From the desk of **Mr. Raj Kumar**

(Food Tech. & Consultant)

Dear Customer,

You are the driving force behind our endeavors.

United Group has brought together individuals from diverse backgrounds to deliver trustworthy products and services tailored to your needs.

Our foundation rests upon the principles of hard work and excellence, where the seeds of United Group were first sown. Since 2003, we have been dedicated to providing solutions for both simple and intricate technical challenges faced by entrepreneurs in the food industry. Through our ability to foster collaboration and relentless pursuit of innovation, we have become a catalyst for success, supporting over 1000 businesses in the industry.

Guided by our visionary outlook, United Group has evolved into a conglomerate, upholding our unwavering commitment to the values of hard work and excellence.

The profitability we achieve is driven by a noble cause. Under The Divine Mission (Trust) based in Faridabad, we strive to spread positivity and contribute to the welfare of mankind.

It is our sincere hope that our work brings both you and us immeasurable prosperity and success.

Application Guidelines

To thoroughly evaluate our flavors, we highly recommend incorporating the flavor into your product and tasting it to experience its complete profile.

It is important to note that the aroma of a finished flavor may not directly correlate with its taste. Relying solely on the smell to evaluate our flavors does not provide an accurate representation of the complete aromatic profile. In many cases, only the top notes (the most volatile components) can be detected.

We work closely with each customer at every stage, starting at inception and design, right through to hand-over, and even beyond with the implementation & operations.

Mixers and Multi Shear Mills for Ketchups and Sauces

The recipe, viscosity and solid content of ketchups/sauces vary widely. Based on decades of experience, United Group has developed range of components & machineries, that enable efficient production, development of new recipes and diversification into more variants.

 **High Shear Batch Mixers**
Emulsifies, homogenizes, solubilizes, suspends, disperses and disintegrates solids.

 **Inline Mixers**
Reduces particle size & mixing times by up to 90%, and can be modified with the use of interchangeable workheads

 **Bottom Entry Mixers**
Fits into the bottom or side of a mixing vessel & used along with a slow speed anchor stirrer for high viscosity sauces.

 **Multi Shear Mill**
Forces powders into the liquid mix, thereby dispersing and hydrating large volumes of powders.
