CRYSTAL had worked to solve the world's toughest rubber challenges, innovate new solutions and gain industry expertise that sets us apart from competitors. With extensive in-house capabilities, our products are designed, engineered and manufactured in United Arab Emirates.

Over years, we've built a team of expert engineers who push the boundaries of rubber design and continue to advance rubber material science. Today, we are a leading designer and manufacturer of rubber seals, CV boots, ladder feet and test plugs serving the needs of countless industries around the world.

Your safety first! We ensure all our products are independently tested in accordance with all relevant standards for your peace of mind.

For a long time now, rubber feet established its place as the manufacturer process of choice for many sectors in the still growing global ladders, scaffolding and furniture markets. Rubber Feet offers the advantages of anti-slip and high grip on a variety of different materials like Aluminum, metal, plastic, and wood. offering exceptionally high safety and quality.

Rubber feet, which are sold under the brand name CRYSTAL, are designed to meet every challenge. New improved formulations of rubber are regularly developed to further enhance the quality standards achievable in ant-slip and high grip to meet the latest market developments

These developments are made in close cooperation with customers, based on their experience and requirements.

Ladder Feet

With a range of rubber properties, CRYSTAL ladder feet meet the specific needs of your aluminum ladder, providing excellent grip and anti-slip on various ladders.

Your safety first! We ensure all our products are independently tested in accordance with all relevant standards for your peace of mind.

CRYSTAL Ladder feet offer the following advantages:

- CRYSTAL ladder feet are made from high formulated rubber compounds and has deep ridges to the underside for the best possible grip.
- CRYSTAL ladder feet more secure footing means less chance of causing damage with different layout and movability of using the ladder.
- The rubber ladder feet is used for filling in the aluminum ladder feet
- Our products are all rigorously tested, meeting all necessary safety regulations and BS standards.
- All CRYSTAL products carry an utmost specification against defects.
