

CHEMINERAL

Bitumen Penetration Grade 60/70 & 85/100

CHEMINERAL is an export-oriented supplier of refinery-grade petrochemical products, specialising in consistent and specification-controlled Bitumen for international infrastructure projects.

With access to reliable refinery sources and structured export logistics, we provide stable supply solutions for contractors, asphalt plants, distributors, and government-backed road construction projects.

CHEMINERAL

BITUMEN 60/70 & 85/100

Our focus is on:

- **Specification compliance**
- **Consistent shipment quality**
- **Flexible export packaging**
- **Transparent documentation**

Technical Specifications

Property	Test Method	Specification
Penetration @25°C	ASTM D5	60–70 dmm
Softening Point	ASTM D36	49–56 °C
Ductility @25°C	ASTM D113	>100 cm
Flash Point	ASTM D92	>230 °C
Specific Gravity @25°C	ASTM D70	~1.01
Solubility in TCE	ASTM D2042	>99%

Technical Specifications

Property	Test Method	Specification
Penetration @25°C	ASTM D5	85–100 dmm
Softening Point	ASTM D36	42–52 °C
Ductility @25°C	ASTM D113	>100 cm
Flash Point	ASTM D92	>230 °C
Specific Gravity @25°C	ASTM D70	1.00–1.05
Solubility in TCE	ASTM D2042	>99%

Quality Assurance & Documentation

Each shipment includes:

- **Certificate of Analysis (COA)**
- **MSDS**
- **Packing List**
- **Commercial Invoice**
- **Bill of Lading**
- **Third-Party Inspection**

Strict quality control procedures ensure product consistency across shipments.

Why Choose CHEMINERAL

- ✔ **Reliable refinery sourcing**
- ✔ **Stable penetration & viscosity control**
- ✔ **Competitive export pricing**
- ✔ **Professional documentation handling**
- ✔ **Long-term supply commitment**

If you are looking for high-quality Bitumen with reliable supply and competitive pricing, we are ready to establish long-term cooperation.

Chemineral Company with direct presence and strong partnerships in major oil refineries, is able to supply Bitumen in various packaging options according to customer requirements.
