

Welcome to EXXCEL INTERNATIONAL, your Reliable and Trustworthy partner for your needs related to Engineering & Industrial Materials. We are a leading Exporter of various Metal Products like

Stainless Steel Wires, SS Rods, SS Welding Rods, SS Spring Wires, SS Plates, SS Fasteners, SS Coils, SS Profiles, SS Bright Bars and more.

We have Quality Products for your every need in Engineering & Metal and we have the ability to provide it to you, as per International Quality and Standards.

We presents you a wide range of PREMIUM & FINEST QUALITY Engineering Goods & Metals.

QUALITY matters to MOST and so for us too, QUALITY reflects in our every product. We are BEST known for what we sells and that's QUALITY.

Stainless Steel Fine Wires

Size Range : 0.09 to 20mm

Standards : ASTM, DIN, BS, NACE

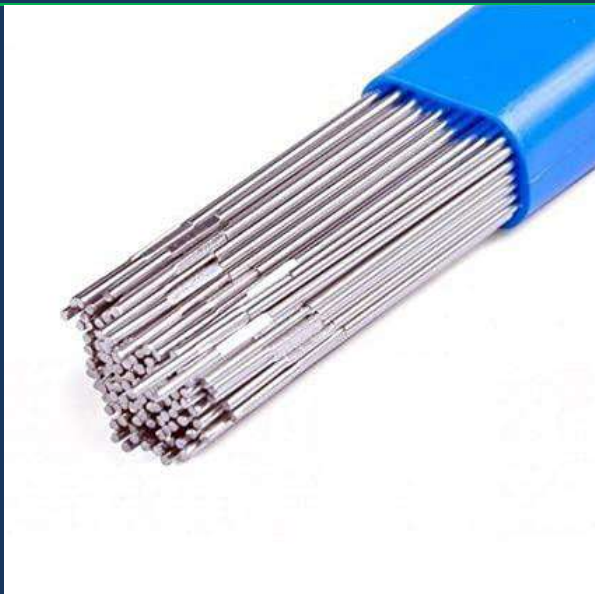

Applications : Weaving, Braiding, Knitting, Kitchen Appliances, Wire Mesh, Hose Covers, Engineering goods, Medium / Thick wire, Welding wire MIG/ TIG, Core wire, Cold heading wire, Fine wire, Electro Polish wire, Spring wire, Rope wire, Redraw wire, Tie wire (soft range), Tie wire (bright drawn), Nail wire, Conveyor belt wire, Staple Pin wire, Nickel coated spring wire, Nickel coated base wire for spring and more...

Stainless Steel Welding Wires

Size Range : 0.8 to 1.5mm

Standards : ASTM, DIN, BS, NACE

Applications : MIG, SAW, MMAW welding applications in Engineering, Shipbuilding, Oil & Gas, Fabrication industries and more...

Stainless Steel TIG Welding Rods

Size Range : 0.8 to 4.0mm

Standards : ASTM, DIN, BS, NACE

Applications : TIG welding applications in Engineering, Shipbuilding, Oil & Gas, Fabrication industries and more...

Stainless Steel Coils

Size Range : 0.3c to 10mm

Standards : ASTM, ASME,

Applications : Engineering goods, Food processing equipments, Metal molding, Architectural & home decoration, Hardwares, Furnace parts, Hinges and many more...

Stainless Steel Rods / Bright Bars

Size Range : 160 to 600mm

Standards : AISI: 201, 202, 301, 303, 304, 304H, 304/304L, 316, 316H, 316/316L, 309, 309S, 310, 310S, 316Ti, 317, 317L, 347, 321, 321H, 410, 416, 420, 430, 430F & more...

DIN: WNR1.4301, WNR1.4305, WNR1.4306, WNR1.4307, WNR1.4401, WNR1.4404, WNR1.4571, WNR1.4541, WNR1.4828, WNR1.4841, WNR1.4845 & more...

Applications : Automotive, Pump, Fabrication, Food Plants, Hose, Tools, Bearing, Material handling industries...

Stainless Steel Plates

Size Range : 0.1mm to 60mm and more...

Standards : ASTM /SME 240

Applications : Engineering, Food processing, Shipbuilding, Automotive, Construction, Decoration, Fabrication, oil & Gas projects and more...

Stainless Steel Core Wires

We can provide our Customers with Finest Precision Quality Stainless Steel Core Wires. Stainless Steel Core Wires suitable for Welding Electrode manufacturing.

Grades - AISI 304L, 316L, ER307Si, ER308L, ER308Lsi, ER309L, ER309Lsi, ER310, ER347, ER317L, ER312, ER2209, 430L, ER430L etc.

Size Available - 1.6 to 5 mm

Surface Finish - Bright, Matte

Stainless Steel Spring Wires

We can provide our Customers with Finest Precision Quality Stainless Steel Spring Wires. Stainless Steel Spring Wires with excellent Mechanical properties and suitable for various Spring manufacturing.

Grades - AISI 302, 304, 316

Size Available - 0.10 & above

Surface Finish - Bright , Soap Coated

Exxcel Steel, brand of Exxcel International India, we are Exporter of Finest & Precision Quality Steel products. We can provide our Valuable Customers with SS Welding Wires, SS Bright Bars, SS General Wires, SS Core Wires, SS Spring Wires, SS Cold Heading Wires, SS Fine Wires and more.

We believe in presenting the Excellent Quality products which adds value to its end users. We are committed to deliver products of Finest Quality & Precision Engineering, matching International Standards, for which we undergo continuous improvement in our process. Our strict adherence to Quality and Service has led us to be a reliable business entity.

THANKING YOU
