A VERTICAL INTEGRATED SYSTEM OF OUR COMPANY ALLOW US TO TAKE FULL CONTROL OVER THE QUALITY OF THE PRODUCT. OUR MINING UNIT IS SPREAD ACROSS 56 ACRES AND ADDITION OF MANUFACTURING UNIT ATTACHED TO IT MAKES THE PROCESS FASTER. TO DELIVER YOUR NEEDS ON TIME CONSISTENTLY.

01 GETTING PURE RAW MATERIAL FROM MINING UNIT STARTS WITH PROPER PLANNING & TEAM-WORK TO GET THE BEST OUT OF THE PIT.

Our team of experts prepares the mining extraction plan which helps you to get the advantage of quality product each time. We handle this precision & chaos occurring on-field every day, so you get the product as per your needs.

02 PROCESSING, MANUFACTURING AND TESTING PLAYS IMPORTANT ROLE FOR MAKING A GOOD PRODUCT

Extracted raw-materials goes under the sorting process. This sorted material is then processed in dry grinding mill with Electromagnetic iron remover and separator at the end to remove leftover impurities. This gets tested and approved by lab later.

03 ONCE PASSED THE QUALITY CHECK, IT 'S THEN PACKED AND TRANSPORTED AS REQUESTED.

Passing the lab check, we pack it in various bags size ranging from 50kg to 1-ton bags. Your time is valuable, so we provide you to choose your preferred transport and we arrange it for you.

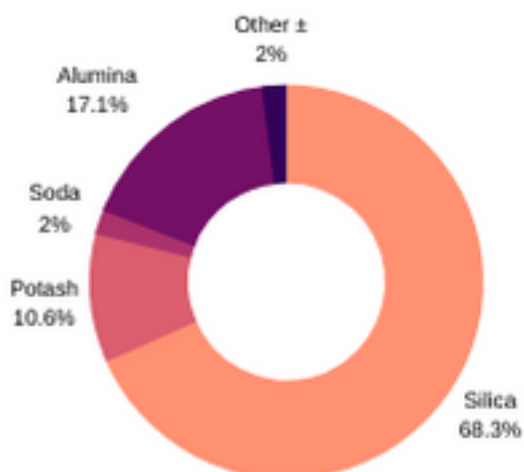

K-Feldspar

Ultra Grade

Crazing, Cracking, Pin-hole and various faults are not making your life easy. Have you ever felt the need for consistent raw material each time? Getting small changes in raw material content has a huge impact on changing your product's composition. Resulting in various endless imperfections to solve. Try ultra grade Potash Feldspar to solve your problem easily.

Create Your Product Rise Above All The Competition!

With the rich content of alkaline flux, helps you melt and bind your product with easy. And higher alumina gives you unbeatable strength. You need not worry about the impurities - as you will get clean & processed material. Zero moisture in the raw materials ensures you good quality pure raw material. The content table provided below is the Guaranteed benchmark of what we deliver to you. This ensures your safety for your investment in our product. **Try it Risk-Free Today!**

Potash - K ₂ O	> 10.5 %
Soda - Na ₂ O	> 2.0 %
Silica - SiO ₂	67-68 %
Alumina - Al ₂ O ₃	17% (± 2%)
Ferric Oxide - Fe ₂ O ₃	0.9 %
Calcium Oxide - CaO	0.3-0.5 %
Loss on Ignition	-0.4 %
Firing Result at 1205 °C	White
L* Value	>80

K-Feldspar

Supreme Grade

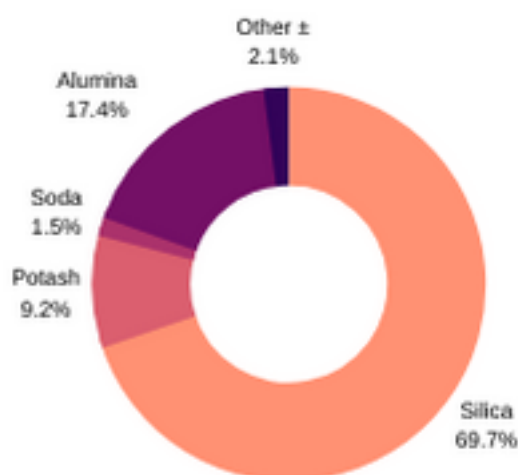

Reduce Product's Melting Point with the flux that you all need!

We value your product, Try out our magic raw materials available in various sizes. With the supreme grade, you get all the performance you need at the best price. This K-feldspar is a lighter version of our ultra grade which has almost the same benefits but at the best value for the money.

There are 5 mains points that you must look after before buying it.

1. Strength: Make your product stronger to avoid cracks and various faults
2. Flux: Melt and bind with proper viscosity and lowered Temp.
3. Impurity: Avoids the effect on your product's colour
4. Moisture: Dry ball mill plant ensures zero presence of H₂O
5. Colour/Appearance: Get your product a premium White finish.

Potash - K ₂ O	> 9.0 %
Soda - Na ₂ O	> 1.4 %
Silica - SiO ₂	67-69 %
Alumina - Al ₂ O ₃	17% (± 2%)
Ferric Oxide - Fe ₂ O ₃	0.16 %
Calcium Oxide - CaO	0.3-0.7 %
Loss on Ignition	-0.4 %
Firing Result at 1205 °C	White
L* Value	>78

Product Sizes & Packaging

Lumps

This comes under various sizes ranging from 5cm up to 30 cm of rock sizes.

Grits | Chips

We develop chips ranging from 0 to 12 mm chip according to your needs.

Powder

Capacity to delivery 100 mesh, 200 mesh and 300 mesh powder for your product.

Packaging & Transport

You can choose from various option for packing your product. You can have loose lumps. For powder, you get two options of 50 kg and 1-tonne bag. You can also choose the mode of transport company according to your preference. You can also request us for any custom packaging you need.

PVR METALS AND MINERALS

Mine - Manufacture - Export

WHO WE ARE

PVR Metals and Minerals was established in the year 1996 located near shores of Andhra Pradesh in India. Blessed with a beautiful geographic of this place, we have been able to extract nature's purest form of raw material with high-grade purity and pristine contents of the materials in raw form. Making it the best quality material you can find in the market.
