Introducing MerchanNet: Your Complete Merchandising Solution

MerchanNet is a cutting-edge software designed to streamline operations for manufacturers, factories, exporters, buying offices, sourcing agents, importers, and trading companies dealing with soft line products. Whether you're in the garment, clothing, apparel, fashion accessories, footwear, or any other related industry, MerchanNet is your ultimate tool for efficient and effective management.

Core Value:

MerchanNet focuses on key aspects of merchandising, including cost tracking, quoting, purchasing, and sales analysis. By performing purchasing versus sales analyses, the software helps identify the most cost-effective suppliers and the most generous customers, thereby enhancing sales and profit margins. Additionally, MerchanNet's quality assurance modules ensure the selection of vendors with the best quality and fastest delivery times, minimizing wastage and production costs.

Challenges Addressed:

MerchanNet tackles numerous challenges faced by conventional human-based order follow-up procedures. These challenges include lost track of important stages during collection development and order confirmation, excessive sampling resources spent on non-order placing customers, lack of automated alerts on outstanding issues jeopardizing delivery, and many more.
