RESET WORKSPACES FOR LIFE AFTER COVID-19 LOCKDOWN

Following the novel coronavirus disease 2019 (COVID-2019) pandemic, most of the state machineries have put in place a number of measures, including those affecting workplaces, to fight the spread of the disease. The world of work is severely affected during this crisis, therefore, all sections of society – including businesses, employers and social partners – must play a role in order to protect workers, their families and society at large. The most important aspect of this will be the company's investment into health and safety measures.

Amaze India, during this period has been working with several social partners to equip the frontline health care workers and essential service providers with life saving essential personal protective equipments. All the products endorsed by us meets the need of WHO GMP, FDA, ISO, CE, EN certification. We look forward to partner with businesses, corporates, enterprises and explore synergies of working together to provide safe, healthy and hygienic environments to all the stakeholders.
