01 ABOUT US

Jieliwei Metal Products Co., Ltd., formerly known as Jieliwei Hardware Processing Factory, was established in October 2006 and was registered and upgraded to Foshan Jieliwei Metal Products Co., Ltd. in 2020. The company is located in Sanshui District, Foshan City, Guangdong Province, covering an area of 7,000 square meters and currently employs 200 employees.

The company mainly produces aluminum profile extrusion dies, with a complete mold design, mold programming, and professional product development team. Moreover, the mold production process is mature (15 production processes such as blanking, lathe, machining center, wire cutting, EDM, heat treatment, slow wire walking, etc.), and we have a complete team of after-sales services.

The company's mold design and processing technology has obtained patents for many times, and has been rated as a high-tech enterprise in Foshan City. The monthly production capacity is 5,000 to 6,000 sets. The main products are: industrial products, radiators, sun rooms, building materials, automobiles, solar panels, bathroom aluminum molds, etc.
