

TAC工业百洁布研磨产品

7447 Series

Product Description	Product Color (TAC LOGO Color)	Equivalent Grit	Applications
7447-B	TAC	#320	Knowing as the "Utility Item" or "Starting Point" of the industrial non-woven family and can be applied to all metalworking, woodworking and MRO areas. Designed with strengthened hardness to provide more aggressive cut and efficiency
			The preferred material for strong cutting force flying wheel/rolling brush wheels. Suitable for metal, woodworking, and daily maintenance.
7447-F	TAC		Universal product, with good adhesion, suitable for various irregular workpiece processing applications.
			The Finishing Flap Brush/rolling brush wheel made of this material has good adhesion and more uniform lines. Common for metal, woodworking, and daily maintenance.
7447 Finishing Flap Brush			Stainless steel/aluminum alloy and other metal surfaces, as well as electroplated parts, can be brushed/polished/deburred, and can also be used for deburring after woodworking/sanding
Product Form	Popular Size		Packing
Jumbo	0.95m*120.0m		1RI/Pack
Sheet(7447C)	152mm*228mm		60Sht/Case
Sheet	120mm*196mm 146mm*220mm 125mm*200mm(5"*8") 149mm*230mm(6"*9")		150Sht/Case
Finishing Flap Brush	150mm*25mm*18mm		80Pcs/Case
	150mm*50mm*18		40Pcs/Case
	200mm*25mm*18mm		80Pcs/Case
	200mm*50mm*18mm		40Pcs/Case
	250mm*25mm*25mm(32mm)		40Pcs/Case
	250mm*50mm*25mm(32mm)		20Pcs/Case
	300mm*25mm*25mm(32mm)		40Pcs/Case
	300mm*50mm*25mm(32mm)		20Pcs/Case

TAC工业百洁布研磨产品

8698 Series

Product Description	Product Color (TAC LOGO Color)	Equivalent Grit	Applications
#180	TAC	#180	Suitable for rough decorative line pattern processing; Also suitable for applications such as cleaning, polishing, rust removal, and deburring
8698-B	TAC	#180-#240	Unique rigid product design, sharper cutting and higher efficiency. Suitable for metal surface cleaning, wire drawing, polishing, deburring and other applications
			Unique rigid product design, sharper cutting and higher efficiency. Suitable for metal surface cleaning, wire drawing, polishing, deburring and other applications
8698-M	TAC		Good adhesion, suitable for irregular workpiece surface processing operations. Suitable for metal surface cleaning, wire drawing, polishing, deburring and other applications
			The preferred material for Scotch Brite Finishing Flap Brush. Suitable for metal surface cleaning, wire drawing, polishing, and deburring, with better adhesion.
8688	TAC		Good adhesion, suitable for various irregular workpiece surfaces, with better water grinding effect. Suitable for metal surface cleaning, wire drawing, polishing, deburring and other applications
8688-G	TAC		Suitable for making sandcloth sink polishing wire drawing wheels. Suitable for metal surface cleaning, wire drawing, polishing, and deburring.
8698Finishing Flap Brush			Drawing/polishing/deburring of stainless steel/aluminum alloy and other metal surfaces and electroplated parts

Product Form	Popular Size		Packing
Jumbo	1.0m*80.0m		1RI/Pack
Slitted Roll	7cm*5.7m		14RI/Pack
	10cm*5.7m		10RI/Pack
Sheet(#180)	150mm*196mm/2		50Sht/Case
Sheet	120mm*196mm	146mm*220mm	100Sht/Case
	125mm*200mm(5"*8")	149mm*230mm(6"*9")	
Finishing Flap Brush	150mm*25mm*18mm		80Pcs/Case
	150mm*50mm*18mm		40Pcs/Case
	200mm*25mm*18mm		80Pcs/Case
	200mm*50mm*18mm		40Pcs /Case
	250mm*25mm*25mm(32mm)		40Pcs/Case
	250mm*50mm*25mm(32mm)		20Pcs /Case
	300mm*25mm*25mm(32mm)		40Pcs/Case
	300mm*50mm*25mm(32mm)		20Pcs/Case

Industrial Non-woven Abrasive

TAC工业百洁布研磨产品

变形绒系列 Multi-Flex Series

Product Description	Product Color (TACLOGO Color)	Equivalent Grit	Applications
#320	TAC	#320	Upgraded version for woodworking applications, longer life, higher efficiency Effective deburring / defuzzing and paint surface conditioning.
7521	TAC		Keeping both high flexibility and cutting capability as features and benefits, Assured performance for deburring / defuzzing on carved wood pieces and preparing / scuffing the painting surface. Good replacement for steel wool as well.
7531	TAC		Designed with strengthened hardness to provide more aggressive cut and higher efficiency when applied on to flat /even wood pieces.
#400	TAC	#400	Generating finer finish on wood surface. Effective deburring / defuzzing and paint surface conditioning
Product Form	Popular Size		Packing
Jumbo	100mm*203mm *60Sht/RI		4RI/Case
Sheet	100mm*203mm		60Sht/Csae

Industrial Non-woven Abrasive

TAC工业百洁布研磨产品

3C电子市场系列
Electronic Market Series

Product Description	Product Color	Equivalent Grit	Applications
SFN-F		#600	Applied in both metalworking and 3C electronic segments. Frequently been converted into "Hook and Loop" disc/sheet with loop layer laminated, also been used for making brush/wheel for fine surface polishing and conditioning
7448D		#1000-1200	Applied in both metalworking and 3C electronic segments. Frequently been converted into "Hook and Loop" disc/sheet with loop layer laminated, also been used for making brush/wheel for fine surface polishing and conditioning
3250		#600	Unique design for machining operations on flat surface. First choice for "Hook and Loop" Disc/Sheet with increased product life
3290		#1200	Unique design for machining operations on flat surface. First choice for "Hook and Loop" Disc/Sheet with increased product life
3390-1		#1500	Applied in both metalworking and 3C electronic segments. Frequently been converted into "Hook and Loop" disc/sheet with loop layer laminated, also been used for making brush/wheel for fine surface polishing and conditioning
Product Form	Popular Size		Packing
Jumbo	0.95m*120.0m		1 Rl/Pack
