About Company

We provide a variety of benefits, a nurturing work atmosphere, and numerous opportunities

Mr. Zaryab Ghulam has played a pivotal role in launching numerous prosperous projects, gaining invaluable industry knowledge throughout the years. In 2019, he embarked on his own entrepreneurial journey and established Buraq Engineering. With an unwavering dedication to exceptional customer service, Buraq Engineering consistently surpasses client expectations by going the extra mile.

Buraq Engineering fosters an entrepreneurial spirit, encourages innovation, and thrives through collective collaboration. We deeply value our employees as their success directly contributes to our own. Despite our growth to employ over a hundred individuals, we remain firmly rooted in our family-oriented culture that served as the foundation of our establishment.

CHEVRON CONVEYOR IN PAKISTAN

Introducing the cutting-edge solution for efficient material handling – the Chevron Conveyor. Designed with precision and innovation, this conveyor system is engineered to tackle the challenges of transporting bulk materials on an incline with unparalleled reliability. The distinctive V-shaped pattern of the chevron cleats ensures optimal grip, preventing material spillage and slippage, even on steep angles. Whether you're in the mining, agriculture, or manufacturing industry, the Chevron Conveyor is your trusted partner for seamless and secure material transport, enhancing productivity and minimizing downtime.

PAKISTAN NO.1 CHEVRON CONVEYOR MANUFACTURER

Crafted from high-quality materials and built to withstand the toughest environments, the Chevron Conveyor is a durable and low-maintenance solution for your conveyor needs. The robust construction and advanced technology make it suitable for a wide range of applications, from conveying aggregates and minerals to handling agricultural products. With a focus on efficiency and safety, this conveyor system is an investment in the smooth flow of your operations. Elevate your material handling capabilities with the Chevron Conveyor – where reliability meets innovation for unmatched performance.
