISION AND MISSION

- Serve our customers by creating unique and efficient solution that enhances their competitiveness
- Create competitive through enhanced functionality and superior quality
- Ensure manufacturability and delivery to our customers at the lowest and affordable cost
- Committed to excellence and strive to maintain the trust and confidence of all the partners and customers
- Be the most reliable provider for Piping solutions and Mechanical Ancillaries to energy and industrial markets.
- Deliver superior service to our customers around the world and provide innovative supply solutions to enhance our customers operations
- To run the company on a sustainable financial basis of profitable growth
- Generate engineering design that turns concepts into realities that operate safely, efficiently and reliably

## AREAS OF EXPERTISE AND PRODUCTS

Petropipe Oil and Gas main expertise encompasses Onshore Upstream and Midstream sectors of the Oil & Gas industry. In house experience and capabilities are also extended to some fields of the downstream sector and to offshore projects. Enabled by our exclusive partnerships, we provide our clients with an unrivalled level of engineering excellence, technical proficiency and project management expertise.

### CARBON STEEL PIPING

Carbon steel pipe and line pipe are typically used in the upstream and midstream sectors. Petropipe maintains an extensive inventory at various service locations, providing prompt deliveries. We offer both standard and line carbon steel pipe in sizes ranging from 1/8" seamless steel pipe through 48" welded, in various wall thicknesses, grades and lengths, and our entire inventory is available bare or coated.

### CARBON STEEL FITTING & FLANGES

Fittings and Flanges are used to connect piping systems together and are available in many styles and grades suitable for varied service conditions. Fittings and Flanges are connected with stud bolts, machine bolts, by threading or welding the fitting or flange to a pipe, valve or piece of equipment. **Types:** Continuous Weld, Electrical Resistance Weld (ERW), Double Submerged Arc Weld (DSAW), Pressure Tubing and Seamless Piping

### STAINLESS STEEL FITTING & FLANGES

Fittings and Flanges are used to connect piping systems together and are available in many styles and grades suitable for varied service conditions. Fittings and Flanges are connected with stud bolts, machine bolts, by threading or welding the fitting or flange to a pipe, valve or piece of equipment. **Types:** Buttweld, Cast, Forged, Outlet, Pipe and Swaged Nipples, Sweat Fittings, Tube Fittings

### VALVES

**Ball Valve:** Floating, Triunion, Cryogenic, Multiport, API 6A, Forged Steel, Bronze, Rising Stem, Stem Jacketed, Wafer Ball type

**Check Valve:** Swing, Check, Dual Plate, Non Slam Nozzle, Tilting Disc, Pressure Seal Swing, Forged Steel, Wafer Disc, Bronze Check, Steam Jacketed Swing, Piston Check Types

**Control Valve:** Globe Control, Ball Control and Butterfly Control Type

**Gate Valve:** Floating, Triunion, Cryogenic, Multiport, API 6A, Forged Steel, Bronze, Rising Stem, Stem Jacketed, Wafer Ball type

**Butterfly valve:** Concentric Disc, Double Eccentric, Triple Eccentric Butterfly Types

**Globe Valve:** Cast, Forged, 3 Way, Bronze, Cryogenic, Pressure Seal, Steam Jacketed

## VALVE AUTOMATION

**Electric Actuators:** Electric actuators are typically used in the upstream, midstream, downstream and waste water applications and use a low or high voltage, electrical input to open or close all types of valves.

**Types:** Fail Safe, Modulating, On-Off

**Manual Actuators:** Manual actuators are commonly used across all industry sectors and are typically utilized on large valves to assist in opening and closing of the valve. Manual actuators are, as their name implies, powered manually by the operator but allow the valve to be opened and closed with much less force than would typically be required.

**Types:** Spring Return Handles, Gear Operators, Valve Indicators and Switches

**Fluid Power Actuators:** Fluid powered actuators utilize hydraulic fluid to operate the actuator and can be either self-contained or gas assisted. Fluid power actuators are typically used in upstream and midstream applications in safety critical situations on very large diameter valves when there is limited or no air supply.

**Types:** Electro Hydraulic, High Pressure Gas, Piston, Rack

A limit switch is a valve automation accessory. They can be used with various types of actuators to remotely identify whether a valve is open or closed. The limit switch is mounted on the actuator and communicates electronically with the facility's process control system. Limit switches can help identify problems in the valve automation system before potentially dangerous and costly accidents occur.

**Types:** Mechanical and Proximity Type

**Positioners:** Positioners are a valve automation accessory designed to control the position of the valve. Positioners allow the operator to remotely open or close an automated valve by varying degrees using either a pneumatic or electrical signal

## COMPRESSORS AND BLOWERS

**Radial Compressors:** Our radial transmission compressors include single and multi-stage

Process gas compressors, process air compressors and mechanical vapour compressors. In the integral version the impeller is directly mounted on the high-speed shaft. Alternative versions are fitted with intermediate bearings.

**Radial Blowers:** FIMA radial blowers are characterized by their rugged design (heavy duty industrial version) and endurance. We offer customized solutions in pressure-resistant, gas- and corrosion-proof designs for the majority of applications in the chemical and petrochemical industries.

## GAS PRODUCTS AND METERING

These products are used in a variety of applications in both the gas utilities and gas transmission business sectors. For example, in the gas utility sector, tracer wire is used to locate buried polyethylene pipe. The MDPE pipe is buried underground and the tracer wire is then laid directly on top of the pipe as a marker of sorts. Anodes are commonly used as part of large steel lines in the gas transmission sector.

**Types:** Anodes, Conventional PE fusion fittings, Corrosion control tapes, Curb and Value boxes, Tracer wires.

## OUR SERVICES TO CUSTOMERS

With world-wide presence and the support of the Group, Petropipe has enough attributes that enables it to tackle the most trying or challenging EPIC projects in all aspects. At the same time, Petropipe performs engineering services and specialized tasks such as feasibility studies, FEED packages for open-art and licensed plants, and risk analysis utilizing internal resources.

Petropipe, while implementing Quality Assurance and HSE Management systems, provides several categories of services.

### PROJECT MANAGEMENT SERVICES

- Feed Verification
- Preparation of Tender Packages
- Contract Administration,
- Development of Execution Plans, Procedures and Method Statements
- Project Control
- Cost Control
- Planning
- Change Control

### ASSISTANCE FOR PROJECT FINANCING

- Project Financing (BOT, BOO, etc.)
- Buyer & Supplier Export Credit
- Documentary

### FEASIBILITY STUDIES

- Technical Optimization Studies
- Environmental and Safety Studies
- Risk Analysis
- Logistics Plans
- Country Surveys
- Capital and Operating Cost Estimation
- Financing Analysis
- Economic & Financial Profitability Studies
- Master Planning
- Budget

### BASIC AND DETAILED ENGINEERING SERVICES

- Conceptual Design
- Basic Design
- Front End Engineering Design (FEED)
- Steady State & Dynamic Simulations
- Hydraulic Studies
- Fluid dynamic Studies
- Design Basis Definitions
- Equipment Sizing
- Material Selection
- Pipeline Design
- Piping Design
- Modeling and Stress Analysis
- Civil/Structural/Architectural & HVAC
- Electrical Design
- Instrumentation & Control Design
- Telecommunication & SCADA Design
- F&G Detection and Protection Design

## PROCUREMENT AND MANUFACTURING

- Vendors Qualification and Subcontractors Assessment
- Technical and Commercial evaluation
- Purchase Orders Placement and Contract Administration
- Inspection and Quality Control
- Expediting & Transportation
- Field Material Control and Handling at

## CONSTRUCTIONS

- Construction Management (for EPCM jobs)
- Setup of Construction organization
- Assessment of Construction Partners
- Organization of Site Camps and Logistics
- Mobilization of manpower, equipment and tools
- Field Supervision & Inspection
- Construction Planning and Progress Control
- Fabrication facilities

## COMMISSIONING, TRAINING AND OPERATION

- Preparation of Procedures and Operation & Maintenance Manuals
- Training of Personnel and Operators
- Engineering and Vendor Support presence during commissioning
- Organization of Operation and Maintenance Services
- Ensuing Handover Assistance

## OUR RESOURCES

Petropipe Oil and Gas main expertise encompasses Onshore Upstream and Midstream sectors of the Oil & Gas industry. In house experience and capabilities are also extended to some fields of the downstream sector and to offshore projects. Enabled by our exclusive partnerships, we provide our clients with an unrivalled level of engineering excellence, technical proficiency and project management expertise.

## CORE PROJECT MANAGEMENT

- Project Management Teams
- Planning and Schedule Monitoring
- Cost Control Services
- Contract Administration Services

## MULTI-DISCIPLINARY ENGINEERING TEAMS

- HSE and Loss Prevention
- Field engineering and surveyors
- Process
- Pipeline
- Piping
- Mechanical / Machinery and Packages
- Instrumentation & Control / Telecommunication
- F&G Detection and Protection
- Electrical and Cathodic Protection
- Civil / Structural / Architectural & HVACI
- Quality Control

## PROCUREMENT SET-UP

- Qualified Vendors Data Base
- Project Procurement Coordinators
- Buyers
- Internal Quality Control and Inspection Team

## PRODUCTS LIST AND MANUFACTURERS REPRESENTED

PIPING	SIZE	MANUFACTURES
Carbon Steel Seamless Piping	1/4" -24"	Arcelor Mittal, Tenaris, V&M, Interpipe
Carbon Steel Welded Piping	2" -108"	Hyundai RB, Hysco Korea, EEW Germany ,NSSMCT
Carbon Steel SA179 grade boiler tubes	3/8"-1"	Tubos Spain, Podbrezova Poland, Nikotubes
Stainless Steel Seamless Piping	1/4"-12"	Sumitomo Japan, Productos Tubalares
Stainless Steel Welded Piping	1/2"-108"	Butting Germany, Froch Taiwan, Inox Tech, Kuze, BSL France, Sosta Netherlands
Stainless Steel SS316 boiler tubes	3/8"-1"	Sandvik, Ronconi Spa
HDPE Piping	1"-28"	Cosmoplast, Saudi Arabian Pipe Industry
Alloy Pipe (P5, P9, P11)	3/4"-24"	JFE Japan,tubos, Michigan Seamless, V&M

BW FITTINGS	SIZE	MANUFACTURES
Carbon Steel Seamless Fittings	1/4" -24"	BKL Thailand, Erne, Wilhelm Geldbach
Carbon Steel Welded Fittings	>2" -108"	Wilhelm Geldbach Germany
Stainless Steel Seamless Fittings	1/4"-12"	BKL Thailand, SKB, Schulz, Wilhelm Geldbach, TK Korea
Stainless Steel Welded Fittings	>1/2"-108"	Butting, Schulz, Wilhelm Geldbach, BSL, Butting
Alloy Fitting	3/4"-84"	BKL, Cuprosider, Wilhelm Geldbach

FLANGES	SIZE	MANUFACTURES
Carbon Steel A105 and LF2	1/4" -108"	Ulma, KOFFCO, Wilhelm Geldbach, Galperti, Promat, Melesi, Metalfar
Stainless Steel ASTM A182 SS304/SS16L	1/4" -108"	Ulma, KOFFCO, Galperti, Viraj, Wilhelm Maass
Exotic Grade Flanges	1/4"-108"	La Meccanica Padana SRL, Wilhelm Geldbach, Bruck GmbH
Nozzle Flanges	1/2"-84"	Korea Flangeco., Dong-O, Promat BD

SPECTACLES,STUDS	SIZE	MANUFACTURES
Carbon Steel and Stainless Steel	1/4" -108"	LA Meccanica Padana, BD Profile UK
Stud Bolts	1/4" -8"	Triple Fast UK, Asia Bolts, Stud UK

FORGED FITTINGS	SIZE	MANUFACTURES
Reducing Tees, Equal Tees, Unions, Hex Nipples, Concentric Swage Nipples, Elbows	1/4" -4"	Delcorte France, Mega Italy, KOFFCO Korea, Bothwel Taiwan

OTHER MISCELLENEOS ITEMS	SIZE	MANUFACTURES
Instrumentation (Gauges/Sensors/Valves)	Varied	ESMA, Kitz Japan, AUDCO, Wise, Alfa
Power Transmission (Hydraulic Hoses, Fittings, Pneumatic Clutches, Sprockets, Shaft Couplings)	Varied	Parker, Swagelok, Hy-lok, DK-lok, Fitok, McMaster
Production Equipment (Spool Pieces, Skids, Multiplex/API Pumps, Pig Launchers and Receivers, Fiberglass Pipe and Fittings)	Varied	Local Heavy Engineering Firms
Valves, Spares, Actuators, Pumps, Compressors, Mixers, Agitators	Varied	Fluoroseal, Niegodzka, Fima, Hayward Gordon, Sharpe Mixers, Aska Corporation

# OUR CERTIFICATES

### Letter of Appointment

To whom it may concern,

We take the opportunity to inform our Customers that starting from December 2017, Vanton Pump & Equipment, NJ authorize Messrs Petroppe FZE as our non-exclusive representative to market and sell parts and pump assemblies manufactured by Vanton Pump & Equipment Corp. and also follow projects and quotations in anticipation of continued growth of our line of thermoplastic pumps.

Messrs Petroppe FZE can be found at the following address:

Al Shmookh Building, Umm Al Quwain Freezone  
Umm Al Quwain, United Arab Emirates  
P.O. Box: 2746  
Tel: +97152 441 8876 / +97152 441 8879  
Managing Director: Mohammad Tariq Husein

This letter is valid until December 2018.  
Confident that our sales network can assist and serve you properly, we remain,

Best Regards,

Ken Comerford  
Vice President
