Quality Meat

# Our Processing System of Fish & Shrimps

To ensure the quality company collects all kind of fishes and shrimps either from the fisherman or from the fish farm. Then it is brought in the factory to processes. When the processing is complete products are packed in the same factory at the requirements of the valued buyers. Quality assurance system assisted by The Modern Microbiological Laboratory efficient quality assistant team and full-time close surveillance are kept operational so that fishes and shrimps become ready for shipments.

After that Fisheries Department of Bangladesh of the People's Republic of Bangladesh take a sample and inspect the quality of the packing and fish inside it and then issues the salubrity certificate. Then those packed fishes and shrimps are exported by air or sea cargo as per buyer's requirement.
