

COMPANY PROFILE

- **PLASTICS PLASTS S.R.I** is active and most reliable company for over 15years, in the recycling/trading/processing of, plastics, metal and rubber scrap such as Abs scrap, Idpe film scrap, pet bottle scrap, hdpe regrinding scrap, Electric motor scrap Transformer scrap, Compressor scrap Meter scrap Shredded motor scrap Alucobond scrap Electronic/telecom scrap Cables scrap, Automobile parts scrap / starter/alternator/ac compressor, pp ,ldpe hdpe granules Etc... We are always searching for reliable business partners active in the recycling of above grades to start business collaboration. We supply in over 70 countries worldwide..

Who We Are

We are a global import & export company located in Cavolto Como, Italy. We buy and sell all types of plastic recycling materials mainly from the production industry and recycling companies.

What We Do

Recycled plastic is a valuable commodity; however, its nontransparent reintegration into our supply chain is the problem. The lack of a formalized and dependable supply chain makes it difficult, costly and time-consuming for manufacturers to rely on a steady supply of ethically sourced recycled plastic needed to reach their plastic neutrality goals.

Plastics plasts has established links in a wide range with Buyers & Sellers, Domestically and internationally, enjoying a reputation for its "Quality of the product and service at competitive price"

- **Management**

Plastics plasts are being managed efficiently by a team of well experienced and professionally qualified personnel in their respective fields of activity. The company's Management comprises of Partners and Managers who are having vast experience in shipping and allied activities, Cargo operations and general business Management.
