*Fragrant rice
Long-grain-rice*

Jasmine rice is a light, floral aroma and a slightly sweet flavor. It is typically used in stir-fries, rice dishes, and desserts.

1 - Jasmine White Rice

2 - >> Jasmine rice still flexible when cooled.

>> Jasmine rice is serving in the white plate.

To the untrained eye, there might not be a huge noticeable difference between the Jasmine and the Basmati rice.

- **IR504 Long Grain White Rice**

It is suitable for consumers *who prefer dry rice*.

Rice has an average length with ivory white opaque in color, slightly broken rice. IR504 rice is **dry in texture** but sweet and spongy when cooked slightly broken rice.

- **OM5451 Long Grain White Rice**

Rice is **elastic and soft in texture**, slightly aromatic when cooked, not hard even when cooled down.
