PERFORATED SHEETS | WIREMESH | WELDMESH

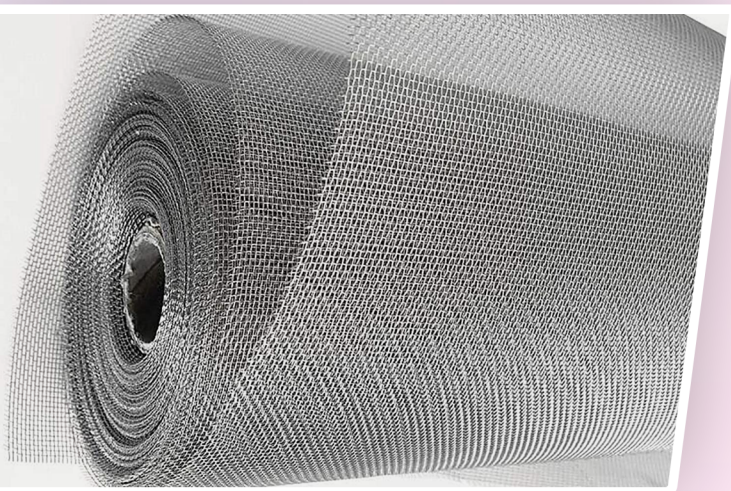

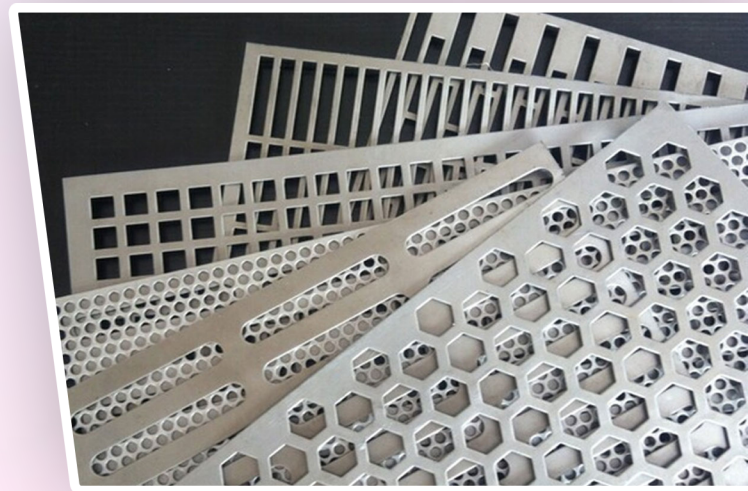

SS & MS MICRO PERFORATED SHEETS & PULVERIZER SIEVES

Micro perforated sheets are offered in both MS and SS for pulverizer mills and flour mills. Our perforated product line includes 1500 to 100 holes per square inch. Special sieves for Wheat, Ragi and Rice.

SS & MS PERFORATED SHEETS

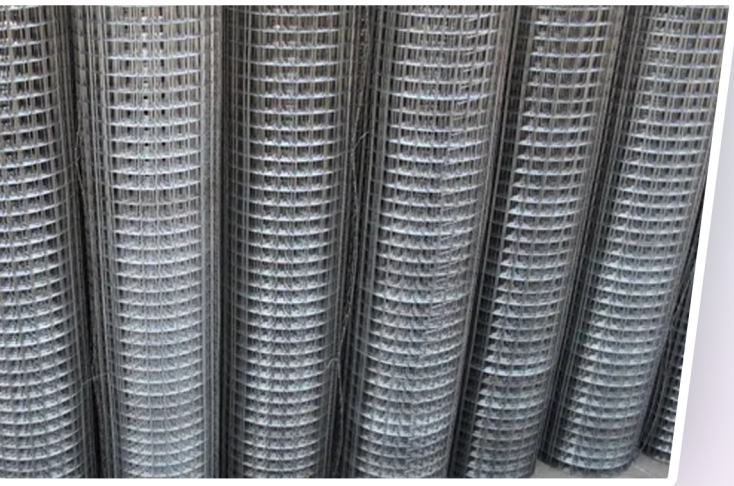

Standard perforated sheet formats available in 3x8 and 4x8 sizes. Our ready stock perforations range from $\text{Ø}0.40\text{mm}$ to $\text{Ø}20\text{mm}$, with sheet thicknesses ranging from 0.45mm to 3mm.

All requests for custom perforations are fulfilled.

SS & MS WIREMESH

Our wire meshes are top-notch quality with a 100% guarantee of uniformity across the entire roll. We assure our customers of perfect wire mesh weaving, size, mesh, and grade. Meshes are available from 10 meshes to 400 meshes.

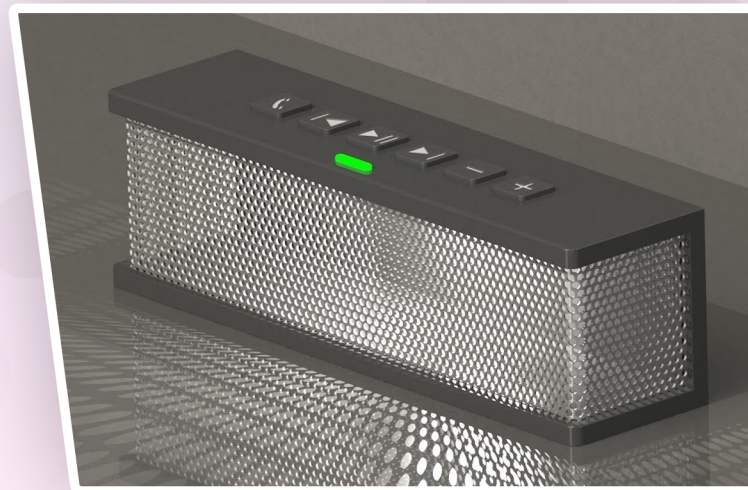

SS, MS & GI WELDMESH

Weldmesh available from 1mm swg to 3mm swg with all the standard sizes open area. Our weldmesh complies with all applicable international requirements, incredibly durable, extremely sturdy and anti-corrosive.

SPEAKER MESHES

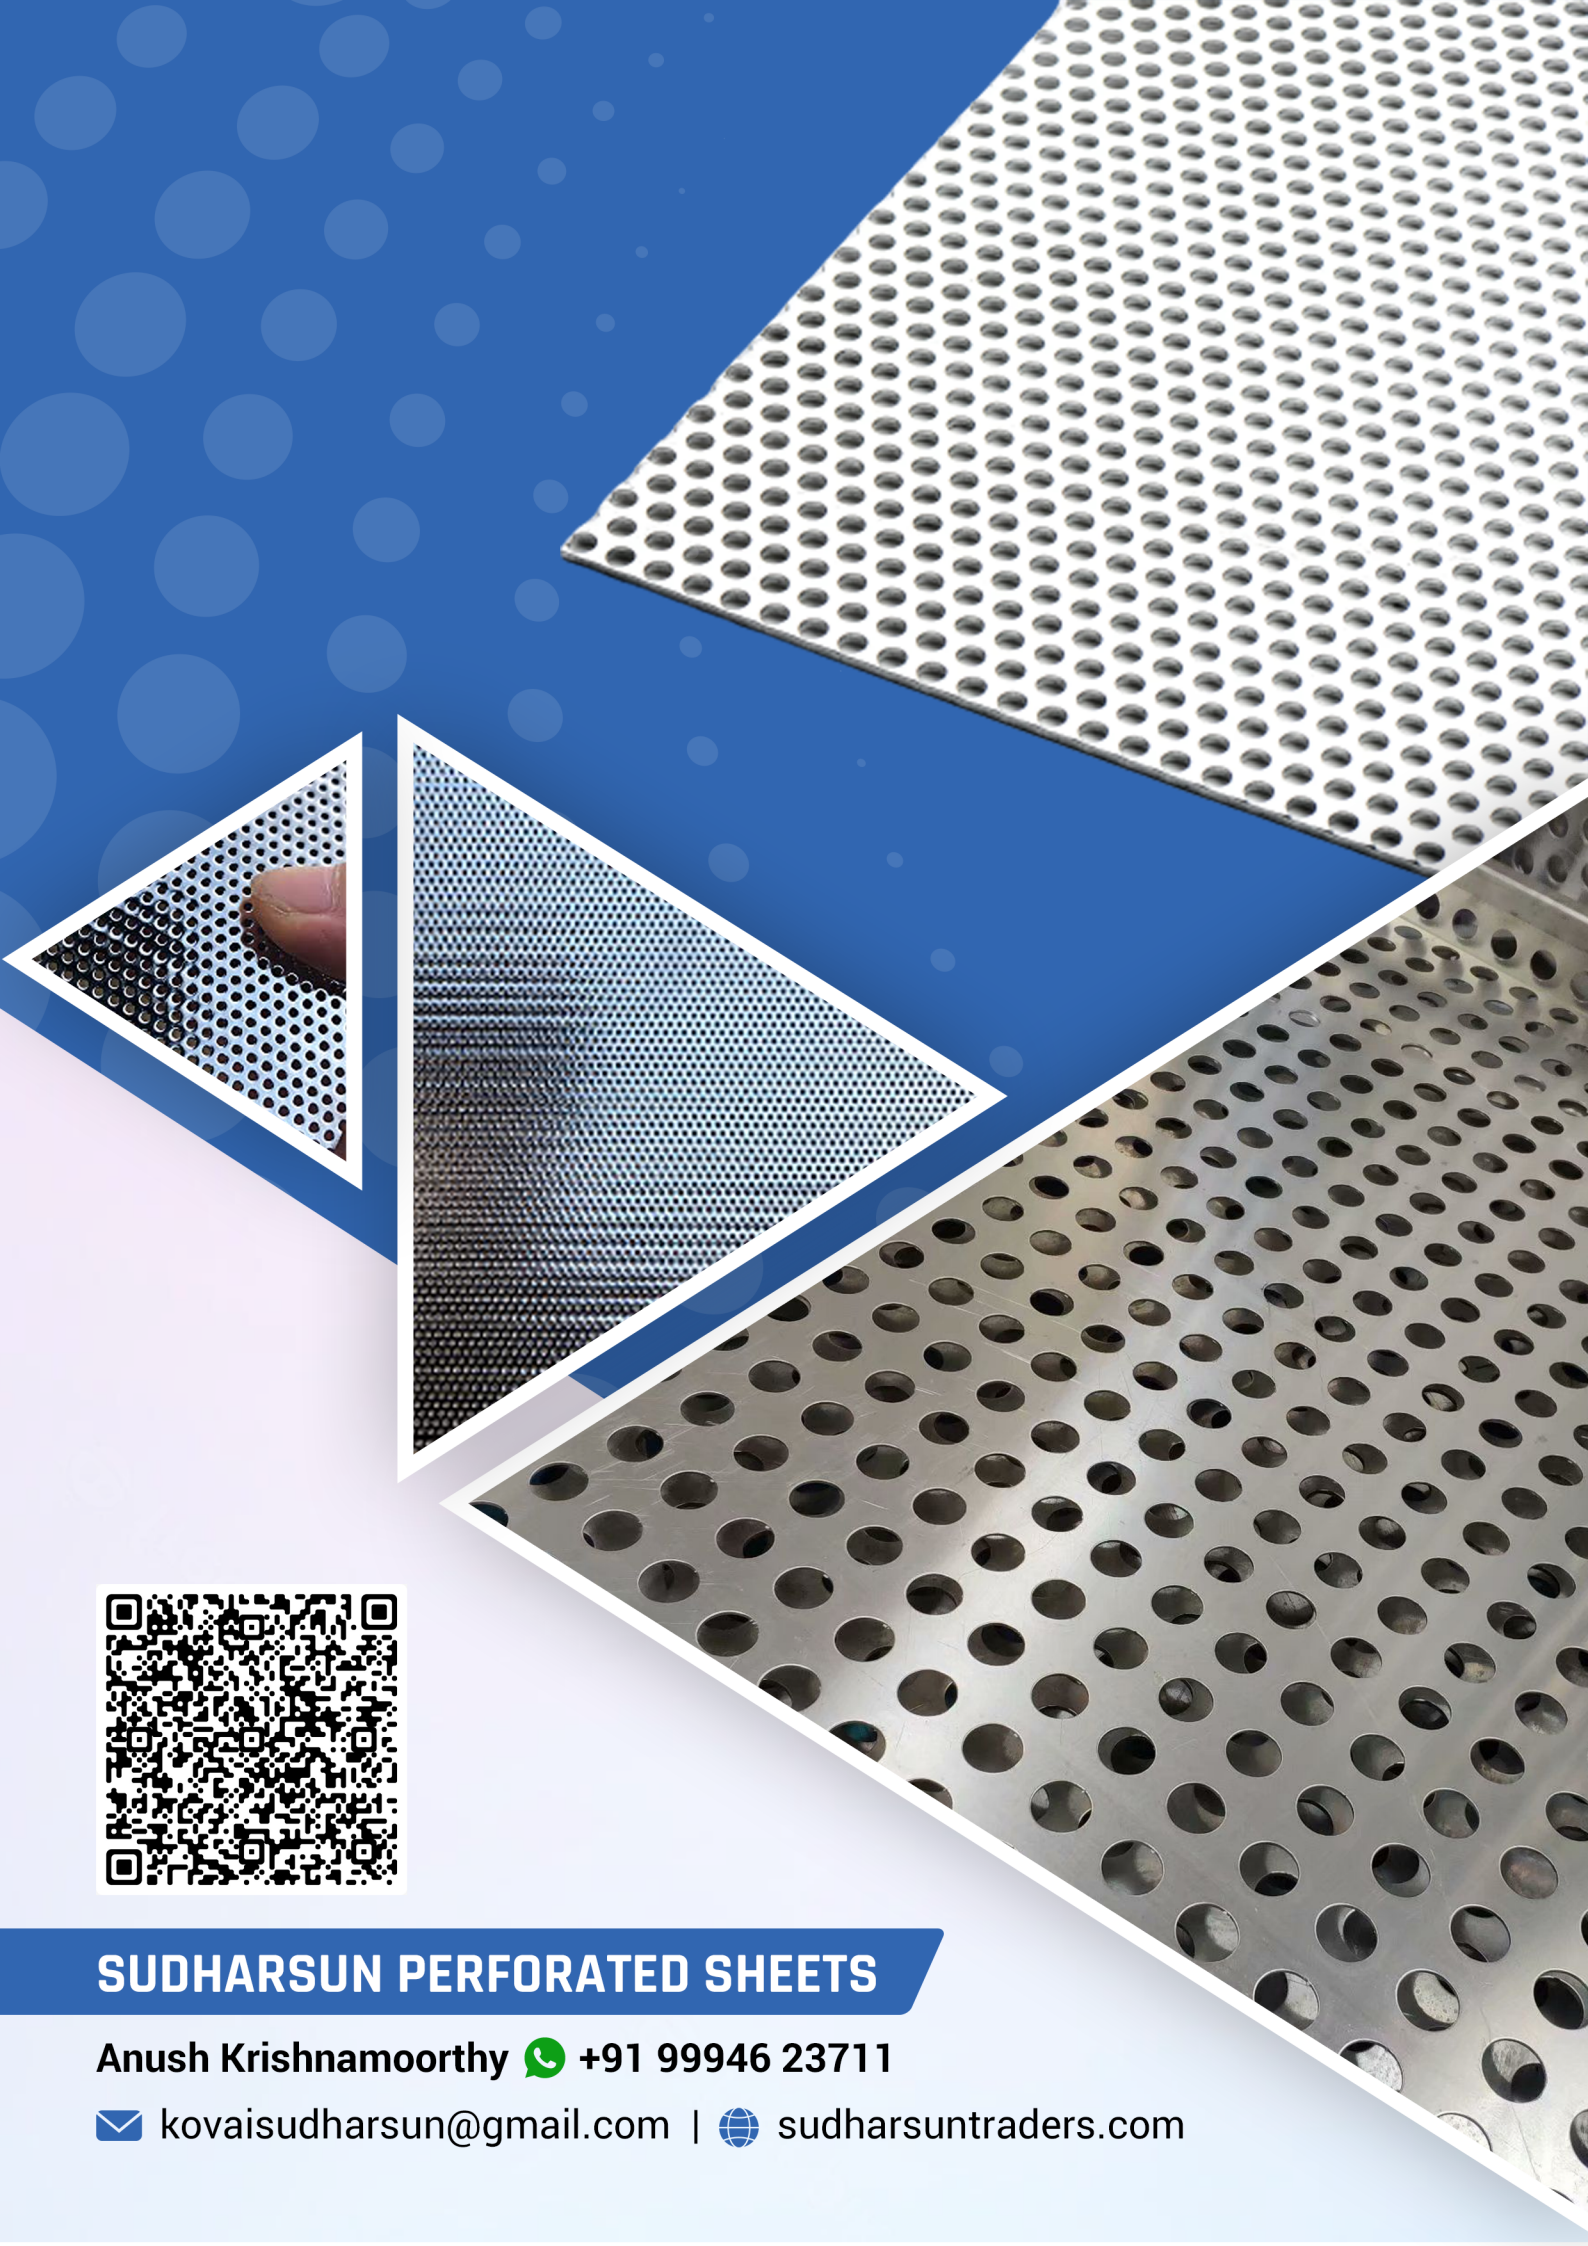

Fully finished and ready-to-use speaker meshes are available in regular standard sizes. Speaker Grills in 16g sheet thickness in both round and hexagon perforation in close pitch. Grills are both powder coated and speaker foam installed.

DECORATIVE PERFORATIONS & FALSE CEILING METAL TILES.

Our decorative perforated sheets are of the highest quality and strength. As per our customers' request we do custom design in SS, MS, Aluminum, and Brass.

Being one of the top manufacturers of High-Quality T Grid system GI Metal Ceiling Tiles, our products are both Top-Notch in quality and a perfect fit on standard sizes. Our Metal Ceiling Tiles can be manufactured in GI, MS and SS purely on our customer requirements.
