customers.

We manufacture both thermal and non-thermal paper products for every purpose, including point of sale, kiosks, ATMs. And our products are used in every market: retail, hospitality, logistics, gaming, and countless others. Today, our company assets include over 100 employees, 50 advanced slitting capabilities, 10 die-cutting machines, and 5 printing presses. These assets allow us to get the most out of our work and offer you the best products on the market.

A significant and wonderful part of this industry is that thermal paper is constantly used everywhere in millions of places every day – this can generate **huge, consistent profits** for you. Our company's unique advantage is that because you are buying directly from the manufacturer, our prices are at least 5% – 10% lower than other suppliers!

## Rolls

2 ply and 3 ply cash register rolls are made from carbonless paper, and can be used where both an original and a copy are required. This paper can be used for impact printers in the catering, hotel, and logistics industries. The image text colors can be black or blue.

ATM paper is a thermal paper used for receipts in ATM transactions. When you make a transaction at an ATM, the machine uses this paper to print out your receipt containing all the transaction information. It is essential in the bank industry.

Our medical recording paper includes rolls and Z-fold packs that are equivalent to the original brand. They are available for every medical device in a wide range of paper thickness, thermal grade, and paper size. We also manufacture recording papers with private labels on an OEM basis.
