**SUS304 water
treatment
machinery**

MAIN ACCESSORY

Water filter cartridge

Filter material

RO membrane

Pressure tank

UV light

Pretreatment tanks

Filter bottles

Pressure pump

Membrane shell

Valve head

HOT SALE

LEVAO-CRO1

LEVAO--250LPH-1

LEVAO--250LPH

LEVAO--500LPH-1

CASE SHOW

Some installation cases

1T/H Double-stage RO equipment

2T/H Double-stage RO equipment

10T/H Single stage RO equipment

3T/H Double-stage RO equipment

5T/H Double-stage RO equipment (high configuration)

5T/H Single stage RO equipment

6T/H Double-stage RO equipment (high configuration)

15T/H Double-stage RO equipment

8T/H RO unit

Some installation cases

Guangzhou Development Zone Middle School Water Purification Project

Yunnan Airport Large Water Purification Project

Frequency conversion constant voltage system in a community in Dongguan

Dongguan Xiancaoyuan RO reverse osmosis equipment

Hospital 0.25T ozone pure water equipment

Huizhou Electronics Factory Pure Water Equipment

Technology company ultrapure water equipment

Beijing Jingdiao Branch Reverse Osmosis + EDI

Experimental school drinking water pure water equipment

Why Choose Us?

Innovative technology

Technological innovation mainly includes material innovation, product innovation and process innovation. Increasing the use, perfecting the function, improving the quality and guaranteeing the use.

Customized services

Provide professional solutions according to your use of scenarios and water quality for you to tailor-make the most suitable purification system, customisation of the LOGO better to show your brand.

Quality assurance

Designed and manufactured in accordance with the strictest international standards

After-sale services

Response customer feedback quickly. Fastest speed to solve the problem, To provide remote technical support.

Technology, Innovation, Cooperation and Win-Win
