

Dear Sir,

We would like to take this opportunity to introduce “**GLOBE CHEM** for Chemical Industries”

GLOBE CHEM is specialized in manufacturing, blending & refilling chemicals, established in 2015 located at Alexandria Free Zone in EGYPT.

GLOBE CHEM Total Plant area is 2500 m² include 300m² administration building and Laboratory facility.

Production Capacity:

- 2 Reactors stainless steel 8m³ equipped with heating & cooling facilities
- 3 Blending tanks for oil field chemicals
- Hot water basin to heat chemicals drums if needed
- Utilities including pumps, air compressor, filters, etc.
- Our production capacity is close to 20K tons/year as we can expand further based on demand.

GLOBE CHEM is ISO (9001, 14001 & 45001) certified company.

GLOBE CHEM is registered at EGPC under No. 68 dated 21 May 2020.

Our energetic and ambitious team is always willing to develop at various dimensions.

We are ready to export to African countries to share benefits of **AFFRICAN CONTINENTAL FREE TRADE agreement (0% Taxes & 0% Customs) –COMESA CERTIFICATE**

Our first product that we would like to introduce is “**MEA Triazine**” commonly used as H₂S scavenger (40%-80%).

We hope to have a fruitful cooperation

Regards

General Manager

Ashraf Fouad

Client List

General Petroleum Co.

Qarun Petroleum Co.

Khalda Petroleum Co.

Petrobel Co.

Badr Petroleum Co. "Bapetco"

PetroSilah Petroleum Co.

South Dabaa Petroleum Co. "DAPETCO"

Petroshahd Petroleum Co.

Petrogulf

Agiba Petroleum

North Bahariya Petroleum CO. "NORPETCO"

Suez Oil Co. "SUCO"

Petrochem – UAE

Ajal Petroleum & Environmental Integral Service Co. - Kuwait

Environmental Testing and Laboratory Company "ETLCO " KSA

NAPESCO - Kuwait

Kuwait Oil Company

ALNASSERIA Petroleum Co. Kuwait

Product list

Treating & Commodity chemicals

1. Corrosion inhibitor
2. Biocide
3. Paraffin dispersant
4. Oxygen scavenger
5. H₂s scavenger (MEA Traiazine 40% - 80%)
6. Asphaltene dispersant
7. Scale inhibitor
8. Antifouling
9. pH controller
10. Pour point depressant
11. Demulsifier
12. Emulsifiers (Primary and Secondary)
13. Rheology modifier
14. Weighting agent
15. Asphaltic OBM fluid loss reducer
16. OBM thinner
17. Caustic soda
18. Ferric chloride
19. Aromatic and aliphatic solvents
20. Calcium carbonate
21. Sodium chloride
22. Potassium chloride
23. Ferric chloride
24. Organophillic clay
25. Formulation seal
