BIKE seat

OEM welcomed
Premium material
Sample available

CRBS16
UPC#769256712555

Oversize saddle
thicken high-elastic
premium PU leather
Shock Absorption
Exclusive airflow vent

CRBS11
UPC#769256712425

high quality foam and artificial fatty gel padding ,
non-slip waterproof PU leather

This road bike seat can distribute pressure from your back
across the surface of the saddle and eliminate sit bone pain
effectively.

Narrow front sides and stremlined design allows your thighs to
move freely while riding,prevent friction inside the thighs.The
middle cutout increases air circulation,enhances breathability,
keeps it dry, reduces the riding pressure, and can ride much more
comfortably for longer periods of time.

FIXED MOUNT SUSPENSION DESIGN

The bottom is equipped with double
steel springs

GOOD ELASTICITY, TOUGHNESS

★DOUBLE SHOCK ABSORBING BALL★The two shock absorbing balls placed beneath the bicycle seat ensure absorbing the shocks coming from the bumps, potholes or any difficult terrain you are riding on. Just enjoy your healthy and happy long-distance riding!

CRBS12
UPC#769256712432

★ERGONOMIC DESIGN★padded by thicken widened high-density memory foam, soft and comfortable. Bike saddle cushion surface is non-slip wear-resistant leather. Airflow vent in middle accommodates circulation of buttock and speed up the air flowing and heat-dissipation, keep your buttock a long time cooling and dry. Streamlined and narrow front sides design allows the thighs to move freely while riding.
