

YOUR END-TO-END ICT PARTNER

From Foundation to Future

We are a complete ICT solution provider, transforming businesses across the Middle East, India, and Africa.

Established in 2016 in Dubai, Tecdeal has evolved from a regional IT hardware supplier into a full-fledged technology partner. We design, deploy, manage, and secure end-to-end ICT solutions that power modern businesses, combining trusted global technologies with deep local expertise.

Established

2016 in Dubai, UAE

Presence

4+ Countries
(UAE, India, East Africa)

Core Expertise

End-to-End ICT
Solutions

Key Partnerships

Dell Gold Partner,
Lenovo Gold Partner,
HP Authorized Partner

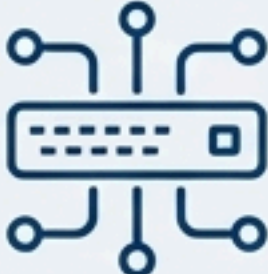

Our journey reflects our commitment to meeting the evolving needs of our clients.

2016

Hardware Foundation

Began as a dedicated hardware trading company in the UAE, supplying high-quality systems from Dell, Lenovo, and HP and building a reputation on reliability and trust.

2019

Strategic Expansion

Diversified into enterprise networking and infrastructure, shifting from product distribution to solution-oriented service delivery with structured cabling, wireless, and IP telephony.

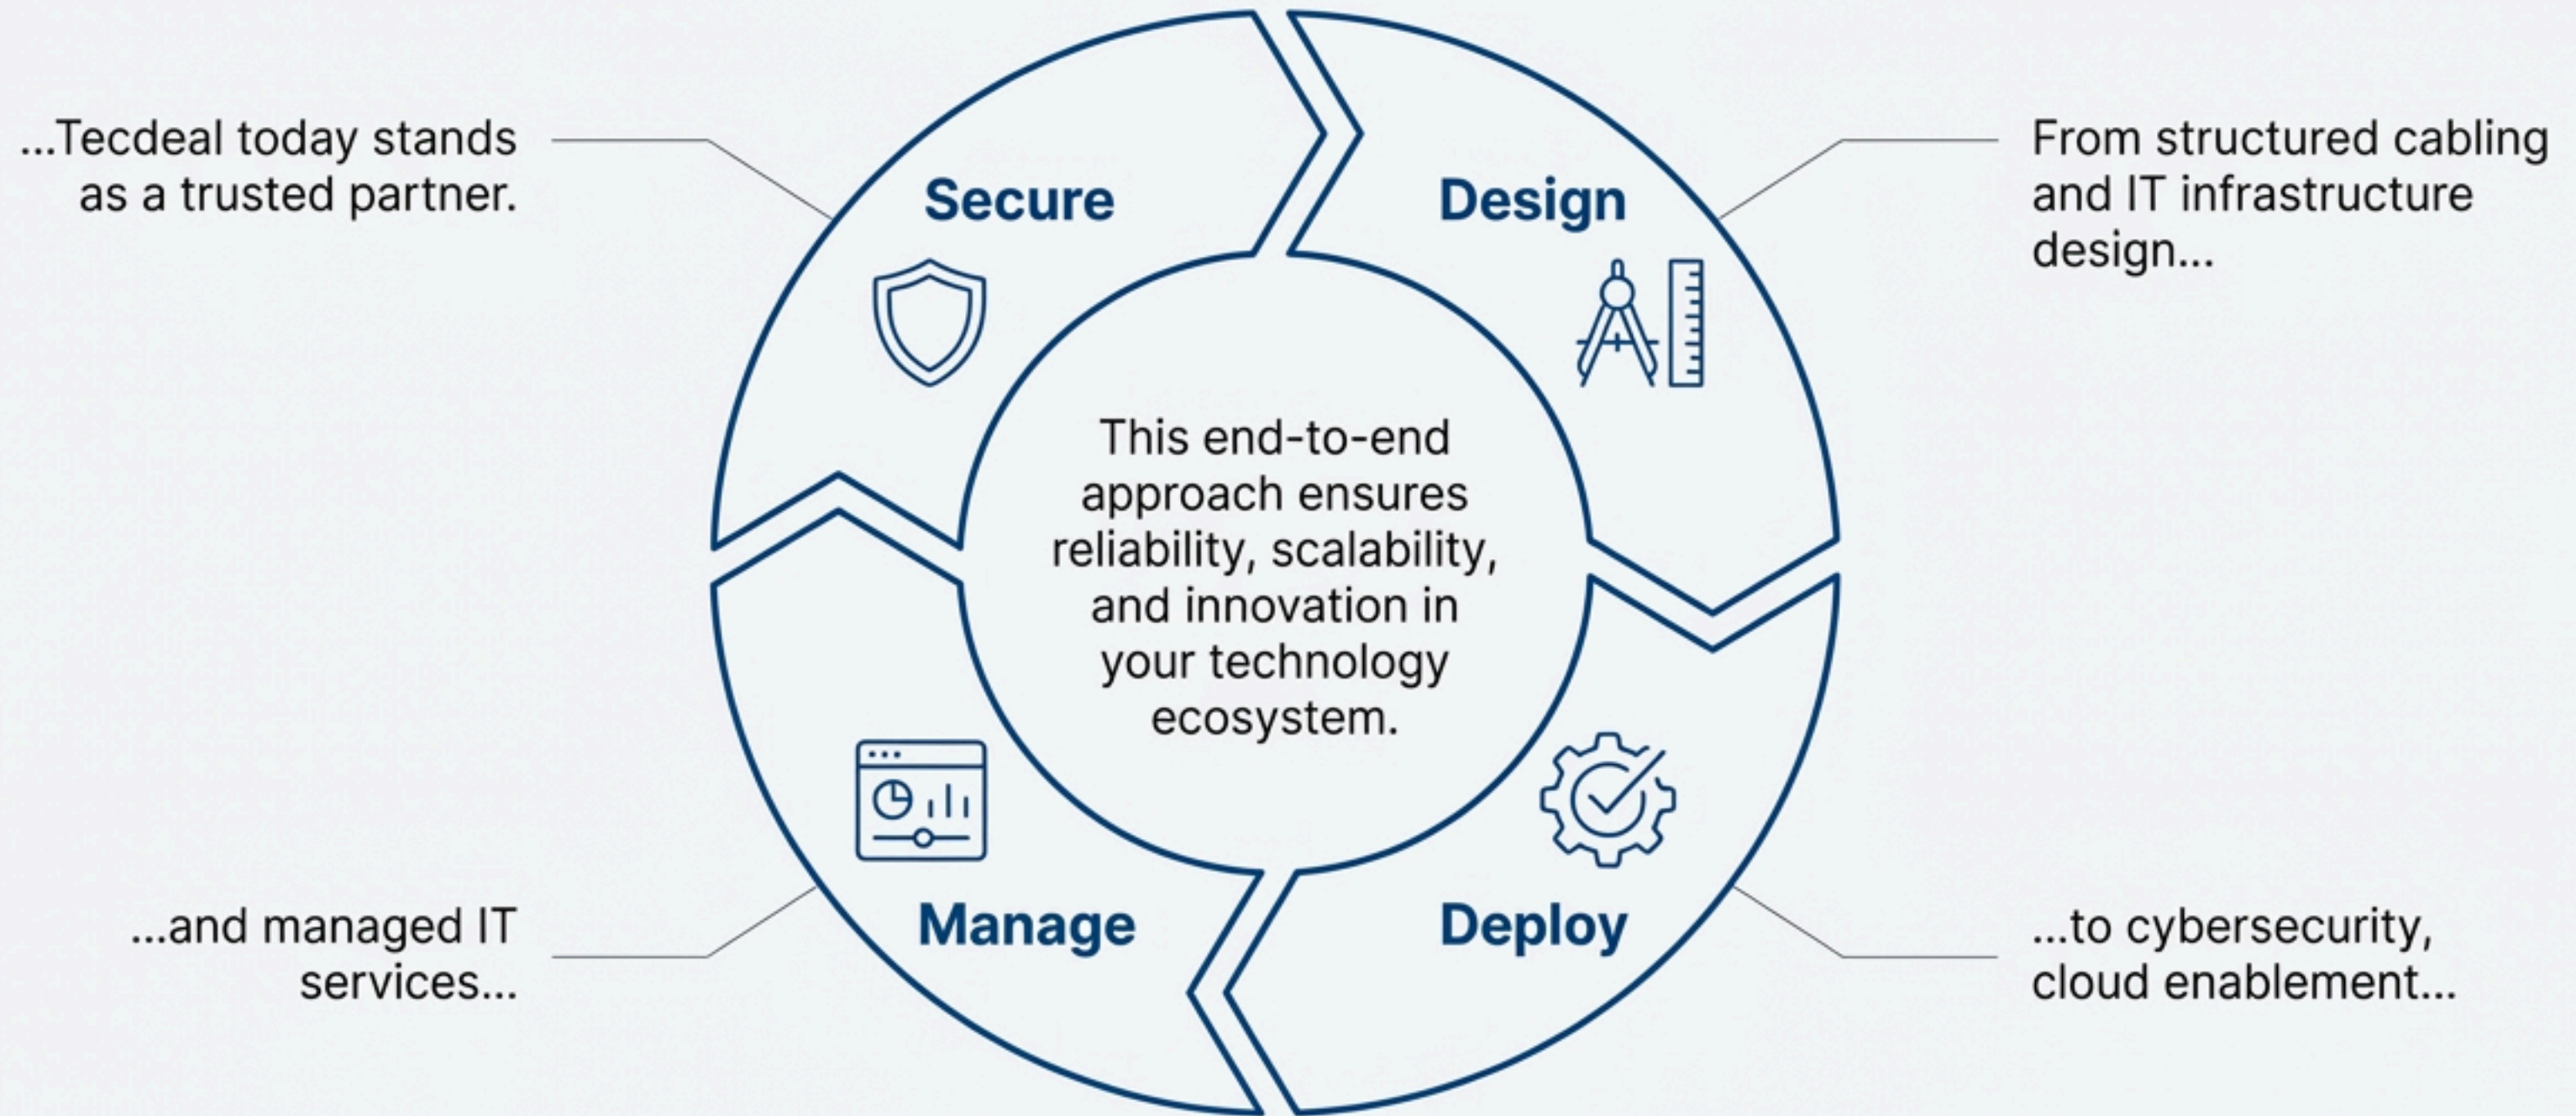

2022-2024

Comprehensive ICT Partner

Evolved into a complete solutions provider, adding managed IT services, cybersecurity, and cloud transformation to guide clients through their entire technology lifecycle.

We partner with you across the entire technology lifecycle.

Our capabilities are organized into three strategic pillars, creating a complete ICT ecosystem.

Core Infrastructure & Connectivity

The foundational hardware, networking, and physical systems that form the backbone of your operations.

Collaboration & Communication

The tools and platforms that connect your people, systems, and locations seamlessly.

Operations, Security & Transformation

The services that manage, protect, and modernize your IT environment for resilience and growth.

IT Solutions

End-to-End IT Infrastructure • Workplace Ecosystem • Deployment & Support

Servers & Infrastructure

Rack, tower & blade servers for scalability and virtualization.

Enterprise storage, networking & backup solutions.

Hybrid cloud and virtualization-ready architectures.

Monitors & Peripherals

Professional monitors for productivity and creative teams.

Docking stations, keyboards, mice, webcams & accessories.

Meeting room displays & collaboration devices.

End-User & Office

Laptops, desktops & all-in-one systems. Printing, scanning & imaging solutions. Genuine toners, inks & consumables.

Why Tecdeal: One strategic partner • Genuine warranty products • Design + supply + deployment + support

Contact: 6005-83233

Servers, Storage & Data Center Solutions

HPE • Dell • Lenovo | Rack • Tower • Blade | SAN • NAS • Backup & DR

Enterprise servers built for scalability, virtualization, and mission-critical workloads.

HPE ProLiant servers for secure, reliable compute.

Dell PowerEdge servers optimized for performance and growth.

Lenovo ThinkSystem servers for efficiency and flexibility.

Storage: SAN/NAS, SSD & hybrid, backup and disaster recovery.

Rack Servers

High-density compute for data centers.

Tower Servers

Ideal for SMEs & branch offices.

Blade Servers

Ultra-scalable virtualization platforms.

Storage & DR

Resilience for business continuity.

I Pillar I: We build a robust and future-ready foundation with Core Infrastructure & Connectivity.

End User Computing & Enterprise Hardware

Business-grade laptops, desktops, workstations, and servers. We ensure every hardware investment delivers measurable performance and long-term value.

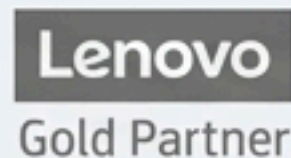

IT Infrastructure & Networking

Design and implementation of LAN/WAN, structured cabling (fiber & copper), and enterprise-grade switching, routing, and Wi-Fi solutions.

ELV & Smart Systems

Integration of CCTV, access control, intercom, and public address systems to create secure and intelligent physical spaces.

◎ Pillar II: We enable seamless experiences through unified Collaboration & Communication.

IP Telephony & Unified Communications (UCC)

IP telephony systems (SIP/VoIP), integration with Microsoft Teams/Zoom/3CX, and contact center features for seamless voice collaboration.

AV & Meeting Room Solutions

Design and integration of video conferencing systems, room controls, digital signage, and LED walls for immersive, friction-free meeting experiences.

Jabra

MAXHUB

III Pillar III: We ensure resilience and growth with advanced Operations, Security & Transformation

Cybersecurity & Endpoint Protection

Multilayered defense including Next-Gen Firewalls, Endpoint Detection & Response (EDR), email security, and vulnerability management.

Cloud & Digital Transformation

Microsoft 365 and Azure integration, server virtualization, and seamless hybrid cloud adoption strategies to optimize costs and enable scale.

Data Storage, Backup & Disaster Recovery

Enterprise storage (SAN/NAS), scheduled backups, and failover systems to ensure your data is fast, accessible, and protected.

Managed IT & Security Operations

SLA-based support, proactive monitoring, ITSM, and IT observability to unify control, visibility, and compliance across your ecosystem.

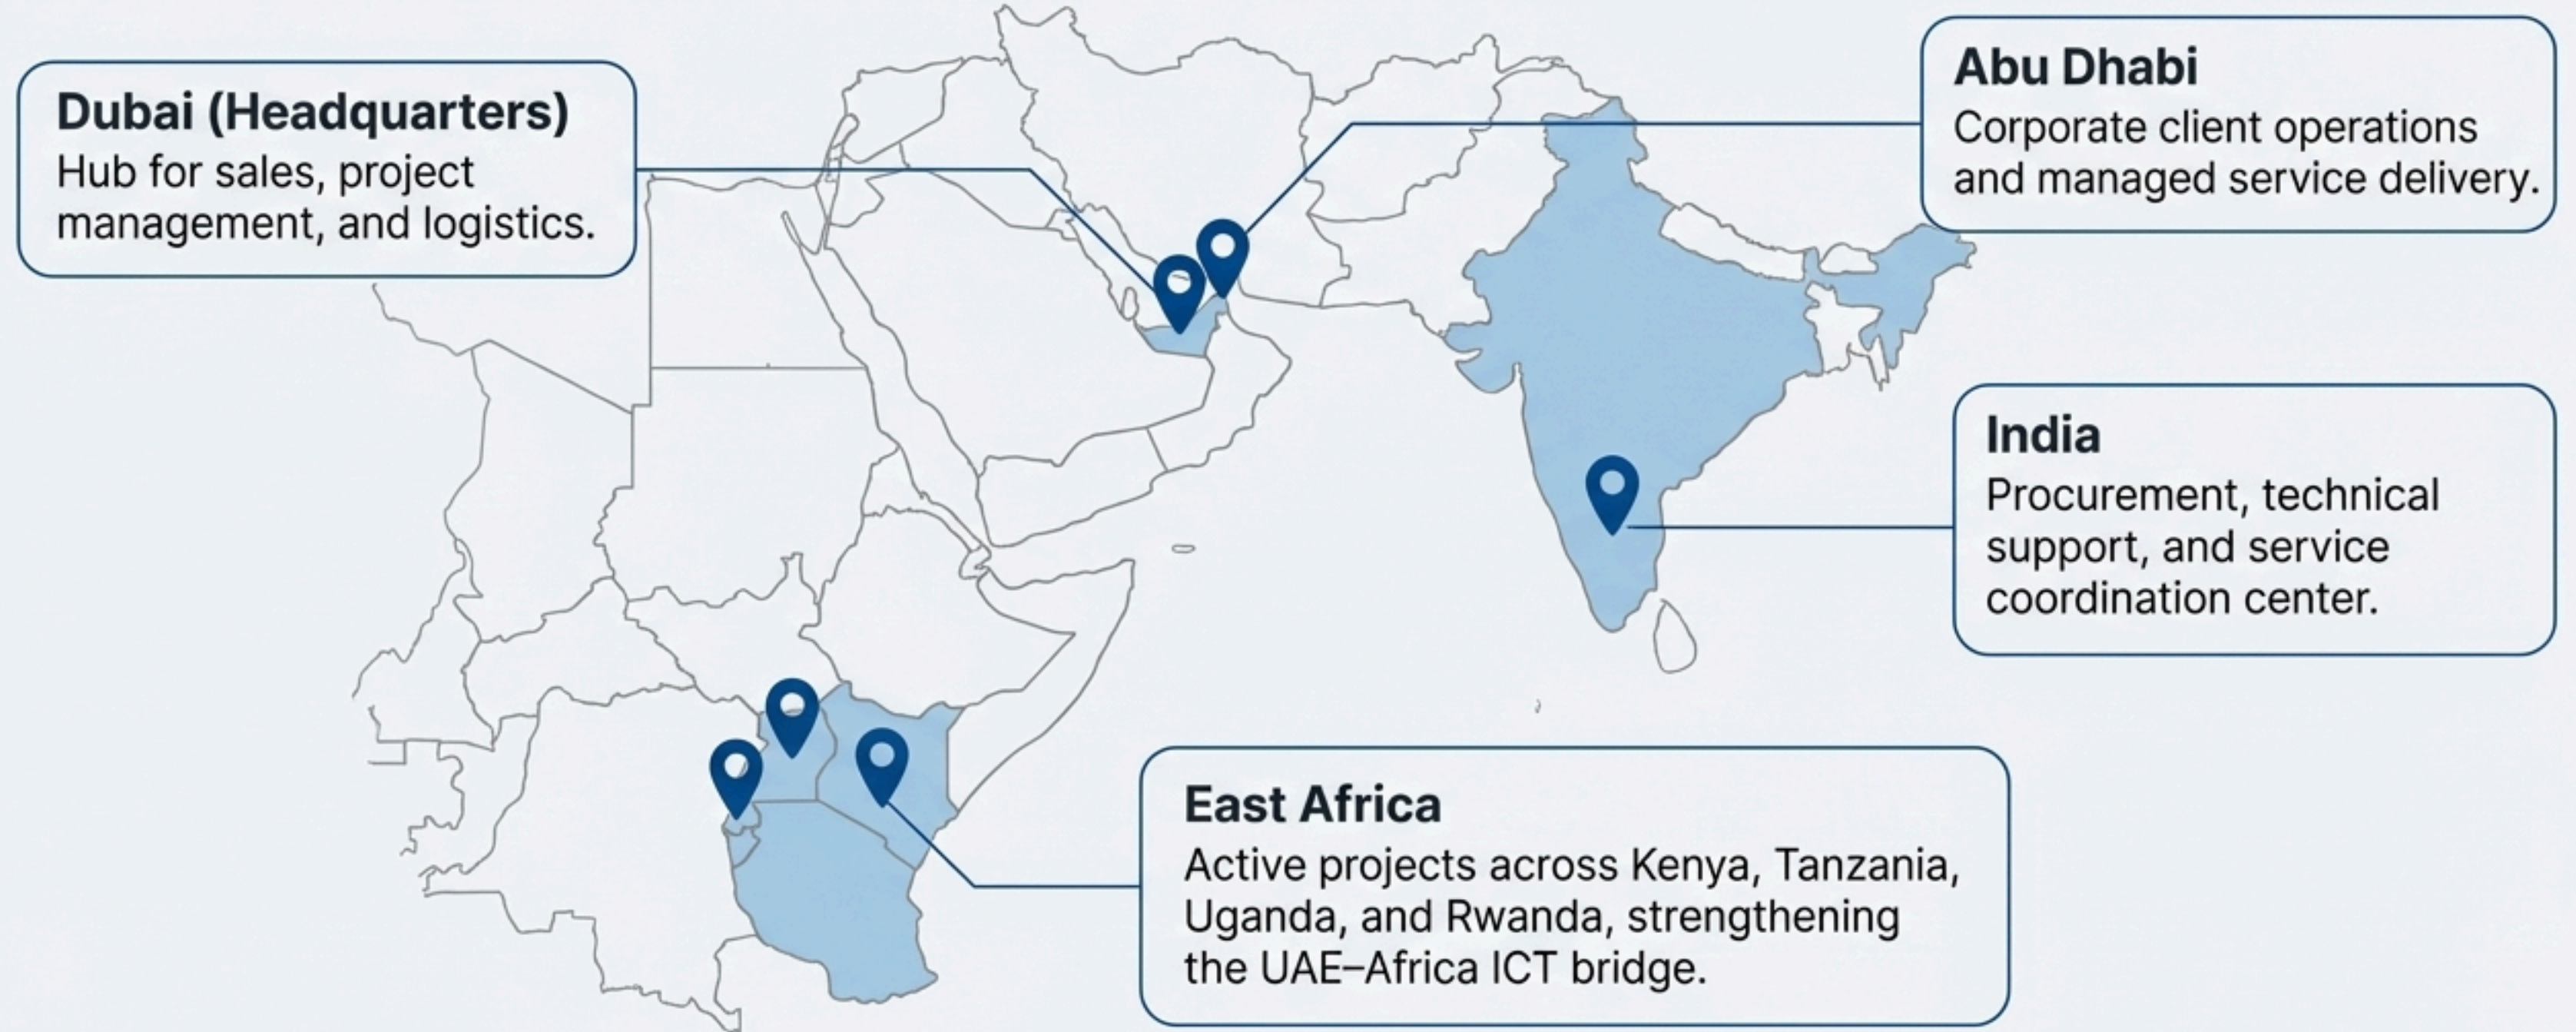

Our strength is built on certified partnerships with global technology leaders.

These collaborations enable us to deliver certified, enterprise-grade solutions backed by official warranty, local support, and compliance with international standards. Our status as a Gold Partner for Dell and Lenovo, and an Authorized Partner for HP, ensures every deployment combines world-class technology with trusted regional expertise.

We connect Asia, the Gulf, and Africa with a strategic regional presence.

Why partner with Tecdeal?

Complete ICT Expertise

End-to-end capability covering design, deployment, and ongoing management.

Regional Presence

Strong operational base across the UAE, India, and East Africa for fast, consistent service.

Certified Partnerships

Authentic products and OEM-backed warranties from global technology leaders.

Proven Performance

A track record of implementing secure, scalable, and cost-effective IT environments.

Global Alliances

Long-standing relationships with leading vendors delivering reliable, innovative solutions.

Customer Commitment

A customer-first approach built on transparency, proactive support, and long-term partnership.

Let's build your digital future.

We empower businesses by delivering high-quality IT hardware and innovative ICT solutions built on a foundation of trust, reliability, and continuous innovation.
