CERTIFICATES AND HONORS

Founded in 2004, PUTY Technology (Group) has adhered to the principle of "Technology, Talents, Practical, Loyalty" as enterprise spirit. Guided by R&D and marketing, PUTY has vigorously introduced high-grade R&D and management talents. At present, PUTY obtained more than 40 national technology invention patents and ROHS & CE certification test reports, and passed ISO9001/2008 and ISO14001/2004 quality system.

In recent years, we have developed a series of consumables and cartoon labels suitable for various branded label printers at home and abroad. Our products are widely used in various fields such as electric power telecommunications, industrial manufacturing, chemical medicine, logistics and warehousing, archive management and retailing supermarket etc. By providing products and services to many countries and regions all over the world, PUTY has become a well-known supplier of global label and smartprinting products. Meanwhile, PUTY has achieved remarkable results in RFID portable label printers by focusing on the market and strong R&D strength to the field of RFID.

As a leading brand in China's label and smartprinting industry, PUTY is committed to serving customers wholeheartedly while adhering to innovative products. We will establish a good relationship of cooperation with customers by professional, dedicated and sincere services. In the future, PUTY Technology (Group) will accelerate on the road of globalization.

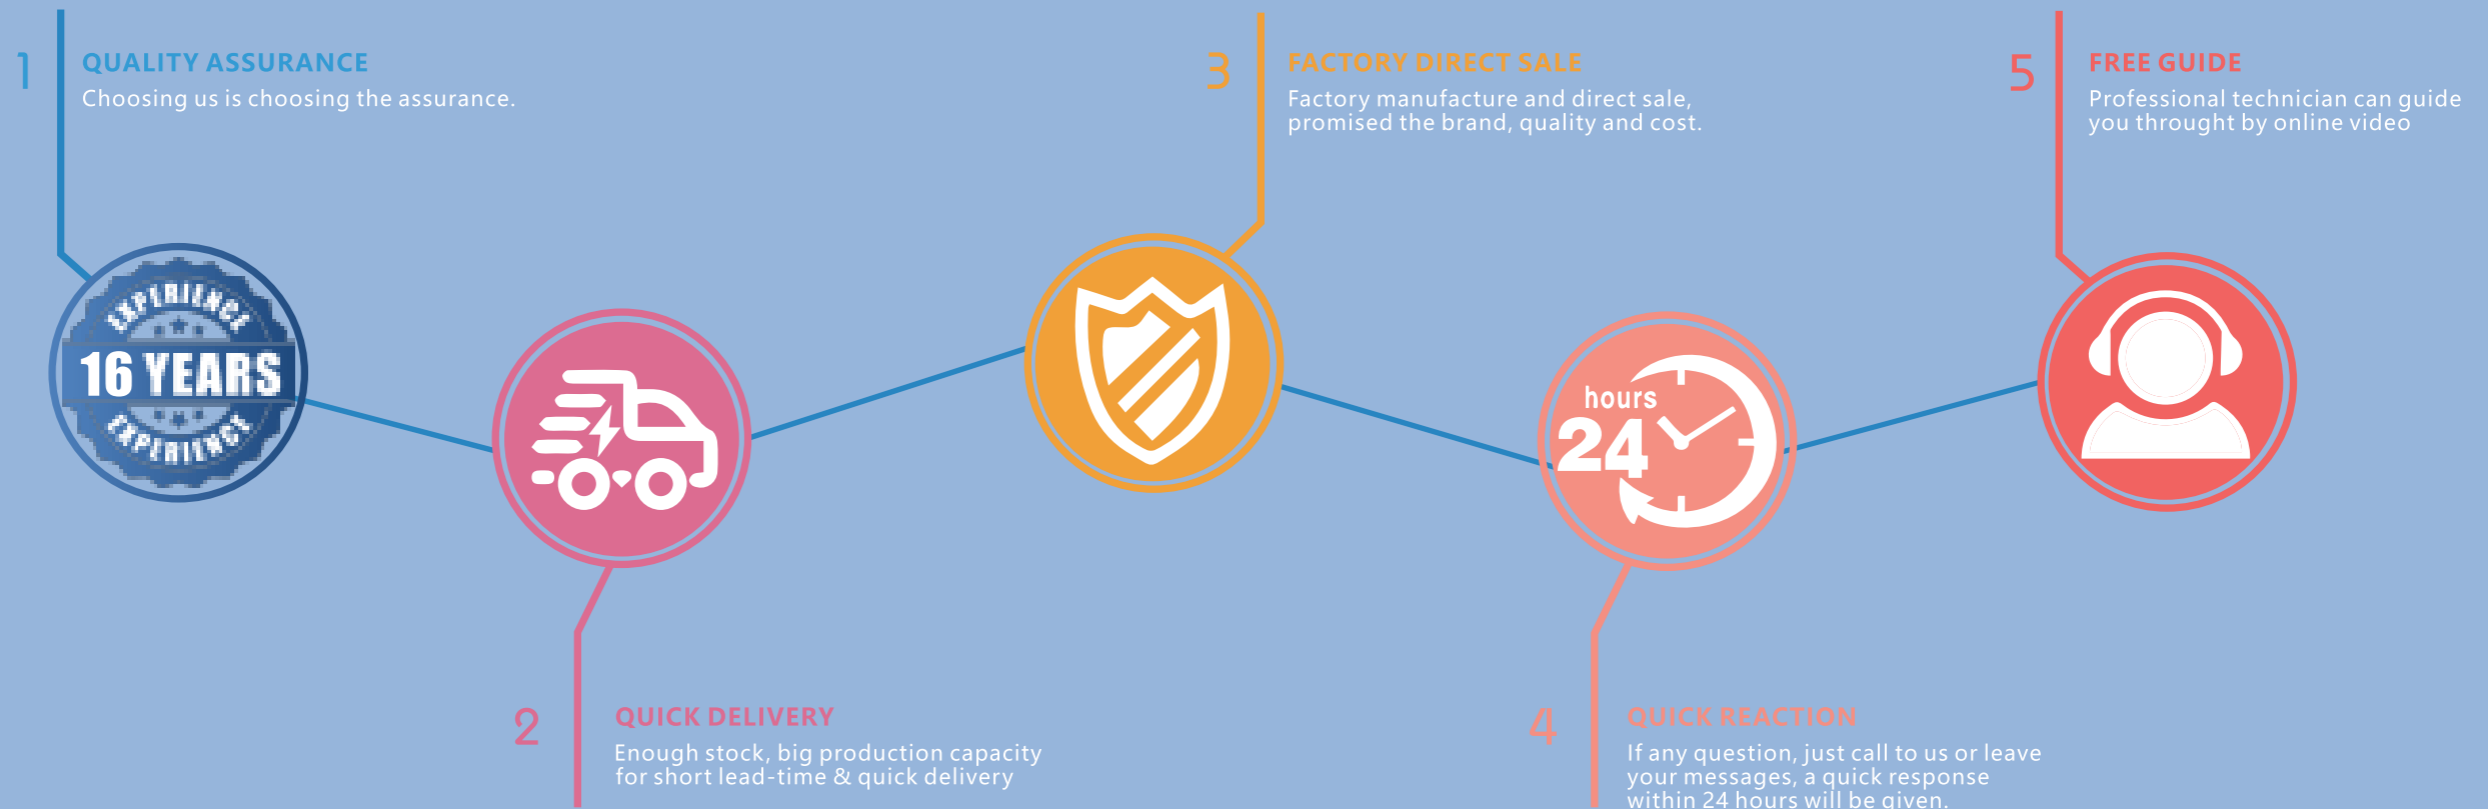

// ODM SERVICE

Welcome to customize your own brand to avoid the industrial competition, improve your product recognition and form the brand effect.

// OEM SERVICE

100% compatibility, absolutely advantages in quality, delivery time and price.

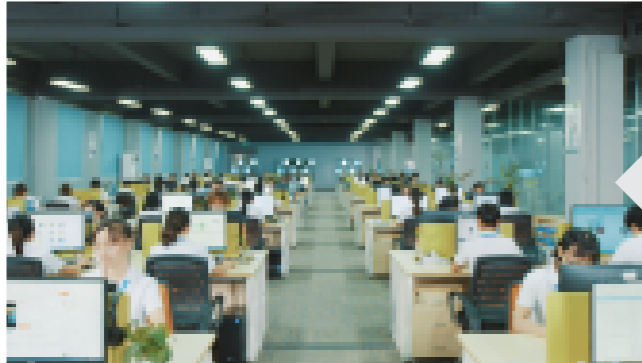

GLOBALIZATION

Global Labelling Solutions Supplier

Nowadays, PUTY's footprint has spread across six continents, and its products are exported to the United States, Canada, the United Kingdom, Russia, Spain, Saudi Arabia, Singapore, Japan, Korea, Greece, Germany, Egypt, France, Mexico, Finland, Italy and other 112 regions and countries. PUTY has established economic strategic partnerships with customers and provide them with strategic partner support such as technology research and development, marketing, and after-sales services in a long-term and stable relationships.

Self-adhesive Labels / Various Specifications Can Be Customized

PET Labels

1. Label specifications/Length can be customized
2. Printing method: Thermal transfer
3. Label features: Anti-temperature for normal label: -20°C~+120°C, The lowest temperature for pasting : 10°C; Anti-temperature for strong and flexible label: -20°C~+100°C, the lowest temperature for pasting: 10°C.

Thermal Labels

1. Label specifications/Length can be customized
2. Printing method: thermal
3. Label features: Anti-temperature for good label : -15°C~+60°C. Anti-temperature for top quality label : -50°C~+90°C. The lowest temperature for pasting : 7°C; different quality, The anti- temperature is different. Anti-temperature for removable label : -50°C~+90°C, The lowest temperature for pasting : 7°C. "Removable" means when you peel off the label, it leaves the surface clean without glue. Anti-temperature for film label : -20°C~+70°C, The lowest temperature for pasting : 5°C.

Synthetic Labels

1. Label specifications/Length can be customized
2. Printing method: thermal transfer
3. Label features: Anti-temperature for good label : -20°C~+80°C. The lowest temperature for pasting : 7°C.

Coated Paper Label

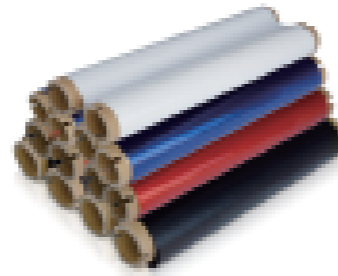

1. Label specifications/Length can be customized
2. Printing method: thermal transfer
3. Label features: The label with high smoothness and good gloss, And it is widely used.

Reflective Film / Various specifications can be customized

1. Label color: White/ Yellow/Red/ Blue/Green etc.
 2. Label specifications: 220mm/260mm, the length can be customized.
 3. Label material: PET
 4. Applicable temperature: -20°C~+100°C, the temperature for pasting: ≥+10°C.
 5. Label features: clear printing, good weather resistance (advertisement using 1-2 years, engineer program using 3-4 years)
- Strong adhesion to rough and smooth surfaces.
Mainly used to make warning signs and Road bump warning signs, etc.

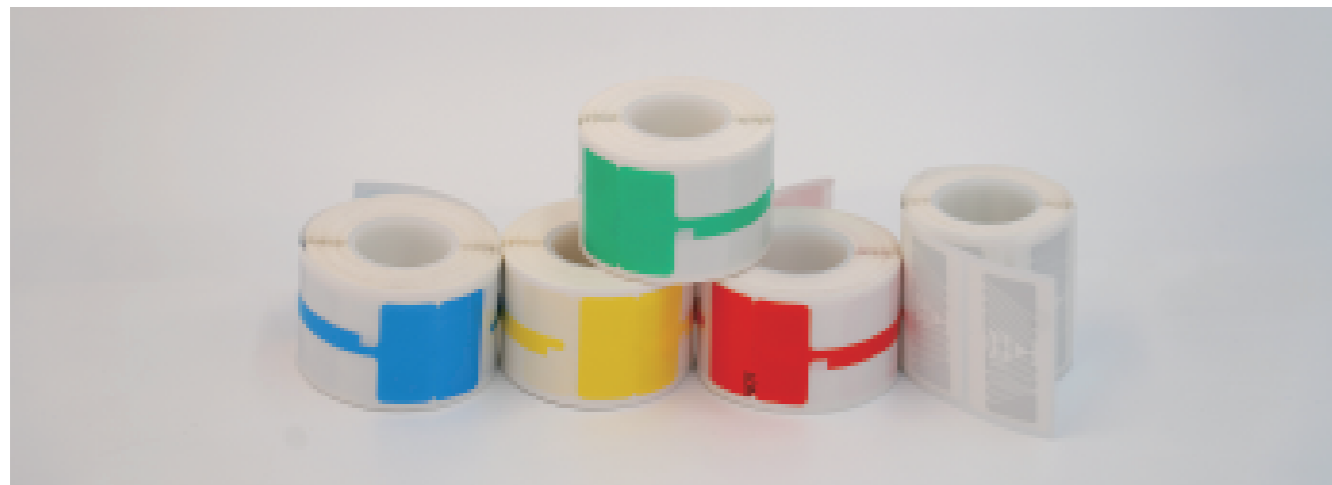

Aluminum Foil Labels/ Various specifications can be customized

1. Label color: White/Yellow/Red/ Blue/Green/ Silver etc.
2. Label specifications: 220mm/260mm, the length can be customized.
3. Printing method: Thermal transfer
4. Label features: clear printing, smooth surface, superior weather resistance (over 5 years).
5. How to use the label: After punching , fix it on the marked object with a cable tie.
6. Note: When printing this material, It is necessary to debug the printing temperature, speed and pressure to prevent poor printing or damage to the printer.
The parameters involved will be different depending on the environment and printer accuracy .
