Tesakon

MEDICAL TEXTILE

The Tesakon Company specialized in the field of textile manufacturing of all kind , and with the grace of God, quickly we have distinguished ourselves from the others, today Tesakon is one of the best and biggest Turkish factories which is known with excellent reputation, high quality , punctuality beside the large production capacity , all that made us enter global market with a huge trade volume as we export large quantities of products to the different continents of the World.

Tesakon pays big attention to the Medical Textile , in collaboration with the International hospital groups , traders and governments . As a Tesakon we provide everything related PPE items from A to Z and shipments moves from us to various parts of the World without limitation in certain areas.

Tesakon is keen about providing all the physical, ethical , and logistics facilities for the success of any projects we get the privilege of being part of.
