

Go Green Play

About us

Welcome to Go green play. We are the crusaders of eco-friendly innovative playgrounds. Go green play are the wide spread playground equipment suppliers in South East Asia. We create natural surroundings aided by eco-friendly equipments such as green parks and gardens, sports court, theme parks and water parks. Our team consists of specialist and designers who come up with creative as well as functional designs that provide best quality, durability and safety. The four pillars of strength of our company are:

Philosophy:

Come with a dream... we will make it happen

Mission:

Professionalism is our commitment

Vision:

Bringing man and nature closer

Safety and quality:

Safety is our priority and our quality is our assurance

Our products adhere to international standards and quality tests. We vigilantly strive to provide you a prompt service with complete guidance so that you can utilize our products to their full potential and easy maintenance. Check out our products list to know more.

Green Play: Comprehensive range of high quality Playground Equipment Solutions that include, Swings, Slides, Nets, Spring Riders, shelter, shades, Ride-on, Activity Toys, Trampoline, Merry go round, Sea Saws, Scrambler, and more.

Green Fit: Gain a healthy body and healthy mind with our wide range of indoor and outdoor fitness & sport equipments.

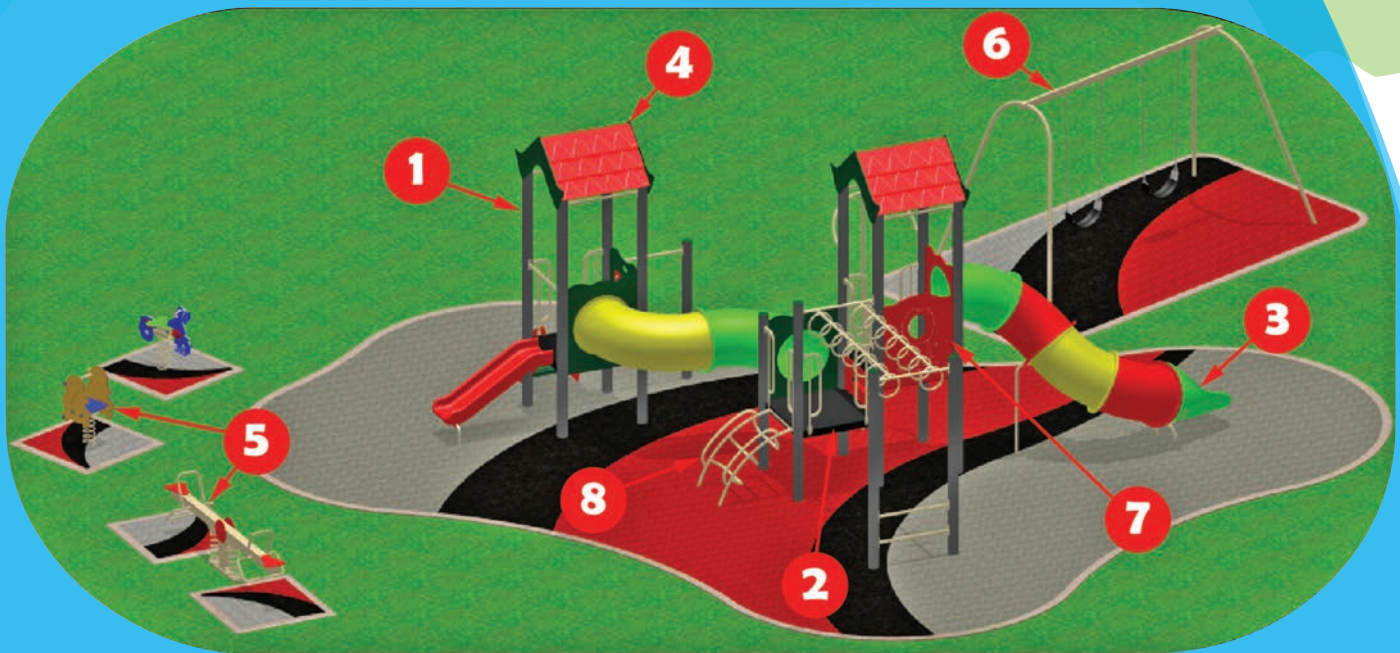

Green Floor: With designer, durable and comfortable flooring we inspire lives at every step. Our floorings solutions includes a range of square tiles, recycled rubber tiles, interlock mat, Paving Tiles, Ballistic Tiles, Crumb Rubber, EPDM speckled flooring, Artificial Grass and Surfacing.

Green Worx: Our decorative and convenient furniture such as wooden seats, benches, picnic tables, dust bins, shelters and much more strive to keep your parks, towns and all other open spaces clean, comfortable and beautiful.

Water Park: Kill the heat as you chill in splashy fun at water parks with Thaiplay slides, pools, showers, games etc.

Green Sports Floor: Thaiplay Equipment invests in latest innovations and technologies to support the sportsmen and encourage sports. With our no compromise attitude we create sturdy, stylish and safe floorings for all kinds of sports courts.

Material Specification

1. POST

All our posts are made of aluminium and they are coated with PEF ultra violet polyester powder coating.

2. STEEL CAOTED DECK

Our decks are fabricated from reinforced steel plate and coated with PEF ultra violet polyethylene powder coating.

3. ROTATIONAL MOULDED POLYETHYLENE

Tube slide, slides and panel holders are of rotationally moulded linear medium density polyethylene & consist of ultra violet (UV) stabilizers and colour impregnation, with anti-static guard and their thickness is about 5.0mm averagely

4. ROOF

Roof are made from UV stabilized high density polyethylene (HDPE) panels, and their thickness varies from 5mm to 12mm.

5. SPRING PLAY EQUIPMENT

5.1 SPRING RIDER

Body of the riders are fabricated from 10mm to 15mm thick high density polyethylene (HDPE) panels. Spring coils used for the riders and galvanized & powder coated. They are 9.6mm thick, 400mm height & O.D. approximately 140mm.

5.2 SEESAW

Body of the riders are fabricated from 10mm to 15mm thick high density polyethylene (HDPE) panels. Spring coils used for the riders and galvanized & powder coated. They are 9.6mm thick, 400mm height & O.D. approximately 140mm.

6. SWING

The beam are made of hollow section steel posts; size 38mm x 76mm while the swing legs are made of 48mm steel posts. They all galvanized and PEF ultra violet polyester powder coated. Swing chains are made of stainless steel and belt seats used are of steel plate covered with slash proof EPDM.

7. PANEL

Our panels are made from high density polyethylene (HDPE) and thickness varies from 10mm to 15mm. The panels are UV stabilized to ensure its durability and colour stability.

8. STEEL COMONENTS

All steel components including climbers are fabricated from steel pipe varies from O.D. 27mm to 48mm. They are welded by our experienced welders and then hot dipped galvanised & powder coated.

9. HARDWARE AND FASTENER

All hardware and fastener (bolts, nuts, screws, washers and etc.) used are tampered resistant stainless steel. Exposed hardware shall be covered with ultra violet stabilized plastic safety cap as a safety feature against possible hazard.

GPIP Series

GPIP-0201126

Size : 4.5m (L) x 3.1m (W)
 Design for Children : 3-8 years
 Child Capacity : 5-8 Children

GPIP-1301147

Size : 6.5m (L) x 6.5m (W)
 Design for Children : 3-8 years
 Child Capacity : 20-30 Children

GPIP-1602148

Size : 8.0m (L) x 4.5m (W)
 Design for Children : 3-8 years
 Child Capacity : 20-30 Children

GPIP-H0901111

playstructure Size : 11.2m (L) x 7.8m (W)
 Minimum recommended area : 15.2m (L) x 11.8m (W)
 Designed for children : 3-8 years
 Child Capacity : 15-20 Children

GPIP-030290

playstructure Size : 7.7m (L) x 6.0m (W)
 Minimum recommended area : 11.7m (L) x 10.0m (W)
 Designed for children : 3-8 years
 Child Capacity : 15-20 Children

GPIP-120146 B

playstructure Size : 10.0m (L) x 6.3m (W)
 Minimum recommended area : 14.0m (L) x 10.3m (W)
 Designed for children : 3-8 years
 Child Capacity : 15-20 Children

GPIP-Train 01

Size : 10.0m (L) x 1.5m (W)
 Design for Children : 3-8 years
 Child Capacity : 15-20 Children

GPIP-Ship 0802

playstructure Size : 6.0m (L) x 2.9m (W)
 Minimum recommended area : 10.0m (L) x 6.9m (W)
 Designed for children : 3-8 years
 Child Capacity : 10-15 Children

GPIP-Ship 1301

playstructure Size : 9.0m (L) x 7.0m (W)
 Minimum recommended area : 13.0m (L) x 11.0m (W)
 Designed for children : 3-8 years
 Child Capacity : 20-30 Children

GPIP-050203

Size : 6.5m (L) x 4.6m (W)
 Design for Children : 3-8 years
 Child Capacity : 15-20 Children

GPIP- Castle Fortress

Playstructure Size : 4.2m (L) x 2.7m (W)
 Minimum recommended area : 8.2m (L) x 6.7m (W)
 Designed for children : 3-8 years
 Child Capacity : 3-5 Children

GPIP- Hovercraft

Playstructure Size : 4.5m (L) x 1.7m (W)
 Minimum recommended area : 8.5m (L) x 5.7m (W)
 Designed for children : 3-8 years
 Child Capacity : 3-5 Children

GPIP- Heli

playstructure Size : 4.5m (L) x 1.7m (W)
 Minimum recommended area : 8.5m (L) x 5.7m (W)
 Designed for children : 3-8 years
 Child Capacity : 3-5 Children

GPIP-020161

Size : 7.3m (L) x 6.2m (W)
 Design for Children : 6 - 12 years
 Child Capacity : 10-15 Children

GPIP-0402137

Size : 6.9m (L) x 4.6m (W)
 Design for Children : 6 - 12 years
 Child Capacity : 10-15 Children

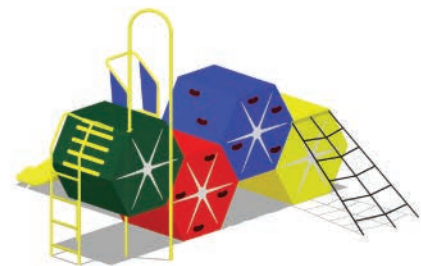

GPIP- 010030 B

playstructure Size : 6.7m (L) x 3.7m (W)
 Minimum recommended area : 10.7m (L) x 7.7m (W)
 Designed for children : 6-12 years
 Child Capacity : 8-10 Children

GPIP- 020046

playstructure Size : 8.0m (L) x 9.0m (W)
 Minimum recommended area : 12.0m (L) x 13.0m (W)
 Designed for children : 6-12 years
 Child Capacity : 20-25 Children

GPIP-Block Climber 4

playstructure Size : 4.0m (L) x 4.0m (W)
 Minimum recommended area : 8.0m (L) x 8.0m (W)
 Designed for children : 6-12 years
 Child Capacity : 5-8 Children

Green Floor

Green Tiles

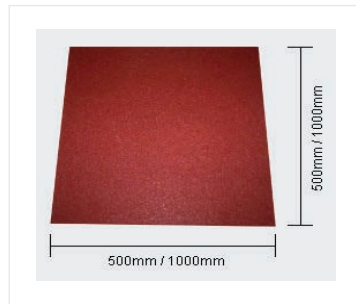

Superior Flooring is expected to have certain features such as smoothness, toughness and attractiveness. Green Floor manufactures perfect combination of all three in the form of Green Tiles. Green Tiles adds fresh and cheerful vibes in the flooring. A wide range of colours allows users better choice and provides suitable options. Flooring is one of the most essential elements of ambience; hence one must wisely invest in it.

Green Tiles is safe as it is manufactured with mix of eco-friendly materials. These tiles are used in several places and we manufacture flooring tiles as per the requirements to maintain overall balance of your areas. Green Tiles makes Indoor as well as outdoor surfaces look absolutely astonishing.

Square Tiles

This is a simple square shape best to cover areas which need to be projected as spacious and smooth. Due to its uninterrupted pattern the Square Tiles give your area an amazingly smooth and unified look and feel.

Dimension :
500mm x 500mm
1000mm x 1000mm

Pattern Tiles

With a choice of colours and their combinations Pattern Tiles allow you to stylise your ambience. Now you can add some creative spark to your children's life.

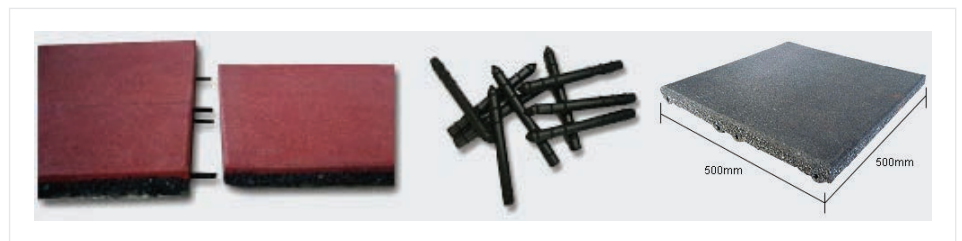

Dimension :
500mm x 500mm

Square Tiles c/w Pin-Hole

These elements help to connect installations, which doesn't require any glue work and it can be easily replaced as required, thus providing a non messy, easy and quick installation.

Dimension :
500mm x 500mm

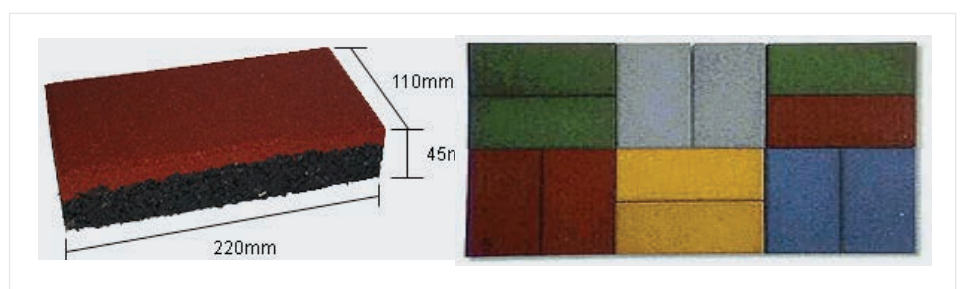

Paving Tiles

Shapes of paving tiles differ as per need and they are manufactured to fit into various surfaces. It provides consistent protections and resilience against the changing climatic conditions. It caters heavy duty surfaces such as commercial, industrial and recreational areas. Paving Tiles has shock absorbing qualities and it's not slippery.

Rectangle Paver

The edged rectangular shape provides strength and smoothness to your pavements and also grants them a simplified yet attractive look. These pavers are shock absorbing and they are spikes and slips resistant.

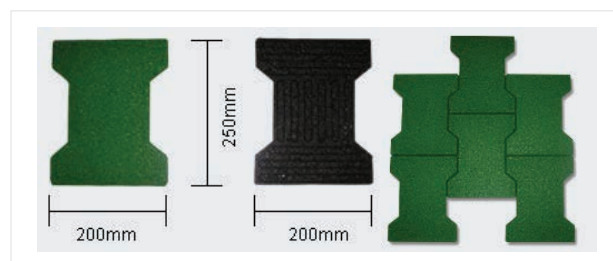

Dimension :
110mm x 220mm x 45mm

I or Double T Design

Traditional tiles look simple and lack versatility to make the surface look fresh and attractive but as times change and markets grow; manufacturers begin developing more innovative ideas. 'I or Double T Design' is an outcome of such an idea. It has a trendy shape and looks beautiful when structured together.

Dimension :
200mm x 250mm

Green Floor Rubber Mats

Versatile Interlocking mats for play, fitness and event installation

Interlock Mats

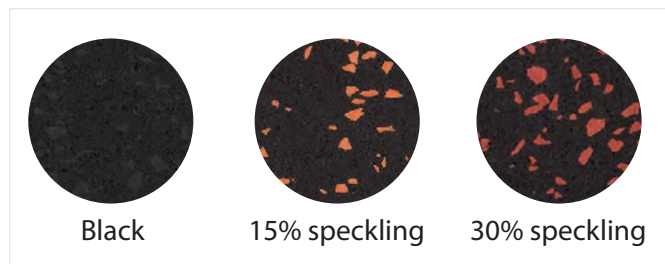

Soft, resilient dual layer interlocking mats are a great alternative for playground and fitness centers, or for portable applications such as exhibition flooring. Integrated invisible connectors allow fast loose-lay installation with no adhesive and easy tile replacement.

Colours

- Six pigmented colours (see the square tile colour chart)
- Black with terrazzo style colour speckling using EPDM granules in 10%, 30%, 50%, 70% and 90% density.
- Also available in any of our EPDM colour range.

Standards

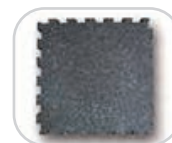

our interlock tiles conform to the following safety standards.

Black

15% speckling

30% speckling

V-Interlock mats
500mm x 500mm
10mm and 40mm thickness

Big V-Interlock mats
1050mm x 1050mm
18mm thickness

40 I-Lock mats
1145mm x 1100mm
10mm thickness

Ballistic Tiles

These are thick tiles customized to use for ambience of rifle shooting clubs and other shooting purposes. It has high thickness and higher density to provide protection against splatter and it maintains airborne lead, and eliminates ricochet. Our experts do various tests before finalizing the ultimate product to eliminate even the slightest of the risks.

Notable Features Are Given Below

- Reduction of Airborne Lead
- Elimination of Ricochet
- Splatter Protection
- Sound Absorbent
- Durability
- Easy Replacement & Installation
- Economical
- Portable
- Stack to create a backstop or wall

Dimension :
500mm x 300mm x 200mm
500mm x 200mm x 100mm

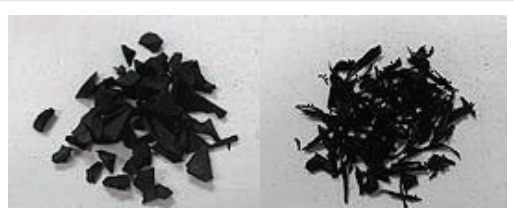

Colour Available :
Black, Red, Green

Green Floor Rubber Mats

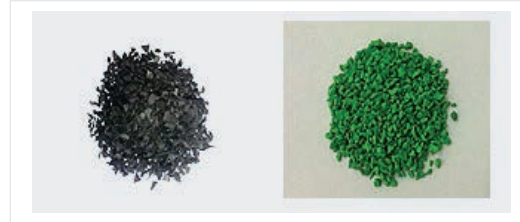

Crumb Rubber Material

Crumb Rubber means recycled rubber. It is used to make several products and services. It has large demand as it provides strong bonding for surfaces and other goods; whilst maintaining comfort level and safety for its users.

Few Usages of Crumb Rubber

- Shred Rubber & Rubber Granules
- Most Mesh Size Available
- Bulk Bag & Poly Bag Packaging

Few Usages of Infill Rubber

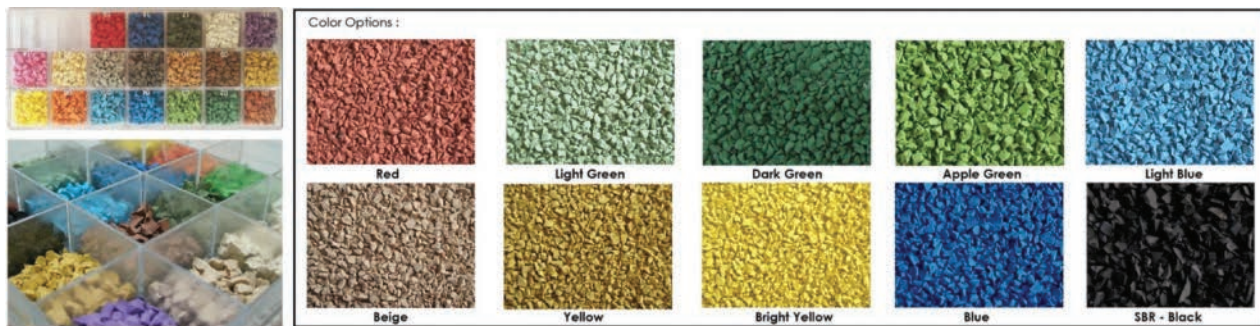

This material is mixed for several uses but mostly to develop artificial turfs.

- SBR & EPDM Infill
- Most Mesh Size Available

EPDM (Ethylene Propylene Diene Monomer)

This material is one of the kinds of synthetic rubber. EPDM is used for seals, radiators, garden equipments, tubing, washers, belts and many more products that we use in a daily lives. Basically, EPDM is used for roofing materials for the buildings and for other building related industries. EPDM is in high demand to build flexible single ply.

- Seamless Appearance
- Custom Made Designs/Size
- Wide Choice Of Colors

WARRANTY CERTIFICATE

Green Play provide warranties on all Children Playground equipment's and other related park furniture range against defects in materials and workmanship. Details of products warranty are as follow:-

MAIN STRUCTURE

Limited 5 years warranty against structural failure due to corrosion or deterioration from exposure to weather. This warranty is applicable to GI posts and steel decks only.

STEEL COMPONENTS
