Shandong Huadong Blower Co.,Ltd

COMPANY INTRODUCTION

- Shandong Huadong Blower Co., Ltd., established in the 2010s, has been engaged in blower business since 2007. It is located in Zhangqiu District, Jinan City, Shandong Province. It has a registered capital of 70 million yuan, covers an area of 60,000 square meters, 45,000 square meters of standard workshops, and more than 100 units. CNC machining center equipment. Now it has more than 200 employees and a R&D team with more than 20 doctors, masters and postgraduates. In 2019, the sales revenue was 218 million yuan.
- Main products: HMGB magnetic suspension high-speed motor, magnetic suspension bearing and bearing control system, HMGB magnetic suspension high-speed centrifugal blower, HMGB magnetic suspension turbine vacuum pump, HKB series air suspension high-speed motor, air suspension bearing, air suspension blower, MVR steam compressor, HDL, HDGR , HDR series two lobe Roots blower, HDSR, HDLH, HG series three lobe Roots blower, HD series rotary blower.
- The company's products have passed ISO9001 international quality management system certification, ISO14001 environmental management system certification, ISO45001 occupational health and safety management system certification and EU CE certification.
- At present, our unit has won the "High-tech Enterprise", "Provincial Specialized Special New Enterprise", "Shandong Famous Brand", "Provincial Hidden Champion Enterprise", "Jinan Gazelle Enterprise", "Zhangqiu Quality Award Organization Award", and "Zhangqiu" "Quality Award Individual Award", "Advanced Party Branch", "Advanced Party Member Management Account", "Civilized and Honest Private Enterprise", "Top Ten Advanced Taxation Unit", "Contract-abiding and Credit-abiding Enterprise", "Consumer Satisfaction Unit" and many other honorary titles. More than 20 national patents, including 7 invention patents, The company pursues the sales and service tenet of "customer first, quality first", actively develops domestic and foreign markets, and provides customers with efficient returns and high-quality services, allowing customers to recognize and satisfy customers.

COMPANY INTRODUCTION

- Up to now, Shandong Huadong Blower Co.,Ltd
- have three branch companies and many local
- agents in different countries and aera.

COMPANY INTRODUCTION

CNC Machining Centers In Workshop

CNC Machining Centers

CNC Machining Centers In Workshop

CNC Machining Centers In Workshop

■ Accessory Storage In Workshop

CERTIFICATIONS

-- CE & EAC & ISO9001: 2015

CERTIFICATIONS

-- Other certifications of Huadong Blower

■ PRODUCTIONS:

- Main product:
- HDSR/HDLH/HG series three lobe roots blower
- HDL/HDR/HDGR series twin lobe roots blower
- HMGB series magnetic levitation turbo blower
- HKB series air suspension turbo blower
- MVR steam compressor
- HTR series double stage roots blower
- HDSR-V/HDLH-V/HG-V series roots vacuum pump
- Roots blower for biogas

PRODUCTIONS

-- HDSR series three lobe roots blower

- * wide flow rate range, from 0.67 to 198.1m³/min
- * pressure rise from 9.8 to 98KPa
- * widely used in transporting air, biogas, natural gas, coal gas and other industrial gas, serving for waste water treatment, biogas to energy, electricity, chemical, metalurgy, food, aquaculture etc.
- * easily for operation and maintenance
- * different size, from 50 to 350, fitting for different needs
- * both positive pressure and negetive pressure are available.

PRODUCTIONS

-- HDLH series three lobe roots blower

- * widely used for aeration in aquaculture
- * easily for operation and maintenance
- * pressure rise from 1000 to 8000 mmAq
- * all size use air cooling
- * different size for choosing, short delivery time

PRODUCTIONS

-- HG series high rotary speed roots blower

- * high rotary speed, energy saving, high efficiency
- * compact structure, space saving
- * equipped with v-belt auto-adjusted system, easily for maintenance
- * low vibration, low noise level, good choice for industry project
- * widely used in electric power plant.

PRODUCTIONS-- HDL/HDR/HDGR series high rotary speed roots blower

- * compared with three lobe roots blower, its flow rate range is much wider.
- * it can transport air, coal gas, natural gas, etc.
- * there are HDL, HDR, HDGR type for choosing, according to different specifications.
- * widely used in textile, electric power, metallurgy, cement, chemical industry, etc.

PRODUCTIONS

-- HDMG series magnetic levitation turbo blower

- * introduced advanced international technology;
- * energy saving and high efficiency;
- * auto-control design;
- * magnetic levitation bearing;
- * high rotary speed permanent magnet synchronous motor;

PRODUCTIONS

-- HKB series air suspension turbo blower

- *airfoil type bearing
- *auto-control system
- *high speed permanent magnetic motor
- *low noise level, low vibration
- * energy saving

PRODUCTIONS

-- MVR Water Steam Compressor

- * stainless steel material or casting iron material with coating, anti-corrosive proof.
- * widely used for high temperature water steam.
- * mechanical sealing, 0 leakage, safe and saving cost.
- * long service life, low energy cost
- * widely used in waste water treatment, chemical, drink, food, medicine, mechanical vapor evaporator system, etc.

PRODUCTIONS

-- HTR series double stage roots blower

- * including two sets roots blowers, motor, and cooler, designed for higher pressure rise.
- * widely used in chemical and thermal power plant.
