

DUTTASON ENGINEERS

The power of applied
INTELLIGENCE...

We "Duttason Engineers" are actively committed towards manufacturing and supplying a remarkable array of steel plant equipment, heat treatment furnace parts, chemical and pharmaceutical equipment, industrial fabrication etc.

COMPANY PROFILE:

DUTTASON ENGINEERS, Ludhiana was founded in 1990 to serve local industries for various types of Fabricated Steel products and now has also Embarked on serving the diverse realms and regions across the globe. DUTTASON ENGINEERS is now structural & miscellaneous Fabricators for Industrial & Commercial Applications in Steel, Stainless Steel & Non-ferrous metals like Aluminium, Brass & Copper.

Our customers include contractors and plants in Steel, Chemical, Rubber, Paper, and Food & Beverage Industries. Customers are supplied with components from Foundation Bolts to Equipment. Special Material & Welding Processes are included to assure complete & comprehensive services. Offers are prepared as per customer's plans & specifications and include, if necessary, Drawings, Material Certifications, Welding Certifications and Testing. Quality is assured by in-house Testing and if required by contract Laboratories.

DUTTASON ENGINEERS' personnel have Steel & Fabrication background, thus giving our customers broader understanding of their jobs. Our location at G.T. Road, Ludhiana, an industrial hub of Northern India gives us pool of qualified & skilled workers that makes our pricing competitive in all respects.

DUTTASON ENGINEERS has been assessed by Intact Certifications and Registered as complying with requirements of International Quality Standard ISO-9001:2015 & have start exporting their Products to various countries directly & through Registered Export Houses.

Products that are manufactured \ fabricated and supplied to valued customers repeatedly:

- Ladles & Charging buckets for Steel Plants.
- Lead & Zinc Bath for Wire & Galvanizing Plants.
- Water Cooled Tubular Panels for Electric ARC Furnaces.
- Water Cooled & Refectory Lined Ducting for F.E.S's.
- Air Receiver Tanks Cap. .25 M3 – 20 M3 (Working Pressure 7- 20 Kg/Cm2)
- Chimneys & Air Pollution Control Devices for Boilers, Heating & Re-Heating Furnaces.
- Effluent Treatment Plants.
- Chemical Reactors, Mixer and Distillation units.
- Storage Tanks Capacity 0.1 Kl – 300 Kl.
- Insulated Tanks for Dairy, Food & Beverage Industries.
- Consumable Spares for Induction, Arc, Annealing and Gas Carburising Furnaces.
- Retort, Carburising Basket, Anneling Bell (Inner Cover), Diffuser Base For Heat Treatment Industries.
- Valcanizer for Rubber Plants.
- Auto Clave Vessel for Dying Units.
- Plate Bending (40 MM (Thick) x3000MM (Width)
Pipe Bending (½" to 6").
- Dish Making (upto 4500MM Dia, 30 MM Thick)
- CNC Profile Cutting (3000MM Width x 13000MM long)

OUR PRODUCTS

FABRICATED PRODUCTS

90' Bend

Mixing Chamber

Chimney

Duct

Impeller Fan

Salt Bath Pot

HEAT TREATMENT ANNEALING

Annealing Bell

Gas Carburising Bucket

Gas Carburising Furnace

SS Retort

PRESSURE FILTERS TANK/ VULCANIZER/FILTREL TANK
