Where Innovation
Meets Elegance

Together, we shape a

vision

where innovation meets everyday comfort.

To redefine bathroom luxury through innovation, sustainability, and design excellence – becoming a trusted global brand known for quality and performance in every product we create.

Our vision is to empower homes, architects, and designers to build environments that reflect comfort and confidence. With every basin and fixture we produce, we move closer to a future where design and durability coexist seamlessly.

Come, shape our shared vision – a vision built on trust, innovation, and the desire to make everyday living

Welcome to Sperix

At **Sperix**, we craft more than just basins – we create statements of style, hygiene, and durability. With years of expertise in sanitary ware manufacturing, **Sperix** is committed to delivering innovative designs, flawless functionality, and timeless aesthetics. Every product reflects precision engineering, superior raw materials, and a promise of long-lasting performance.

From elegant basins to advanced sanitary solutions, Sperix blends technology with artistry – making every space more refined and comfortable.

QUALITY CONTROL

We follow strict inspection standards at every stage of production. Each product passes through two checkpoints - machine inspection and manual inspection - to ensure flawless glaze, perfect finish, and long-lasting quality.

WALL HUNG BASIN

As per shown in the picture, the rag bolt must be grouted into the cement/concrete wall. The bolts must be fixed to the cement/concrete wall. Allow setting & checking than install it using nut and washer.

COUNTER WASHBASIN

At the beginning

1. A skilled or experienced person should install counter lavatories.
2. Avoid using adhesive with this product.
3. Check the waste area and supply tubing if required.
4. Do not open the lavatory from its protective carton until you are ready for installation.
5. Please follow all local building and plumbing codes.

MATERIAL & TOOLS

Measure tape, Keyhole or saber saw, Hammer, Glasses, Rags or Paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, sealant, sharp knife or scissors.

INSTALLATION OF LAVATORY

Please Note: Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

1. Please check the desired location for clearance between the back splash, faucet, Fixture and cabinet.
2. Please cut the template.
3. Please carefully trace the template on the counter top directed.
4. Please mark the faucet hole centerline on the counter top.
5. Please drill a 1/2" prime prime pilot on the inside of the cut line.

For Wood Counter tops:

1. Mark and pre-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

For Marble Counter tops:

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/6 holes 5/8" deep at the locations shown on the template.
2. Use a setting tool and hammer to secure the anchors.

For All Installations:

1. If the counter top has not been installed, install it at this time.
2. Drill the faucet holes according to the faucet installation instructions.
3. Install the faucet to the counter top according to the manufacture's instructions.
4. Install the drain to the lavatory according to the manufacture's instructions.

MAINTENANCE

Like any other part of your house, the bathroom can be made to look great and made to last if it is taken care of regularly. To make your bathroom beautiful here are some invaluable tips.

WASH BASIN

A mild detergent can be used to wash the basin at least once a day. After washing, the basin should be wiped out clearly to avoid water stains.

CLOSETS

- Cleanser like Harpik can be used to clear the closet with soft plastic brush, at least once a day.
- To avoid minute discoloring, after flushing the toilet give it a once over with the soft brush.
- Keep the toilet brush handy in a convenient stand nearby.
- In Case of toilets and basins, if there has been no maintenance since long period of time, water deposits and discoloration can form on the surface of areas that get wet. In such cases, these stains/marks can be removed with the help of a solution of dilute hydrochloric acid.
- Clean with a soft cotton cloth and warm water with soap.
- Do not use thinner, dry cleaning liquids or powder paste. Use a liquid cleaner at least twice a week.
- Use Brasso or car rubbing compound and then polish with a cloth to remove fine scratches.
