SAFFRON

ORIGINAL PERSIAN SAFFRON

Top of the flower - Sargol

Sargol saffron can also be used to treat coughs and colds as it contains many different components. There are 3 in particular that are known to be the most promising; these are 'Safranal', 'crocin' and 'picrocrocin'. Sargol saffron is also known to boost the immune system. It contains high levels of nutrients such as vitamin C which is paramount for your health. This vitamin stimulates the production of white blood cells, which is the first line of defense in your immune system.
