Company Overview

Company Name: Tai Sheng Cheng Enterprise Ltd.
Established Year: 1990
Founder: Chang Jieh, Li
Capabilities: Progressive stamping die design & manufacture
Plastic injection mold design & manufacture
Mechanical parts assembly services
Secondary Processing
Semi-products Finishing
Certificates: ISO9001:2016
IATF16949:2016

Tai Sheng Cheng Enterprise Ltd.

Tai Sheng Cheng Enterprise Ltd. (TSC Enterprise), is a company emphasized on plastic mold, stamping tooling and the related development and manufacturing of them. We provide an all in one services which contains OEM solutions including plastic, metal parts development, spraying, laser engraving, screen-printing, and parts assembly.

Why Choose TSC?

30+ years of experience

50+ companies has been cooperated with

5000+ projects delevoped

The TSC Vision

Innovated Ideas
Proactive Attitude
Honest Principle

The TSC Prospect

Industry 4.0 Smart Factory
Green Production

Our Capabilities

TSC provides clients with professional plastic injection molding services in the field of precision plastic mold designing and manufacturing. It can provide clients with **turnkey service** including design, mold developing, coating, painting and assembly which can ensure complete products quality and at the same time save time and cost for clients.

TSC has more than 30 years of experience in stamping dies development and mass production, providing clients with **flat stamping, bending stamping, stretching stamping** and other processes, as well as surface treatment after completion. TSC provides clients a whole process plan according to tooling pre-development and manufacturing feasibility evaluation.

TSC not only focuses on the metal and plastic OEM production but also specializes in **mechanical parts assembly**. It can provide clients with standardized finished product assembly and semi-finished product assembly services, and establishes a standard operating procedures of assembly and packaging.

OEM Solutions

Markets Served

TSC's OEM projects have been applied into various markets, such as automotive industry, bicycle industry, electronic industry and medical industry. Find a better solutions for your projects? Contact TSC Enterprise right away!
