Dear Customers.

Welcome to Anaika Business Solutions.

We believe in getting you the best and most reliable products from our own manufacturing units in India.

We manufacture high quality reusable, recyclable , environmental friendly carry bags from "100% Virgin Non Woven Fabric" for customers in various sizes to best suit their day to day needs.

To make sure that our carry bags are absolutely clean in these tough times when Covid 19 has become a pandemic , our facility is disinfected 3 times a day and workers use face masks, hand sanitizers as well as gloves all day.

This ensures a clean and virus free environment for manufacturing of these bags.

Currently we are manufacturing these bags in various sizes

- a) 15 – 100 gsm thickness
- b) 100% Virgin Non Woven Fabric
- c) World Class Machinery to ensure that identical quality is maintained throughout the manufacturing.
- d) Packaging done as per customers requirement.

WHY NON WOVEN BAGS

Environment-Friendly

These are 100% green and Eco-friendly. These are Biodegradable. These do not release toxic gas or chemical while being disposed of. On the other hand, plastic bags are non-biodegradable and are harmful to the environment. So non-woven bags are said to be Eco-friendly bags.

Non-woven bags are 100% recyclable. You can recycle non-woven bags and help to keep our nature clean and green. Non-woven bags can be reused. You can wash them and use again.

Durable

When contrasted with the conventional shopping bags, the non-woven bags are dependable and can last up to 5 years. Basically, these bags can be utilized and reused a few hundred times and can convey more loads when contrasted with the customary shopping bags. These bags are water-resistant, attractive and recyclable. These bags won't break, tear or wear out like paper bags or PET bags. So, non-woven bags definitely rank better than the other counterparts.

Advertising Tool

On the non-woven bag, printing can be done. So there are a lot of non-woven bag manufacturers who can print a logo as well as the brand name of the company and creates attractive bags and it also attracts the customer. So non-woven bag can prove to be a great advertising tool for companies. Also, there are various colors and sizes are available of a non-woven bag.

We are waiting to associate with your esteemed organization
