ZAR Entertainment is a company engaged in K-POP album production, drama OSTs, movie OSTs, and K-POP Academy education business. With top-notch music producers, composers, and trainers, the company has established strategic partnerships. It not only nurtures actors, singers, and models in various fields but also strives to achieve the best artist debut in K-POP through collaborations with existing stars and productions.

ZAR China expanded into China in 2015 and established a local subsidiary. Alongside the five major broadcasting stations in China—Beijing, Honan Province, Jilin Province, Sichuan Province, and Gilin Province—ZAR China has been creating various Chinese broadcasting content, including movies, dramas, auditions, and entertainment programs.

Furthermore, through collaborative partnerships with 24 local universities in China, ZAR China regularly conducts auditions for singing, dancing, and acting, striving to discover outstanding talent and make the best efforts in talent recruitment.

## Gas & Oil

Vision Group has an efficient and expedited approach to the import of various resources (such as gas, oil, rare earth elements, gold, etc.) through its human networks in different countries worldwide. Recognizing that resources are the most crucial aspect in the 21st century and the upcoming 22nd century, the company strives to become the best partner in inter-country resource diplomacy, aiming for win-win situations. It is committed to exerting continuous efforts to achieve mutually beneficial partnerships in the field of resource acquisition.

Solar Modules & Inverters

Vision Group has been leading the solar energy business in the Eastern European region by securing contracts for the export of approximately 1 trillion won worth of solar modules, inverters, and supporting structures to Bulgaria over a period of five years. The company is also preparing for solar energy projects in Western European countries such as Hungary and Poland. With its commitment to quality and world-class technological expertise, Vision Group strives to become a pioneering company in the solar energy industry, leading projects in more countries in the future.
