Company Overview

1. Business overview
2. Market layout
3. Company updates
4. Main customers

Factory #1 50K+ Square Meters, 700+ workers
Assembly lines: 10 lines
Warehouse capacity: 300 containers

Factory #2 1,50K+ Square Meters, 1,000+ workers
Intelligent Assembly lines: 28 lines
Warehouse capacity: 1,000 containers

- Owns two factories located on 200k square meters
- Over 1,700 employees in Wuyi
- The annual capacity reaches to 15-20 million pieces

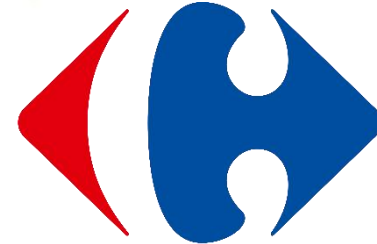

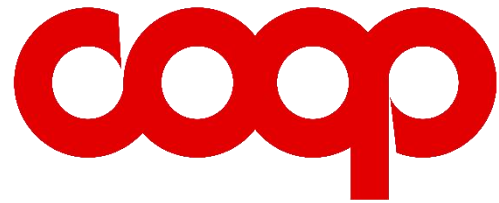

- Design Center and Global eCommerce Center located in Shanghai, China
- North America market support office located in California, US

II

Company Advantages

- ❑ **R & D** - Factory, Shanghai & US base R & D teams, annual new products development 80+ pieces, majority of which will be patented.
- ❑ **Pricing** - External : strict cost control system, large procurement volume both keep price competitive ; internal: Lean production to reduce cost and increase benefits.
- ❑ **Quality control**- In-house testing equipment and individual QC stations from raw material to finished goods. Have built up SQE team to do the supplier audit, deeply help supplier to control cost, quality and delivery time.
- ❑ **Capacity**-The annual capacity is about 15-20 million pieces, can also be enlarged with opening more assembly production lines.
- ❑ **Warehousing capacity**-Warehousing scale can accommodate 1,300 containers.
- ❑ **Delivery**- 98% -100% on time delivery rate.
- ❑ **Service**-EU/US based branch, helps to do the local service, market research and design.

Intelligent Machinery Equipment(Video)

Sunshine Company introduced a great quantities

Automation – Fabric

Fabric Spreading Machine

CNC Cutting Machine

Cloth Cutting Machine

Quilting Template Machine

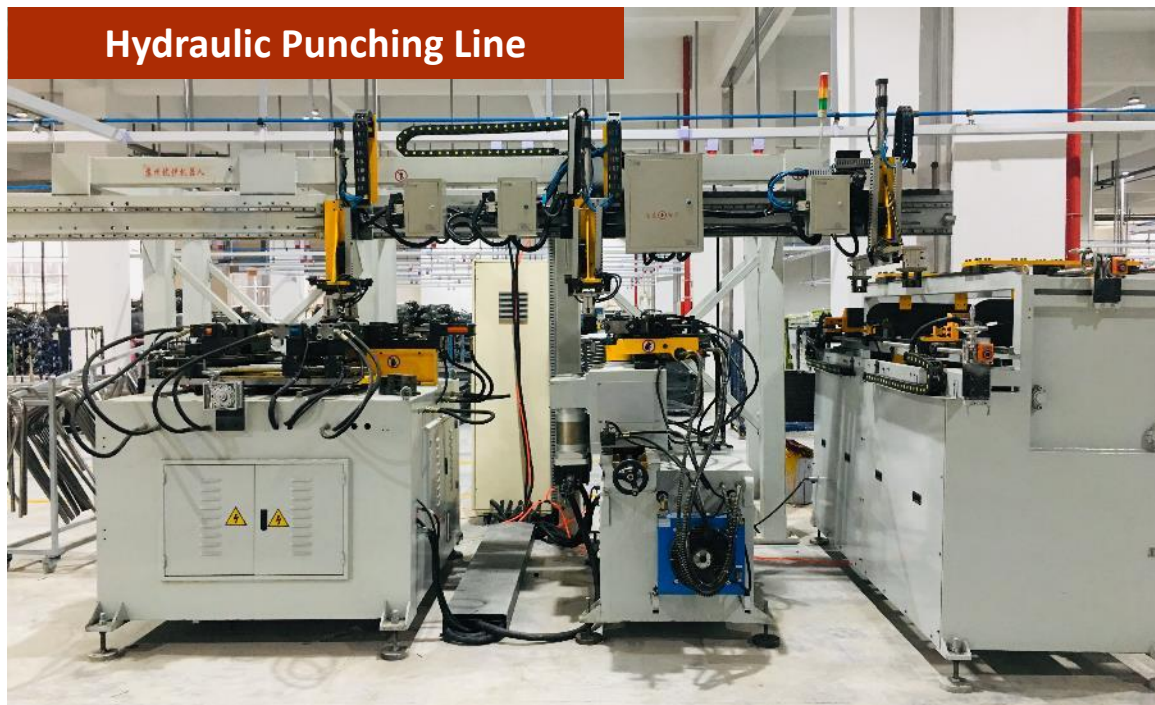

High Frequency Iron Machine

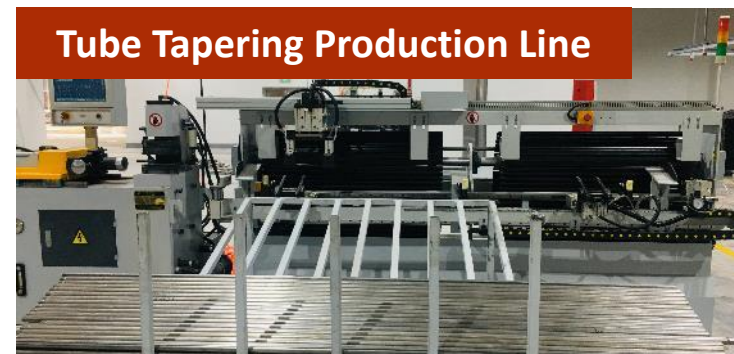

Automation – Frame

Hydraulic Punching Line

Tube Tapering Production Line

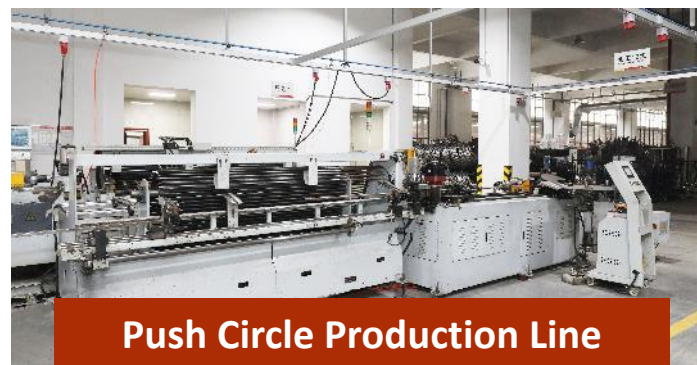

Tube Shaping Production Line

Tube Cutting

Push Circle Production Line

Welding Robot

Automation – Production Line

Powder Coating Production Line

Bending and Punching Integrative Production Line

Semi-Automated Sewing Production Line

Intelligent Assembly Production Line

Armrest Tubing Production Line

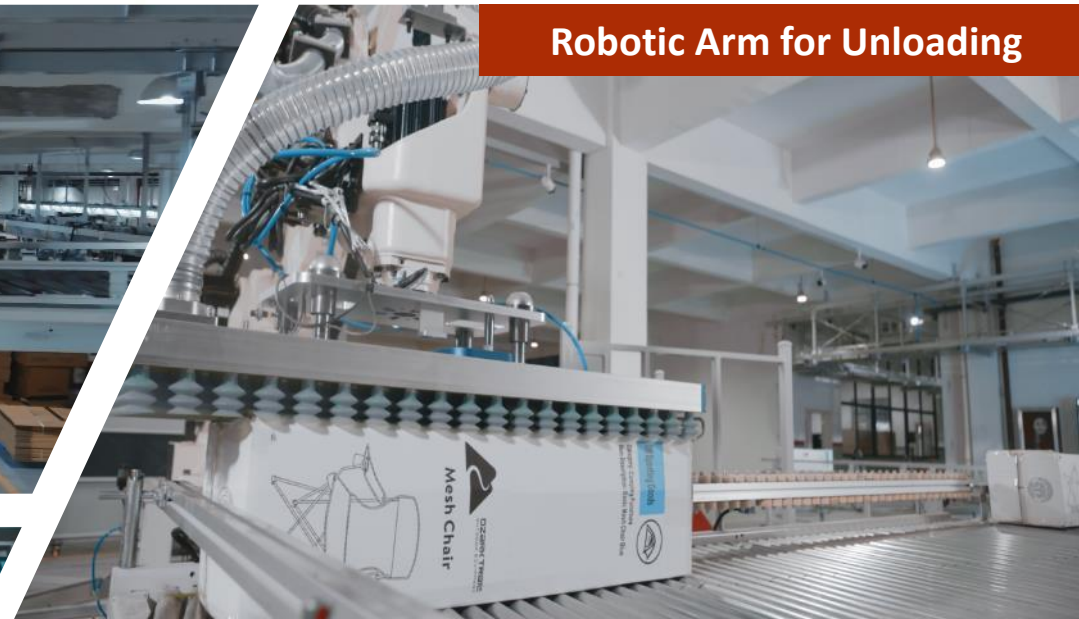

Automation – Logistics

Intelligent Air Conveying System

Robotic Arm for Unloading

Intelligent Rack Storage System

Centralized Pallet System

Quality Control – Testing Lab

Color Fastness Test

Rivet Strength Test

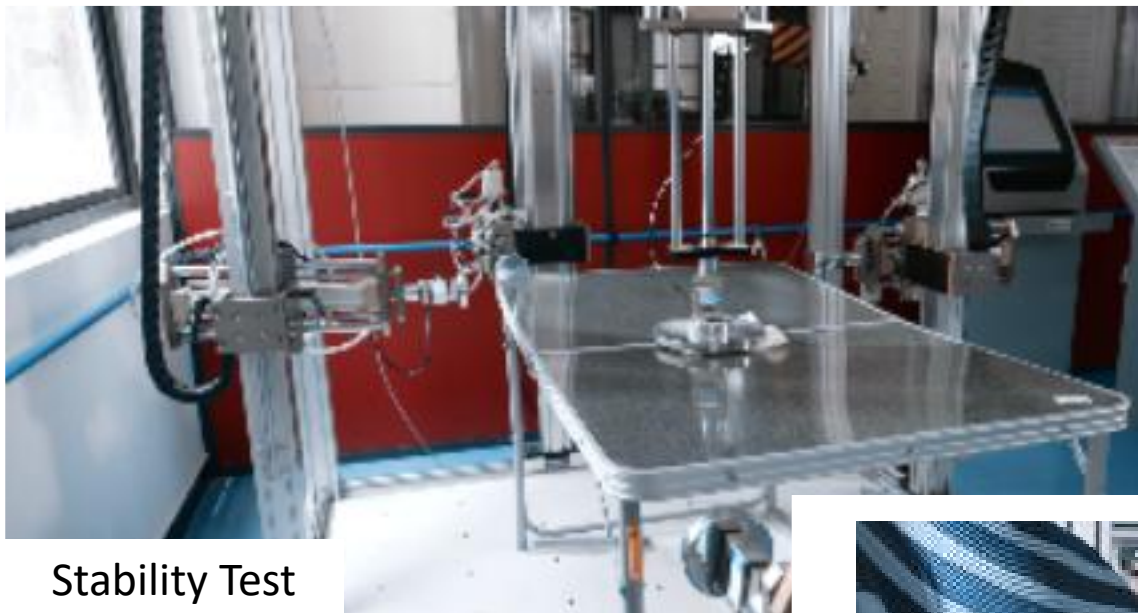

Material Test

UV Ultraviolet Aging Test

Vertical and Horizontal Flammability Test

Stability Test

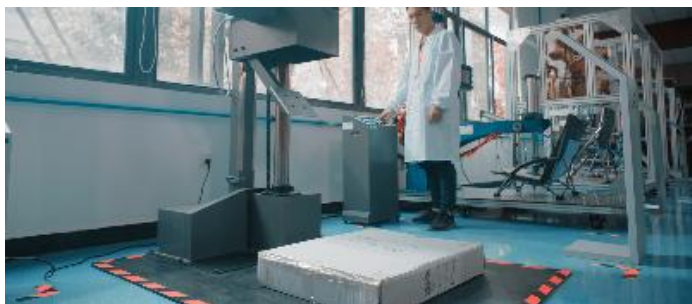

Combination
Fatigue Test

Production Test

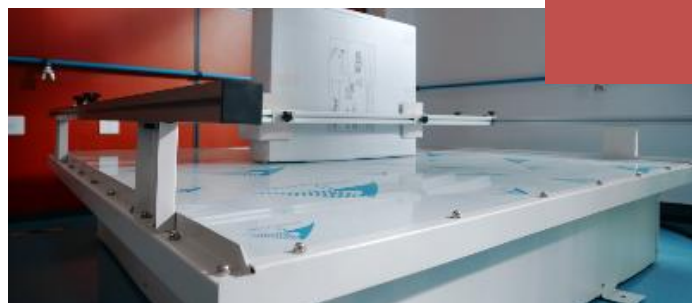

Seat and Backrest Fatigue Test

Quality Control – Testing Lab

Drop Test

Transportation
Test

Transit Test

Compression Strength Test

According to the China National Accreditation Service for laboratory conformity assessment, and following the ISO/IEC 17025 system (CNAS) criterion, we established a benchmark laboratory for the leisure products industry and procured high-end precision testing equipment and apparatuses for it both from home and abroad.

Key Categories

Camping Furniture:

- Chairs
- Tables

- Accessories

Indoor Furniture:

- Saucer Chairs
- Butterfly Chairs
- Loveseats

Patio Furniture:

- Chairs
- Lounges
- Dining Sets
- Conversation Set
- Bistro Sets

V.

Sustainable Development Strategy

- 1、Energy Saving and Environmental Protection Strategy
- 2、Recycling Raw Materials

Energy Saving and Environmental Protection Strategy

- The company has invested 200,000 US dollars in the construction of sewage treatment tanks, by which, the sewage discharge standard of the company reaches the national standard-3, contributing much in terms of environmental protection.
- Thermal recovery: the company recovers 80% of the heat generated during the operation of machinery and equipment, and recycles it for corporate life and production heat, so that the company can save production costs, reduce carbon emissions, and protect the environment.
- The company plans to invest 1 million US dollars in photovoltaic power generation, which can effectively meet the basic power supply needs of the new plant.

- **Environmental Protection Station**

○ Thermal recovery

Possible Solutions for Renewable Raw Materials

- The company has developed an SCS-certified aluminum supplier able to provide 75% recycled aluminum profiles. Such aluminum materials are about 25% or more expensive than ordinary aluminum materials. The defective rate will be very huge, this will also create an extra cost.
- The company's existing fabric supplier has obtained the GRS certification and is able to use recycled polyester filaments to make fabrics, achieving the globally-advocated goal of sustainable development and resources reclamation.
- Recycled Polyester filling with GRS certificate could be used for future production with same cost.
- The company does not only obtain the FSC certificate but also our supplier chains have got it also.

SCOPE CERTIFICATE

Scope Certificate Number: CU1231075GRS-2023-00028565

Control Union Certifications certifies that
Zhejiang Sunshine Leisure Products Co., Ltd. First Branch
License Number: CB-CUC-1231075

No.15, Intersection of Wenyuan Rd. Baixian, Baiyang Industrial Zone, Wuyi County
321000 Jinhua, Zhejiang Sheng, CN-ZJ, China, CN

has been audited and found to be in conformity with the
Global Recycled Standard (GRS)
- Version 4.0 -

Product categories mentioned below (and further specified in the product appendix) conform with the standard(s):

Product categories: Hard goods (PC0022)

Process categories carried out under responsibility of the above mentioned company for the certified products cover:

Manufacturing (PR0016), Printing (PR0023)

(The processes marked with an asterisk may be carried out by subcontractors.)

This certificate is valid until:

2024-04-17

Audit criteria:

Global Recycled Standard V4.0; Content Claim Standard V3.1; Textile Exchange Standard Claims Policy V1.2

Place and date of issue:

Zwolle, 2023-04-18
