# Our Vision

To establish I.T.O Trading Company as the best-in-class, regionally-located chemical company.

# Our Mission

- To diversify the Company's product and service offering to meet regional and international market demands.
- To create a working environment which provides job satisfaction, the possibility of professional growth and ensures we have maximum employee engagement.
- Continuously seek international brand recognition for our products.
- To seek out strategic business/technical partnerships that will assist in accessing as many key markets as possible.

We believe the cornerstone of our success has been our relationship with our clients. In fact, maintaining and further-developing customer relationships is a core mission of ours, and is why we focus our effort on providing a superior experience to them. Through service excellence, we can continue not only to satisfy our existing customers, but to win new ones, building our reputation by providing products that consistently perform to a level that exceeds our customers' expectations. And they do, which is why we can unconditionally guarantee our products, and confidently pit our expertise against anyone in this industry.
