## WORK WITH US

At **ORGANIC&NATURAL**, we not only produce the best quality coconut water and coconut meat but work with local farmers to cultivate premium products in a sustainable way. Every product is produced from fresh coconuts and frozen on site to preserve the natural high quality flavours. We are working towards achieving zero waste and using clean energy in our contribution to saving our precious world.

### Made to Order

Create what you want as per your local demand, different size packaging, different products, Different flavors etc

### High Pressure Process

Extend the shelf life of your fresh products for easier handling in your international markets.

### Certified Organic

Both USDA and EU certified organic by Control Union and we have over a million coconuts quota per month.

### Distribution Partner

Believe in our vision? Work hand-in-hand with us and grow organically and inorganically to create a global brand.

### International OEM

Start a brand with us. Just create your label and we will guide you along the way!

### Business Guidance

Get a head start on how to manage the product that you buy from us.
