

Inder Machine Tools International

Manufacturers & Suppliers of :

E.O.T. Crane, Gantry Crane, Material Handling Equipments & Accessories,

About Us

We "Inder Machine Tools International" have gained success in the market by manufacturing a remarkable gamut of EOT Cranes, Gantry Crane, Industrial Sheds, Gear Coupling, HDT Crane, etc. We are a well-known and reliable company that is incorporated in the year 2009 at Khanna, Distt. Ludhiana (Punjab, India) and developed a well functional and spacious infrastructural unit where we manufacture these products in an efficient manner. We are a Sole Proprietorship firm that is managed under the supervision of "Mr. Satwinder Singh Sodhi" (Proprietor) and have gained huge clientele.

With the zeal to excel, 'Inder Machine Tools International' was established for serving the needs of material handling work. Our underlying interests are in the manufacturing of a wide gamut of material handling equipment and many more. Addressing the needs of material handling and allied industries, our range is designed in accordance with the market requirements and industry-specific demands. A perfect blend of quality and innovation, our range stands apart from other similar equipment available in the market, because of its appropriate fabrication and testing. We trade our own brand Inder.

Quality Assurance

Quality is one of the indispensable aspects of our range and we have ensured necessary action to maintain to it. Our quality assurance department is manned by diligent quality auditors whose keen attention to detail help us in maintaining a vigil on our processes. Our manufacturing process is carried out under proper surveillance that ascertains a stage wise checking, thereby leaving no stone unturned in accomplishing optimum quality in our end results.

We test our range of products on various parameters that are mentioned below:

- Performance
- Corrosion resistance
- Sturdiness and construction
- Tensile strength
- Tolerance
- Capacity to handle tough working conditions

Only after testing our manufactured range on the above mentioned parameters, we pack them in high grade material and dispatch for delivery.
