Website: <http://www.4maticvalves.com>

### YEAR OF ESTABLISHMENT

Incorporated as STPL in 2005.  
Commenced independent operations in 2009

### TOTAL AREA OF WORKS

Factory : Approx. 10000 sq. ft.  
Office : Approx. 1800 sq. ft.

### REGISTRATION NUMBER

Excise Registration No. : AAJCS5466LEM002  
IEC No. : 0813026741  
PAN No. : AAJCS5466L  
GST/VAT/TIN NO : 24071502206  
CST No. : 24571502206  
BANK AD CODE : 01800405700009

### OUR BANKERS

KOTAK MAHINDRA BANK LTD.  
Current A/c Number : 2711383991

**4Matic** is valve manufacturer and exporter with over 30 years of combined experience in the Industrial Valves and Valve Automation Industry globally. We manufacture quality valves for a wide spectrum of users in the Process & Chemical, Refineries & Petrochemicals, Fertilizers, Drugs & Pharmaceuticals, Thermal Power Stations, Nuclear & Atomic Power Stations, Textiles, Dyes & Intermediates, Paints & varnishes, Sugar Breweries & Distilleries, Soaps & Detergents, Steel Plants, Food & Oil Industry, Solvent Extraction Plants, Sewage, Effluent & Water Treatment, Cooling Water, Ship Yards and Marine Management, Water Works, Pulp & Paper, LPG Bottling Plants, Onshore & Offshore platforms, Slurry & Ash handling.

**4Matic** was incorporated in the year 2005. The vision of the company was to design and manufacture industrial valves that would perform exceptionally well in the demanding process applications of the future. Utilizing the latest in engineering techniques, materials, machining process, finite analysis, and testing procedures we produced a valve that outperformed the competition and were sustainable for automation requirements. We then spent a few years refining the manufacturing process, placing valves in various test applications to verify and confirm our success in the initial design. Building from the success of our range of resilient seated valves led to the introduction of our range of PTFE seated butterfly valves, also with a size range of 1" to 24". Our butterfly valves quickly gained a reputation of a valve product that solved problems. 4Matic then designed the metal seated butterfly valve for high temperature applications. The year of 2009 was another year of expansion with the addition of a full and complete line of pneumatic and electric automation products. 4Matic also offer a range of butterfly valves for the commercial HVAC market. The process was started to design a high performance butterfly valves and triple offset butterfly valves for critical applications in the Oil and Gas industry.

**4Matic's** core business is butterfly valves and automation, but with additional customer demands for products, this therefore led to the introduction of a full range of process ball valves, gate valves, globe valves, check valves, and knife gate valves.

**4Matic's** growth came from the hard work and dedication of our employees working to produce the best valve and automation packages available today. This hard work gained us our customer's faith, that at 4Matic they will receive a valve / automation product that is thoroughly made, fully tested, and will perform as expected. Our goal at 4Matic is not just getting the order, but rather getting a satisfied customer.

## Vision

To be a manufacturer and supplier of choice across the industrial valve and valve automation industry by providing sound and sustainable solutions.

## Values

### **Accountability**

We hold ourselves accountable to our customers, stakeholders, partners, and employees by honouring our commitments, providing results, and striving for the highest quality.

### **Integrity**

Integrity guides our conduct. We must conduct our business fairly, with honesty and transparency.

### **Innovation**

We must continuously strive to improve our products and services with a view to lead the market place through value creation.

### **Respect for humanity**

We must respect everyone, from customers and clients to fellow employees and partners with whom we interact and strive to create positive difference.

### **Teamwork**

We must work cohesively with our colleagues across the group and with our customers and partners around the world, building strong relationships based on tolerance, understanding and mutual cooperation.

## Focus On Quality

We continuously strive for quality in all the products that we offer. We have not only looked into adopting prescribed standardization methodologies but have also set up an internal Research and Development team to consistently enhance and improve the quality of our product offering.

### Why we feel it is important to invest in such initiatives and how we and our partners will benefit from it in the long run...

- Strong evidence of our commitment to quality
- Clear indication of our capabilities
- Assurance of consistency in quality of products & services with timely delivery
- Being internationally recognized, our products have gained world-wide acceptance
- Motivates our employees and ensures their involvement in improvement initiatives
- Provides a stepping stone to TQM.

# 4Matic ISO 9001 : 2015

#### ISO 9001: 2015 in accordance with DQS Inc. procedure

- ISO 9001:2015 specifies requirements for a quality management system where an organization needs to demonstrate its ability to consistently provide product that meets customer and applicable statutory and regulatory requirements
- We ensure that all our processes are regularly audited and thereby compliant to the ISO guidelines.

- CE Marking on a product is a manufacturer's declaration that the product complies with the essential requirements of the relevant European health, safety and environmental protection legislation, in practice by many of the so-called Product Directives.

- CE Marking on a product indicates to governmental officials that the product may be legally placed on the market in their country and ensures free movement of the product within the EFTA & European Union (EU) single market (total 28 countries)

**API CERTIFICATE**

**ISO CERTIFICATE**

**CE CERTIFICATE**

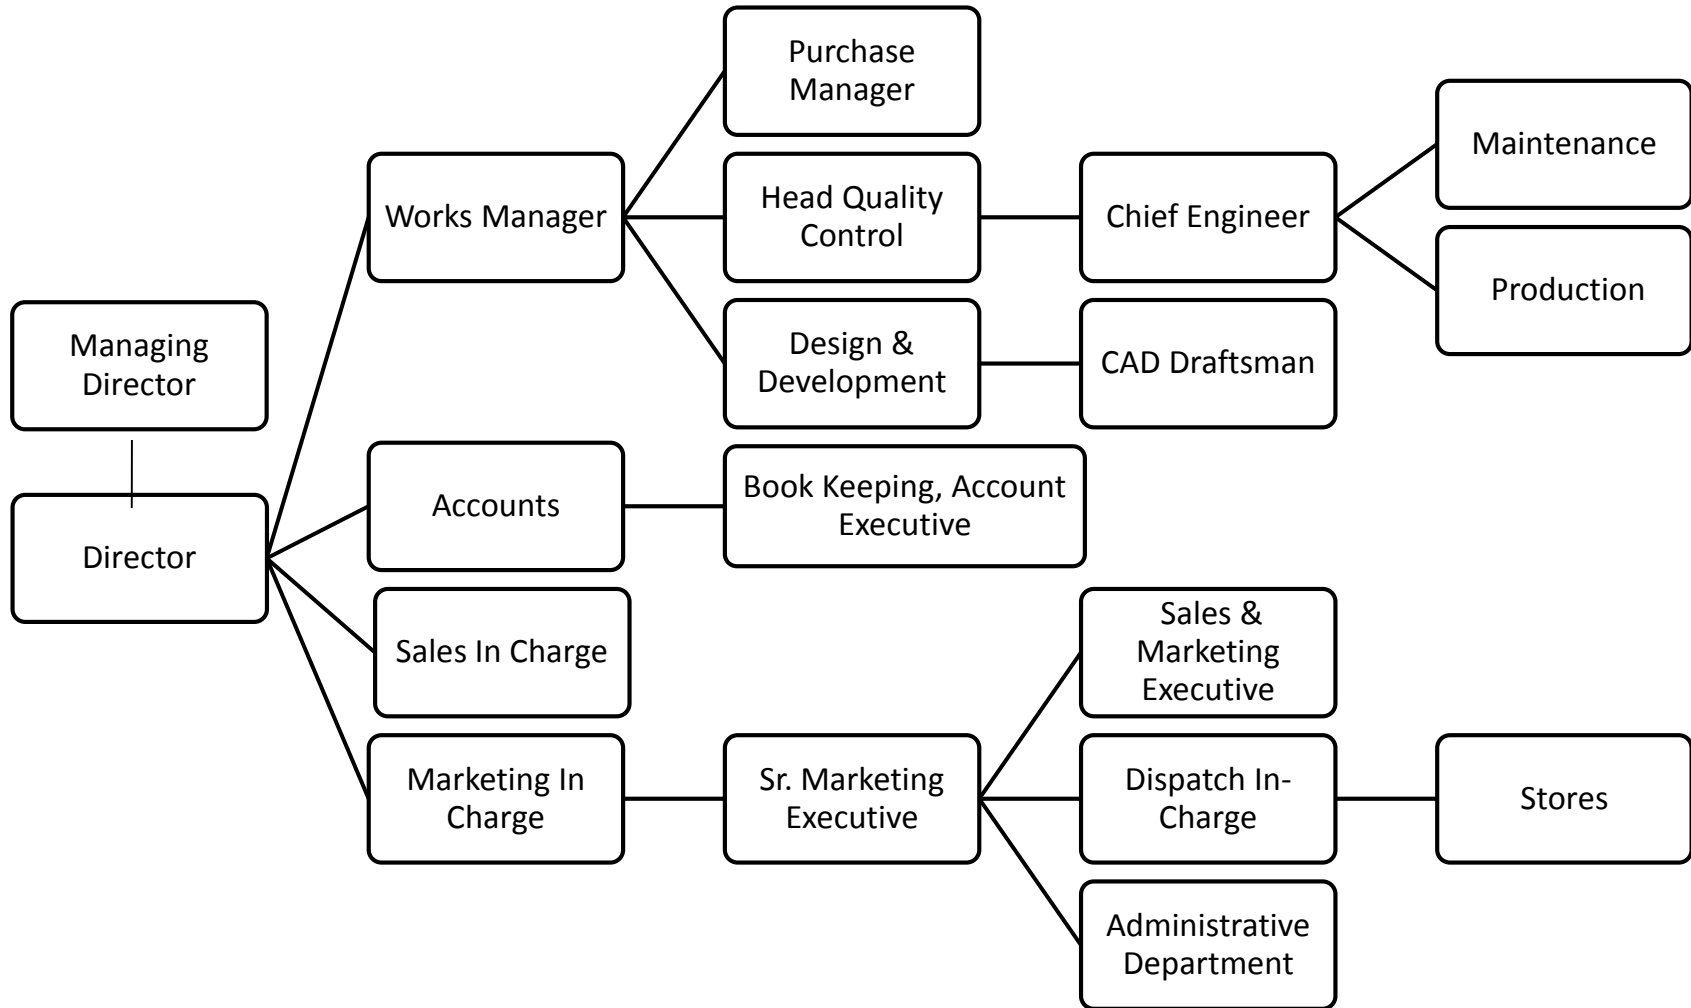

**DESIGN PATENT**

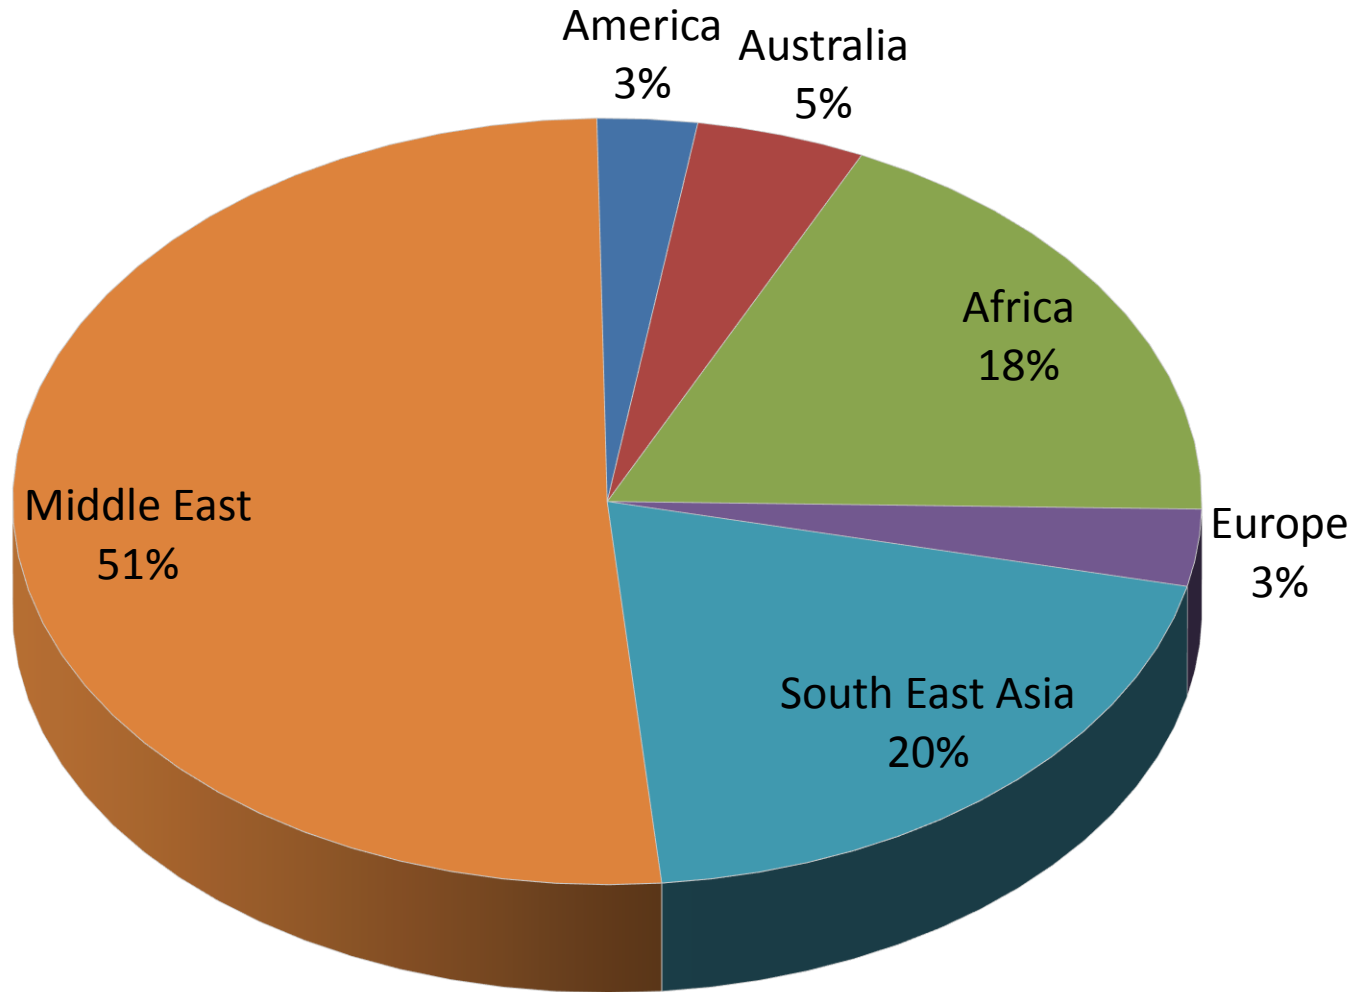

**AWWA CERTIFICATE**
