About us:

**ALKIMIA
LLC**

ALKIMIA LLC is our established company in Armenia, which is under our full management and ownership without partnership of any other parties.

This company is registered to operate only in petroleum and petrochemical products, especially polymers.

MIZANEST

All our activities are carried out under this brand.

It includes our future plans for the huge oil and petrochemical industry and other industries.

**ZGS
LLC**

Zarafshan Giti Samin Co is our registered company in Iran and follows the goals of PP.Pishahang Trading Company. The first managers of that company were three teachers. That company did not enter the field of foreign trade. 15 years later, the son of one of those three teachers pursued it seriously by registering Zarafshan and Alkimia companies under the Mizanest brand and obtaining all permits for the export of petrochemicals and polymers.
