

Sureflo is one of most trusted manufacturing & service provider brand with rich history in water and wastewater treatment. We are major supplier to top EPCs, refineries, power, steel, chemicals, pharma, fertilizer, and other major industrial and municipal sectors.

Sludge Cleaning Robots

In recent years we have introduced sludge cleaning robots specially designed for power, steel, refineries, and fertilizer plants. These underwater robots can remove and pump out sludge from cooling tower basins, tanks, forebays, fire water ponds, scale pits, oily sludge pits, ETP, STP tanks and API separators. This technology works on the principle of "NO MAN ENTRY – NO SHUT DOWN" basis.

Our Major Manufacturing & Service Verticals: -
