Dongguan Feito Industrial Technology Co., Ltd.

东莞市菲拓工业技术有限公司
Dongguan Feito Industrial Technology Co., Ltd.

地址: 广东省东莞市寮步镇石大路寮步段141号

Add: No. 141, Liaobu Section, Shida Road, Liaobu Town, Dongguan, Guangdong

东莞市菲拓工业技术有限公司

Dongguan Feito Industrial Technology Co., Ltd.

金属加工制造商，经营各种五金产品的研发、加工和销售。

Metal processing manufacturer, engaged in the development, processing and sales of various hardware products

东莞菲拓工业技术有限公司，成立于2010年（东莞菲拓五金），以五金产品加工为主的制造和销售为一体的加工型企业。产品广泛应用于网络通信、光伏电力、医疗器械、汽车工业、工程机械、精密设备等各个领域。公司通过引进高技术人才和先进的精密加工设备，极大地稳定和提高了产品质量。公司以“技术创新、精密产品”为生产导向，以“优质服务、合作共赢”为经营宗旨，为客户提供优质产品和整体解决方案！

Dongguan Feito Industrial Technology Co., Ltd., established in 2010 (Dongguan Feito Hardware), is a processing enterprise integrating manufacturing and sales of hardware products. Products are widely used in various fields such as network communications, photovoltaic power, medical equipment, automotive industry, engineering machinery, and precision equipment. The company has greatly stabilized and improved product quality by introducing high-tech talents and advanced precision processing equipment. The company takes "technological innovation, precision products" as its production orientation and "quality service, cooperation and win-win" as its business tenet to provide customers with quality products and overall solutions!

得益于我们的优势: 专业 / 技术 / 品质

我们具备一支经验丰富的团队，关键技术人员和生产管理人员在同行业内有10年以上工作经验，具有精益求精的工作品质和职业素养。

- 专业：专注于我们精通和熟悉的产品，在金属加工领域做到最好。
- 技术：五金加工10年经验积叠，丰富技术经验的工程师，承接过华为和国内大型企业产品加工，能够实现金属加工中大部份加工工艺。
- 品质：公司通过ISO9001：2015质量体系认证，拥有完整的品质管控流程和多名品质专员，出货不良率可控制在0.5%以内，努力减少客户对品质的困扰。

Benefit from our advantages: Professional / Technology / Quality

We have an experienced team, key technical personnel and production management personnel with more than 10 years of work experience in the industry, with excellence in work quality and professionalism .

- Professional: Focus on the products we are proficient and familiar with, and do our best in the field of metal processing.
- Technology: Engineers with 10 years of experience in hardware processing and rich technical experience have undertaken the processing of Huawei and domestic large-scale enterprises, and can realize most of the processing techniques in metal processing.
- Quality: Company has passed ISO9001: 2015 quality system certification, has a complete quality control process and multiple quality specialists, and the defective rate of shipments can be controlled within 0.5%, striving to reduce customers' quality problems.

Benefit from our advantages: Service / Price / Integrity

Aiming at the requirements of customers, we operate with integrity, provide good service, cheap prices and high-quality products.

- Service: Provide customers with one-to-one counterpart service, professional questions and professional answers, quotations are answered within 24 hours, packaging and transportation services are provided according to customer requirements, generally delivery within 2 weeks, and delivery is guaranteed as promised. It can also provide customers with relevant technical support and consultation.
- Price: Price is directly proportional to quality! Under the premise of ensuring quality, we achieve the best price; we recommend that customers provide product usage requirements, and we will match you with the lowest cost processing method!
- Integrity: Only by operating with integrity can we do better, and the things we promise will be realized!

得益于我们的优势: 服务 / 价格 / 诚信

以客户的要求为目标，诚信经营，提供良好的服务、便宜的价格和优质的产品。

- 服务：为客户提供一对一的对口服务，专业问题专业人员解答，报价在24小时内回复，按客户要求提供包装和运输服务，一般交付在2周以内，保证按承诺交期完成交货，还可以为客户提供相关技术支持和咨询。
- 价格：价格与质量成正比！我们在保证质量的前提下，做到价格最优；建议客户提供产品使用要求，我们为客户匹配成本最低的加工方式！
- 诚信：诚信经营才能越做越好，我们承诺的事情一定会实现！

PACKAGE AND SHIPPING

EMS®

FedEx®
Express

TNT

XPL

ups

DHL

Can provide various sizes and packing according to specific requirements
 Packing material: PP bag, copy paper, carton, wooden box, pallets
 Meet export requirement
 According to customer's required

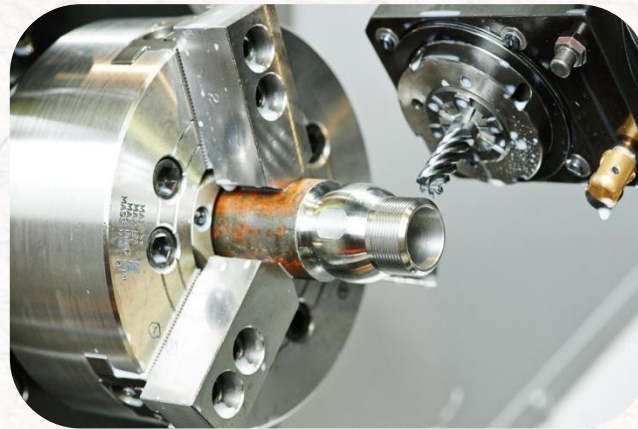

Sheet metal products
钣金产品

Welding products
焊接产品

Surface treatment
表面处理

Precision machining
CNC产品

我们的加工能力/ 加工范围:

我们在金属加工领域拥有非常完整的生产线和供应链，能够提供配套完整的产品加工服务。

- 钣金产品：涉及的加工工艺有 平板切割、管材切割、弯曲、冲压、压铆、攻牙、.....
- CNC产品：涉及的加工工艺有 铣削、车削、钻孔、螺纹、研磨、雕刻、.....
- 焊接产品：涉及的加工工艺有 氩弧焊、二氧化碳保护焊、电焊、电阻焊、种焊、等离子气焊；
- 表面处理：涉及的加工工艺有 喷粉、喷漆、电镀、氧化、喷砂、钝化、抛光、电泳、磷化、拉丝、丝印.....

Our processing capacity / processing range:

We have a very complete production line and supply chain in the field of metal processing, and can provide complete product processing services.

- Sheet metal products: processing involved flat cutting, pipe cutting, bending, stamping, riveting, tapping,...
- CNC products: processing techniques involved are milling, turning, drilling, threading, grinding, engraving,...
- Welding products: processing techniques involved are argon arc welding, carbon dioxide shielded welding, electric welding, resistance welding, seed welding, plasma gas welding;
- Surface treatment: processing techniques involved are powder spraying, painting, electroplating, oxidation, sandblasting, passivation, polishing, electrophoresis, phosphating, wire drawing, silk screen...

Equipment And Workshop / 设备和车间

CNC punching / 数控冲压

Laser cutting / 激光切割

Touch welding / 电阻焊

Bending / 折弯

Stamping / 冲压

Pressure riveting / 压铆

Equipment And Workshop / 设备和车间

CNC milling / 数控铣削

Machine processing / 机加工

Powder coating / 喷涂

CNC turned / 数控车削

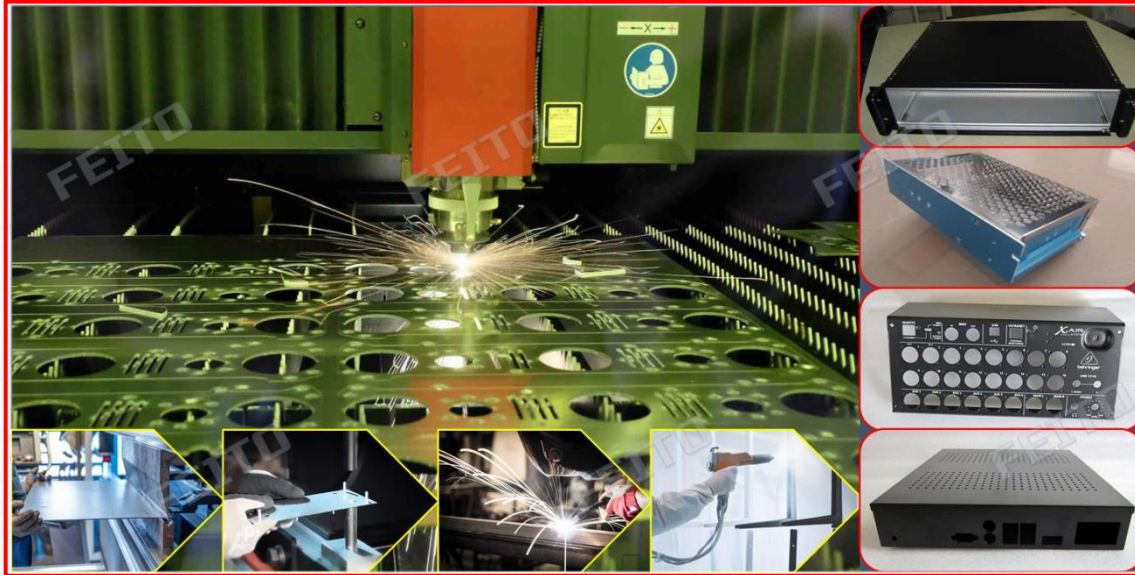

Tapping / 攻丝

Welding / 焊接

Products and Processing

设备名称：激光切割机

功能：能够将金属板材切割成任一形状

加工范围：

- 切割平板、管材和型钢
- 能够加工均匀厚度的所有金属材料，以及其它材料
- 材料厚度范围0.2~20mm

优点：加工能力强，生产效率高，切割质量好

Equipment Name: Laser Cutting Machine

Function: able to cut sheet metal into any shape

Processing range:

- Cutting flat plates, pipes and sections
- Able to process all metal materials of uniform thickness, and other materials
- Material thickness range 0.2~20mm

Advantages: strong processing capacity, high production efficiency, good cutting quality

设备名称：冲压机

功能：能够一次性将金属板材冲制成模具（产品）的形状

加工范围：

- 符合模具冲制加工的产品形状，材料类型不限
- 能够通过冷轧成型材料，厚度均匀
- 材料厚度范围0.02~10mm

优点：适合生产小零件、大批量产品，效率高，质量稳定

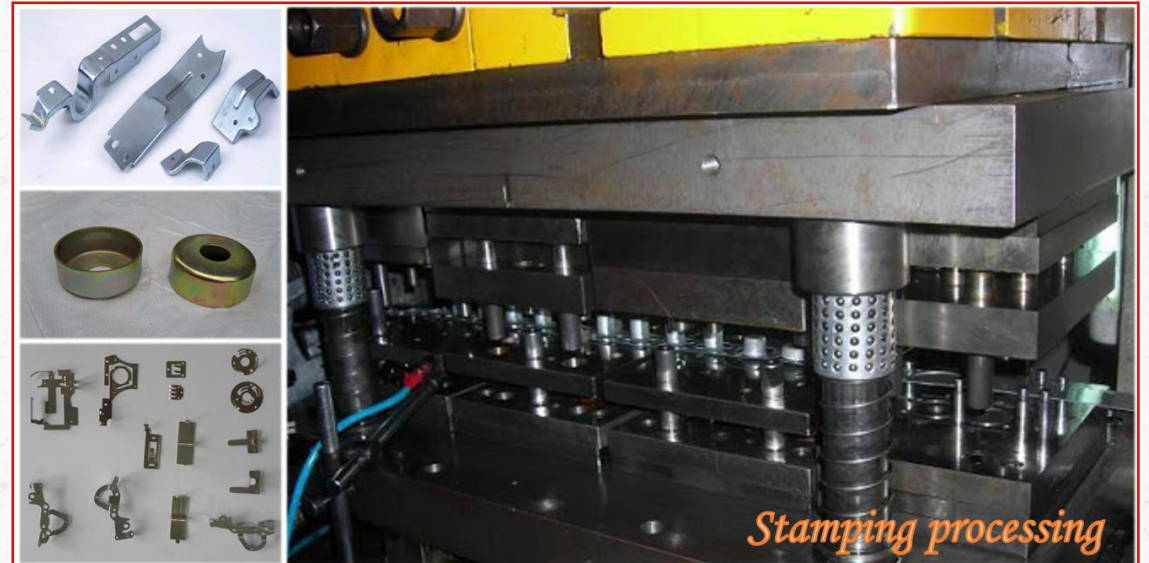

Equipment Name: Punch

Function: Be able to punch sheet metal into mold (product) shape at one time

Processing range:

- In line with the mold stamping processing product shape, material type is not limited
- Material that can be formed by cold rolling of uniform thickness
- The material thickness ranges from 0.02 to 10mm

Advantages: Suitable for the production of small parts, large quantities of products, high efficiency, stable quality

Stamping processing

Products and Processing

设备名称：焊接机

功能：能够将两个以上的金属产品焊接在一起

加工范围：

- 只能焊接金属材料，并且相互焊接的材质相同
- 常用焊接材质有：铁、铝、不锈钢
- 材料形状不限，材料厚度根据产品和使用要求确定

优点：连接强度高，性能好

Equipment Name: Welding machine

Function: Capable of welding two or more metal products together

Processing range:

- Only metal materials can be welded, and the materials of mutual welding are the same
- Commonly used welding materials are: iron, aluminum, stainless steel
- The shape of the material is not limited, and the thickness of the material is determined according to the product and use requirements

Advantages: High connection strength and good performance

设备名称：喷涂设备（和其它表处设备）

功能：覆盖产品表面缺陷，使产品更加美观

加工范围：

- 零件材质和形状不限
- 可以满足客户和产品的不同颜色要求
- 根据产品表面纹路和表面效果的要求，可以调整表面处理方式

优点：使产品更加美观

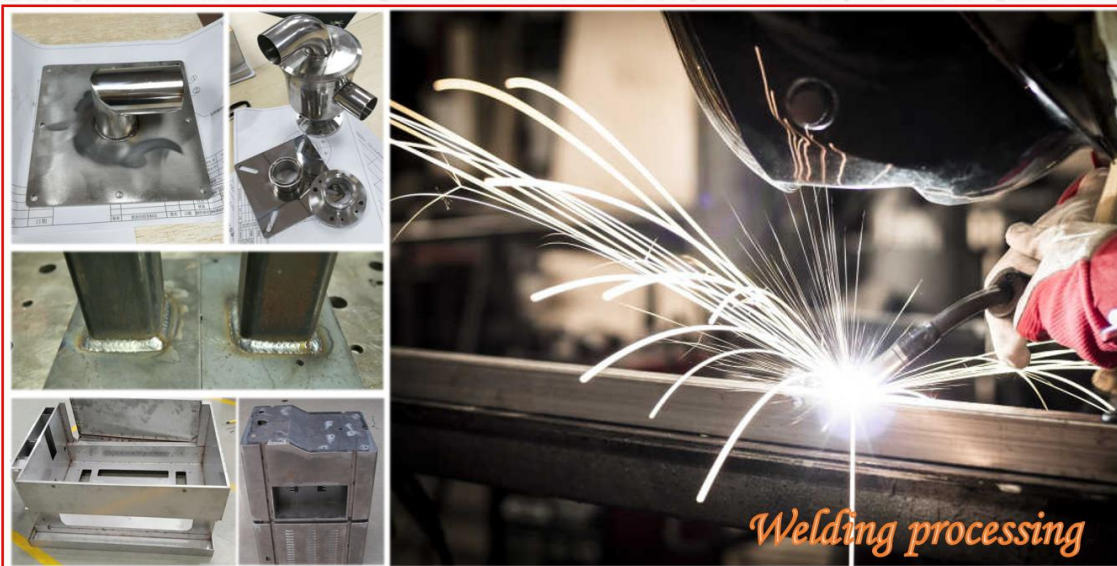

Equipment Name: Spraying equipment (and other surface equipment)

Function: Cover product surface defects to make the product more beautiful

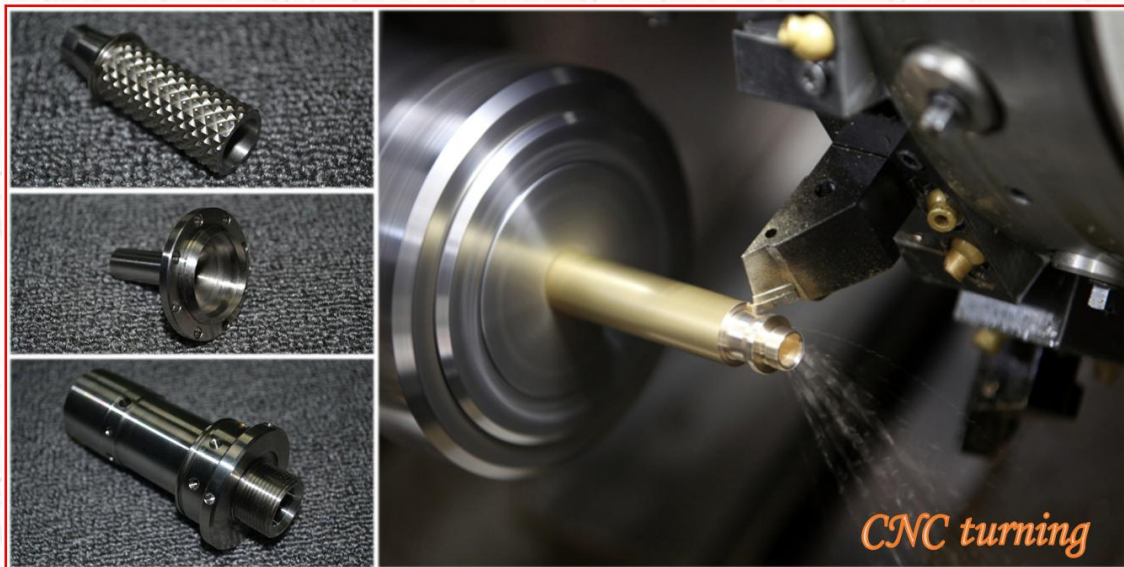

Processing range:

- Part material and shape are not limited
- Able to meet the different color requirements of customers and products
- According to the requirements of product surface texture and surface effect, the surface treatment method can be adjusted

Advantages: Make the product more beautiful

Products and Processing

设备名称：数控车床（加工中心）
功能：能够加工切削所有规则的圆或圆柱形产品
加工范围：

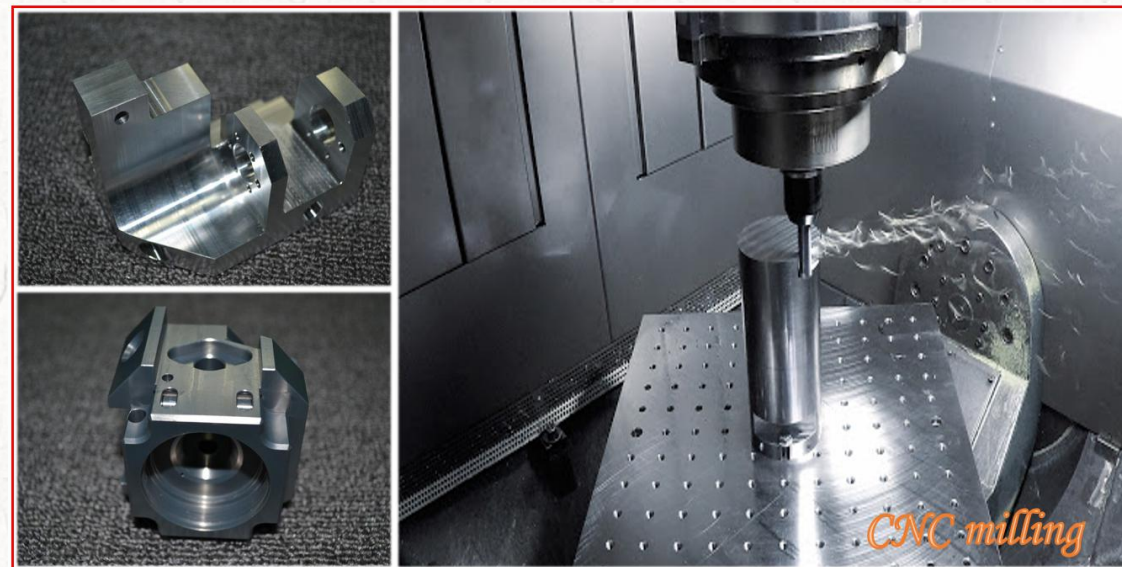

- 所有金属材料，和其它可切削的硬质材料
- 产品形状为圆形或圆柱形

优点：加工精度高，加工产品表面光洁美观

Equipment Name: CNC lathe (Processing Center)
Function: Able to machine and cut all regular round or cylindrical products
Processing range:

- All metal materials, and other hard materials that can be cut
- The product shape is round or cylindrical

Advantages: High processing precision, smooth and beautiful surface of processed products

设备名称：数控铣床（加工中心）
功能：能够加工各种不同形状的产品
加工范围：

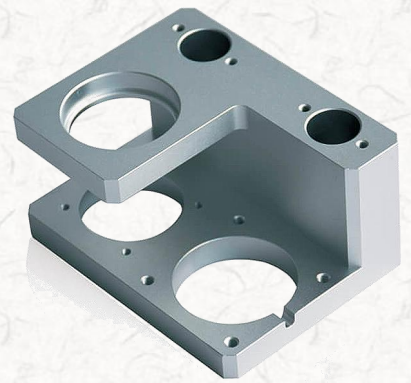

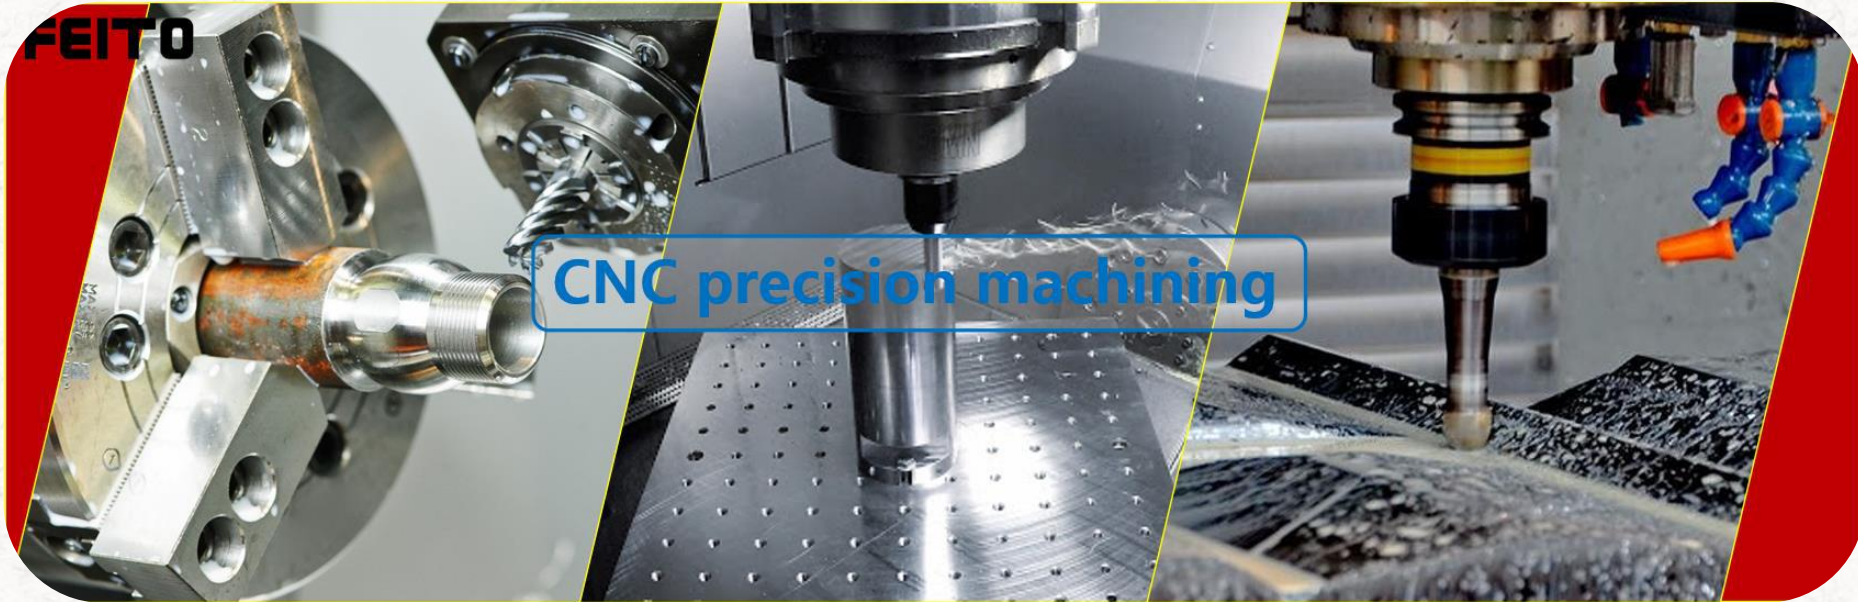

- 所有金属材料，和其它可切削的硬质材料
- 能够加工各种形状的产品

优点：加工精度高，加工产品表面光洁美观

Equipment Name: CNC milling machine (Processing Center)
Function: Able to process products of various shapes
Processing range:

- All metal materials, and other hard materials that can be cut
- Able to process products of various shapes

Advantages: High processing precision, smooth and beautiful surface of processed products

产品与服务：提供优质金属产品及价格咨询服务！

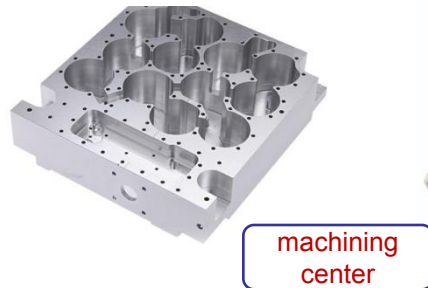

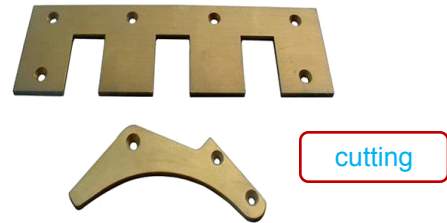

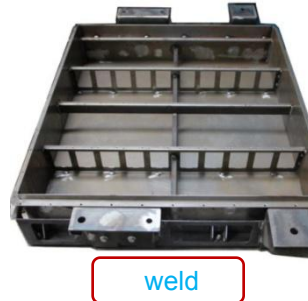

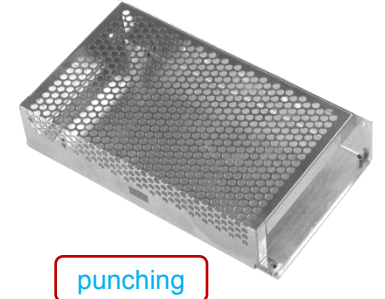

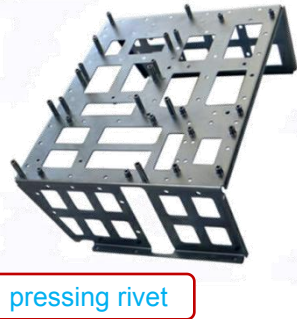

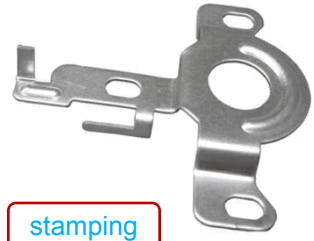

- 菲拓(中国)——我公司拥有10年五金加工经验，产品种类覆盖很多行业，在金属加工领域我们是领先者!我们从2018年开始面向国际客户，在现有客户群体中有着良好的口碑。
- 我们的产品，大部份是非标定制和来图加工，我们还可以根据客户的要求提供产品设计服务。
- 我们的业务团队也是非常专业的，可以为客户提供及时的价格估算，或准确的报价，以及解答各种技术和贸易问题。
- 我们可以无条件提供我们的产品清单和产品报价服务。

Products and Services: Provide high-quality metal products and price consulting services!

- Feito(China)-Our company has 10 years of experience in hardware processing, and its product categories cover many industries. We are a leader in the field of metal processing! We have been facing international customers since 2018 and have a good reputation among existing customer groups. Word of mouth.
- Most of our products are non-standard customized and processed with drawings. We can also provide product design services according to customer requirements.
- Our business team is also very professional and can provide customers with timely price estimates or accurate quotations, as well as answer various technical and trade issues.
- We can provide our product list and product quotation service unconditionally.
