- > **Information Technology Consulting**
- > **Learning & Development**

# Strategic Business Advisory

---

At BlueSheen, we help organizations shift from reactive decision-making to proactive, data-driven strategies that drive sustainable growth.

Our strategic advisory services empower businesses to:

- Enhance profitability by optimizing resources and market positioning.
- Reduce risk by identifying challenges and staying ahead of industry trends.
- Achieve long-term success with structured, informed decision-making.

A strong strategy requires clear insights. By leveraging the right tools and analytics, we transform raw data into meaningful intelligence, providing the clarity needed to make strategic decisions with confidence.

# QHSE Consulting

---

At BlueSheen , we specialize in QHSE consulting, offering comprehensive services that include ISO implementation, general safety consulting, behavior-based safety consulting, quality control consulting, and more.

Our expertise covers all aspects of Quality, Health, Safety, and Environment, ensuring businesses achieve compliance, enhance workplace safety, and improve operational efficiency. We take pride in helping organizations implement industry best practices, mitigate risks, and foster a culture of continuous improvement.

Whether it's achieving ISO certification or optimizing safety protocols, we provide tailored solutions to meet your unique business needs.

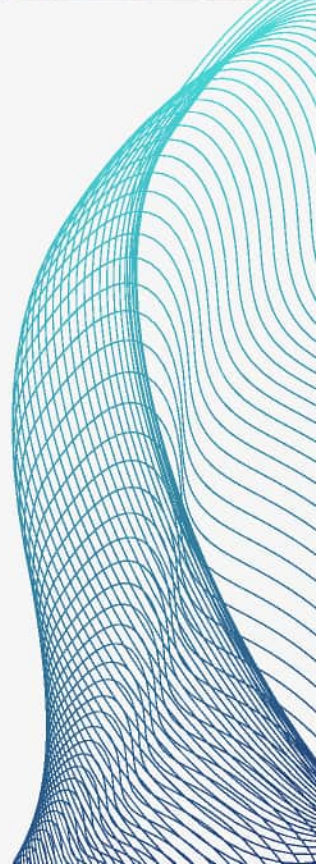

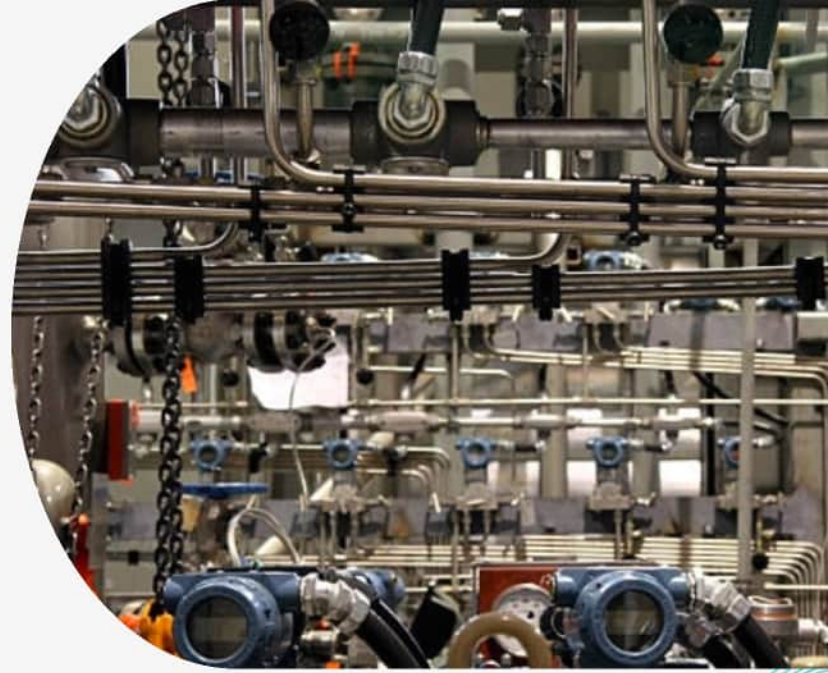

# Automation & Instrumentation Consulting

---

Making the right choice for your automation platform and implementation team can mitigate risk to your project and ongoing operations. With challenging commodity prices impacting project economics and increased shareholder scrutiny on ROI, selecting the right automation platform and execution team is imperative.

BlueSheen offers a full range of Instrumentation and Controls Services, including scope development, conceptual design and evaluation, technical and procurement specifications, detailed design engineering, CAD drafting, procurement, field support, circuit, component, and system analysis, failure modes and effects analysis, test plans, and testing support. BlueSheen is committed to delivering high-quality, efficient, and reliable solutions for your automation and instrumentation needs.

# IT Consulting

---

At BlueSheen, we help businesses navigate the digital world with smart, reliable IT consulting. Our services include Strategic Technology Planning, Operational Efficiency Improvements, Cybersecurity & Risk Management, Digital Transformation, and Data Management & Analytics.

Whether you're looking to streamline operations, strengthen security, or make better use of data, we provide practical solutions tailored to your needs.

Leading our IT Advisory team is a seasoned IT manager, certified by the EC-Council, with deep expertise in cybersecurity and IT strategy.

We're passionate about helping businesses stay secure, efficient, and ahead of the curve in today's fast-changing tech landscape. With BlueSheen, you get more than just advice—you get a trusted partner in your digital journey.

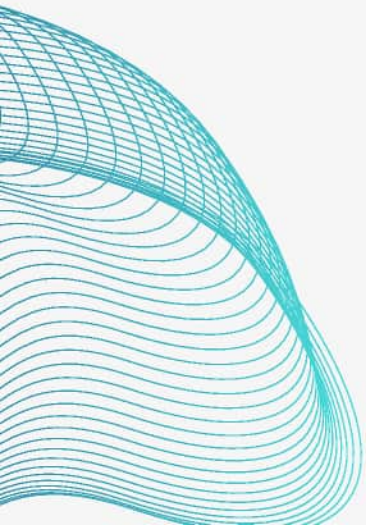

# Training & Certification

---

At BlueSheen , we are committed to empowering teams with the knowledge and skills needed for long-term success. Our comprehensive training solutions cover a wide range of competencies, ensuring employees are well-equipped to thrive in today's dynamic work environment.

We provide a wide range of training from Management systems, Quality, health, safety, and environmental (QHSE) all the way to specific technical courses such as Instrumentation, Flow measurement, Custody transfer fundamentals, Calibration basics, and similar titles. We also provide Information Technology courses like Data Science, Business Info Systems, Data Management, Cyber Security, and etc.
