We, **Bismillah Pipe & Sanitary Works**, are an unparalleled name in manufacturing and supplying a premium quality range of Pre cast concrete Products, we are manufacturing these products with the help of modern production methods with utmost care and utilizing quality approved basic material.

Driven by technology, **Bismillah Pipe & Sanitary** is a renowned manufacturer of wide range of RCC pipes. Enriched with more than **32 years of experience**, we have expertise to custom design products based on the specification of our customers.

Being a customer focused organization, we work in close coordination with the clients to understand their requirements and accordingly offer them suitable solutions.

Bismillah Pipe & Sanitary has established ourselves as a renowned manufacturer and supplier of RCC Pipe. RCC pipes are commonly used for service lines, canals, sewers, sewage, water supply, irrigation. Offer range is sought in industries for various purposes such as underground gutters and hydropower projects. The industry can benefit from our range of sizes and shapes in the industry as per the needs of our respected customers.

We pride ourselves to be a High-Quality RCC Pipe Manufacturer.

PRODUCTS

We provide quality RCC (Reinforced Concrete Cements) pipes and manhole systems that are known for their supporting strength. These products can be designed & developed in different dimensions to meet the unique requirements of the clients. We specialize in designing and developing RCC pipes and manhole systems for usage in diverse industrial, agricultural & construction application. Our products are extensively used across sectors for different applications including:

- Irrigation purposes
- Drainage of water /wastewater
- Culverts / sewers & other construction purposes
- Laying telecommunication cables
- Laying underground power cables
- Road crossing bridges & pipe lines

RCC PIPES

The provided RCC Pipes are also known as sewer pipes in the local market. These are constructed by using concrete and construction materials in huge diameters. They are typically installed underground for varied water, effluent, and other purposes. Under this category, the customers can buy precast Hume pipes, precast spun pipes, socket and spigot pipes. Our RCC Pipes are produced in large quantities in different specifications and supplied in the same manners. The customers can also avail customization facility from us.
