TRANSPORT & 3PL DEPARTMENTS

INTERNATIONAL FREIGHT

Rail freight

A fast-growing mean of transportation that offers a balance between the competitive price of ocean freight and the speed of air freight.

Air freight

- **Classic:** uses available freight space within traditional airlines
- **Express:** uses the capacity of the "courier companies"

Ocean freight

- **Less Than container Load (LCL):** Cargo grouped together with other customers in a single container to optimize cost
- **Full Container Load (FCL):** Solution for large volume

THIRD-PARTY LOGISTICS (3PL)

Storage

A 3PL service means warehousing and distribution services. We will store your products in our warehouse on shelves or pallets and by reference in order to facilitate the output while preparing the orders.

Stock management

A spreadsheet representing the current status of your inventory will be updated whenever there are movements. You will therefore be able to keep an eye on the entries and exits of your products at all times.

Last Mile Delivery

Finally, we take care of the repackaging of your products, low-cost distribution thanks to our partnership with Colissimo, and returns management.

OUR PAYMENT METHODS

Choose the most suitable payment method and currency!

Whether the transaction is for a small amount (opening a sourcing account, ordering a sample, sending a prototype...) or for a standard amount, we offer different payment methods: **bank transfer**, **credit card**, or **PayPal**.

Also note that we have foreign currency accounts all over the world, in order to best suit each of our customers.

F.A.Q

FREQUENTLY ASKED QUESTION

Why DocShipper and not another sourcing agent ?

In addition to the fact that we have a worldwide presence, we are simply the one (and only) company able to manage the entire import cycle of your product: Purchase, quality control, compliance, international transport and 3PL services (B2C distribution). Try to find a competitor, we don't have one!

What are the DocShipper departments ?

DocShipper is composed of several departments that are all closely linked. The SOURCING department deals with supply chain issues, the SHIPPING department deals with international logistics operations and finally our 3PL department is specialized in inventory management and B2C shipments throughout Europe (with a warehouse in Camporosso in Northern Italy).

Where is DocShipper located ?

Our headquarter is in Hong Kong but we operate all around the world! Our experts benefit from the DocShipper Group© network and are located on different continents, in order to provide a customized and quality service in an efficient way.

How to get a quote from DocShipper ?

It's very simple! Just fill out our online form or send us an email directly to info@docshipper.com. An expert will answer you within 24/48 hours to analyze your project and build a custom solution that will be in line with your needs (and especially your budget).
